Philosophia Togata II Plato And Aristotle At Rome:

Philosophia Togata Jonathan Barnes, Miriam Tamara Griffin, 1997 The role of philosophy as a valued and effective part of the culture of civilized Romans has aroused an increasing amount of scholarly interest in recent years In this volume which gathers together nine papers delivered at a series of seminars on philosophy and Roman society in the University of Oxford scholars of classical literature Roman history and ancient philosophy investigate the place of Platonism and Aristotelianism in Roman intellectual cultural and political life from the second century BC to the third century AD In addition to chapters on such important figures as Cicero Varro Plutarch Favorinus Celsus and Porphyry the book contains essays on the tradition of Aristotle's library at Rome the theory of the mixed constitution and the anonymous commentary on Plato's Theaetetus It thus forms a complement to *Philosophia Togata I* which addressed the importance of the doctrines of the Hellenistic schools to Roman society during the first century BC

Philosophia Togata Jonathan Barnes, Miriam Tamara Griffin, 1999 The mutual interaction of philosophy and Roman political and cultural life has aroused more and more interest in recent years among students of classical literature Roman history and ancient philosophy In this volume which gathers together some of the papers originally delivered at a series of seminars in the University of Oxford scholars from all three disciplines explore the role of Platonism and Aristotelianism in Roman intellectual cultural and political life from the second century BC to the third century AD

Philosophia Togata Jonathan Barnes, Miriam Tamara Griffin, 2023 This volume which gathers together nine papers delivered at a series of seminars on philosophy and Roman society in the University of Oxford explores the role of Platonism and Aristotelianism in Roman intellectual cultural and political life from the 2nd century BC to the 3rd century AD

Philosophia Togata II Miriam T. Griffin, Jonathan Barnes, 1997 **Plato and Aristotle in Agreement?** George E. Karamanolis, 2006-04-06 George Karamanolis breaks new ground in the study of later ancient philosophy by examining the interplay of the two main schools of thought Platonism and Aristotelianism from the first century BC to the third century AD From the time of Antiochus and for the next four centuries Platonists were strongly preoccupied with the question of how Aristotle's philosophy compared with the Platonic model Scholars have usually classified Platonists into two groups the orthodox ones and the eclectics or syncretists depending on whether Platonists rejected Aristotle's philosophy as a whole or accepted some Peripatetic doctrines Karamanolis argues against this dichotomy He argues that Platonists turned to Aristotle only in order to discover and elucidate Plato's doctrines and thus to reconstruct Plato's philosophy and they did not hesitate to criticize Aristotle when judging him to be at odds with Plato For them Aristotle was merely auxiliary to their accessing and understanding Plato Platonists were guided in their judgement about Aristotle's proximity to or distance from Plato by their own assumptions about what Plato's doctrines were Also crucial for their judgement were their views about which philosophical issues particularly mattered Given the diversity of views rehearsed in Plato's works Platonists were flexible enough to decide which were Plato's own doctrines The real reason behind the rejection of Aristotle's testimony was not to

defend the purity of Plato's philosophy as Platonists sometimes argued in a rhetorical fashion Aristotle's testimony was rejected rather because Platonists assumed that Plato's doctrines were views found in Plato's work which Aristotle had discarded or criticized The evaluation of Aristotle's testimony on the part of the Platonists also depends on their interpretation of Aristotle himself This is particularly clear in the case of Porphyry with whom the ancient discussion reaches a conclusion which most later Platonists accepted While essentially in agreement with Plotinus's interpretation of Plato Porphyry interpreted Aristotle in such a way that the latter appeared to agree essentially with Plato on all significant philosophical questions a view which was dominant until the Renaissance Karamanolis argues that Porphyry's view of Aristotle's philosophy guided him to become the first Platonist to write commentaries on Aristotle's works **Aristotle, Plato and Pythagoreanism in the First Century BC** Malcolm Schofield, 2013-01-17 This book presents an up to date overview of the main new directions taken by ancient philosophy in the first century BC a period in which the dominance exercised in the Hellenistic age by Stoicism Epicureanism and Academic Scepticism gave way to a more diverse and experimental philosophical scene Its development has been much less well understood but here a strong international team of leading scholars of the subject reconstruct key features of the changed environment They examine afresh the evidence for some of the central Greek thinkers of the period as well as illuminating Cicero's engagement with Plato both as translator and in his own philosophising The intensity of renewed study of Aristotle's Categories and Plato's Timaeus is an especially striking outcome of their discussions The volume will be indispensable for scholars and students interested in the history of Platonism and Aristotelianism *Philosophy in the Hellenistic and Roman Worlds* Peter Adamson, 2015-08-28 Peter Adamson offers an accessible humorous tour through a period of eight hundred years when some of the most influential of all schools of thought were formed from the third century BC to the sixth century AD He introduces us to Cynics and Sceptics Epicureans and Stoics emperors and slaves and traces the development of Christian and Jewish philosophy and of ancient science Chapters are devoted to such major figures as Epicurus Lucretius Cicero Seneca Plotinus and Augustine But in keeping with the motto of the series the story is told without any gaps providing an in depth look at less familiar topics that remains suitable for the general reader For instance there are chapters on the fascinating but relatively obscure Cyrenaic philosophical school on pagan philosophical figures like Porphyry and Iamblichus and extensive coverage of the Greek and Latin Christian Fathers who are at best peripheral in most surveys of ancient philosophy A major theme of the book is in fact the competition between pagan and Christian philosophy in this period and the Jewish tradition also appears in the shape of Philo of Alexandria Ancient science is also considered with chapters on ancient medicine and the interaction between philosophy and astronomy Considerable attention is paid also to the wider historical context for instance by looking at the ascetic movement in Christianity and how it drew on ideas from Hellenic philosophy From the counter cultural witticisms of Diogenes the Cynic to the subtle skepticism of Sextus Empiricus from the irreverent atheism of the Epicureans to the

ambitious metaphysical speculation of Neoplatonism from the ethical teachings of Marcus Aurelius to the political philosophy of Augustine the book gathers together all aspects of later ancient thought in an accessible and entertaining way **From Stoicism to Platonism** Troels Engberg-Pedersen, 2017-02-13 From Stoicism to Platonism describes the change in philosophy from around 100 BCE when monistic Stoicism was the strongest dogmatic school in philosophy to around 100 CE when dualistic Platonism began to gain the upper hand with huge consequences for all later Western philosophy and for Christianity It is distinguished by querying traditional categories like eclecticism and harmonization as means of describing the period Instead it highlights different strategies of appropriation of one school's doctrines by philosophers from the other school with all philosophers being highly conscious of their own identity The book also sets out to break down the traditional boundaries between on the one hand the study of Greco Roman philosophy in the period and on the other hand that of contemporary Hellenistic Jewish and early Christian writings with a philosophical profile In these ways the book opens up an immensely fruitful period in the history of philosophy **Cicero's Academici libri and Lucullus** Tobias

Reinhardt, 2022-11-17 Cicero's so called *Academica* is a significant text for European cultural and intellectual history as a substantial and self-contained body of evidence for one of the two varieties of scepticism in antiquity as evidence for Stoic thought presented on its own terms and in interaction with objections as a key text in a broader tradition which is devoted to the possibility of knowledge arising from perceptual experience and as evidence for the fate of Plato's Academy in its final phase as a functioning school This volume is the first detailed commentary on this set of texts since Reid's published in 1885 It takes full account of the scholarly debate to date and seeks to elucidate the dialogues and fragmentary remains from a philosophical historical literary and linguistic point of view **Aristotle's Categories in the Early Roman Empire**

Michael James Griffin, 2015 This volume studies the origin and evolution of philosophical interest in Aristotle's *Categories* and illuminates the earliest arguments for Aristotle's approach to logic as the foundation of higher education **Learning to Live Naturally** Christopher Gill, 2022 Christopher Gill explores the ethical ideas of the ancient Stoics and their significance for modern moral theory He draws out the continuing value of Stoic thinking in particular on the relationship between virtue and happiness and on the interconnections between ethical understanding social relationships and emotion

Cicero on Politics and the Limits of Reason Jed W. Atkins, 2013-10-17 This book rehabilitates Cicero's reputation as an important political thinker by providing a fresh interpretation of his central works of political philosophy **Proceedings of the Boston Area Colloquium in Ancient Philosophy: Volume XXIV (2008)** John Joseph Cleary, Gary M. Gurtler, 2009 This volume contains papers and commentaries presented to the Boston Area Colloquium in Ancient Philosophy during the academic year 2007-8 The papers discuss a wide range of topics related to Plato and Aristotle On Plato topics include false pleasures in the *Philebus* the tripartite soul in the *Republic* and rhetoric in the *Phaedrus* and on Aristotle the relation of the physical and psychological in *De Anima* of virtue and happiness in the *Ethics* of body and nature in the *Physics* and the role of

pros hen in the Metaphysics One other paper argues for the Aristotelian origin of Stoic determinism Philosophy and Power in the Graeco-Roman World Miriam Tamara Griffin, 2002 This volume in honor of Miriam Griffin brings together seventeen international specialists Their essays range from Socrates to late antiquity with a particular focus on Cicero Subjects covered include the Stoics and Cynics Roman law the formulation of imperial power Jews and Christians

performance philosophy Augustine late Platonism and women philosophers **The Elements of Avicenna's Physics** Andreas Lammer, 2018-02-05 This study is the first comprehensive analysis of the physical theory of the Islamic philosopher Avicenna d 1037 It seeks to understand his contribution against the developments within the preceding Greek and Arabic intellectual milieus and to appreciate his philosophy as such by emphasising his independence as a critical and systematic thinker Exploring Avicenna's method of teaching and learning it investigates the implications of his account of the natural body as a three dimensionally extended composite of matter and form and examines his views on nature as a principle of motion and his analysis of its relation to soul Moreover it demonstrates how Avicenna defends the Aristotelian conception of place against the strident criticism of his predecessors among other things by disproving the existence of void and space Finally it sheds new light on Avicenna's account of the essence and the existence of time For the first time taking into account the entire range of Avicenna's major writings this study fills a gap in our understanding both of the history of natural philosophy in general and of the philosophy of Avicenna in particular This monograph has been awarded the annual BRAIS De Gruyter Prize Kulturpreis Bayern in the Study of Islam and the Muslim World and the Iran World Award for Book of the Year 2020 **Selfhood and the Soul** Richard Seaford, John Wilkins, Matthew Wright, 2017-02-23 Selfhood and the Soul is a collection of new and original essays in honour of Christopher Gill Emeritus Professor of Ancient Thought at the University of Exeter All of the essays in the volume contribute to a shared project the exploration of ancient concepts of self and soul understood in a broad sense and as in the work of the honoree himself they are distinguished by a diversity of approach and subject matter ranging widely across disciplinary boundaries to cover ancient philosophy psychology medical writing and literary criticism They can be read separately or together taking the reader on a journey through topics and themes as varied as money love hope pleasure rage free will metempsychosis Roman imperialism cookery and the Underworld yet all committed to examining central issues about the experience of being a person and the question of how best to live The international line up of contributors includes many established figures in the disciplines of classical literature ancient philosophy and ancient medicine as well as several younger scholars All have been inspired by Christopher Gill's contributions to scholarly research in these fields and their collective work aspires to honour through imitation his remarkable combination of range with focus *Peripatetic Philosophy in Context* Francesco Verde, 2022-05-09 This book deals with some Aristotelian philosophers of the Hellenistic Age ranging from Theophrastus of Eresus to Cratippus of Pergamum The problem of knowledge the question of time and the doctrine of the soul are investigated by comparing these

Peripatetics views with Aristotle's philosophy and above all by setting their doctrines within the broader framework of post Aristotelian and Hellenistic philosophies the Old Academy Epicureanism and Stoicism

Potamo of Alexandria and the Emergence of Eclecticism in Late Hellenistic Philosophy Myrto Hatzimichali, 2011-07-14 Eclecticism is a concept widely used in the history of ancient philosophy to describe the intellectual stance of diverse thinkers such as Plutarch Cicero and Seneca In this book the historical and interpretative problems associated with eclecticism are for the first time approached from the point of view of the only self described eclectic philosopher from Antiquity Potamo of Alexandria The evidence is examined in detail with reference to the philosophical and wider intellectual background of the period Potamo's views are placed in the context of key debates at the forefront of late Hellenistic philosophical activity to which he contributed such as the criterion of truth the first principles in physics the moral end and the interpretation of Aristotle's esoteric works The emergence of eclecticism is thus treated in connection with the major shift in philosophical interests and methods that marked the passage from Hellenistic to Imperial philosophy

Constructing Identities in Late Antiquity Richard Miles, 2002-03-11 The essays in *Constructing Identities in Late Antiquity* concern themselves with the theme of identity an increasingly popular topic in Classical studies Through detailed discussions of particular Roman texts and images the contributors show not only how these texts were used to create and organise particular visions of late antique society and culture but also how constructions of identity and culture contributed to the fashioning of late antiquity into a distinct historical period

Cicero, Greek Learning, and the Making of a Roman Classic Caroline Bishop, 2018-11-29 The Roman statesman orator and author Marcus Tullius Cicero is the embodiment of a classic his works have been read continuously from antiquity to the present his style is considered the model for classical Latin and his influence on Western ideas about the value of humanistic pursuits is both deep and profound However despite the significance of subsequent reception in ensuring his canonical status Cicero *Greek Learning and the Making of a Roman Classic* demonstrates that no one is more responsible for Cicero's transformation into a classic than Cicero himself and that in his literary works he laid the groundwork for the ways in which he is still remembered today The volume presents a new way of understanding Cicero's career as an author by situating his textual production within the context of the growth of Greek classicism the movement had begun to flourish shortly before his lifetime and he clearly grasped its benefits both for himself and for Roman literature more broadly By strategically adapting classic texts from the Greek world and incorporating into his adaptations the interpretations of the Hellenistic philosophers poets rhetoricians and scientists who had helped enshrine those works as classics he could envision and create texts with classical authority for a parallel Roman canon Ranging across a variety of genres including philosophy rhetoric oratory poetry and letters this close study of Cicero's literary works moves from his early translation of Aratus poetry and its later reappearance through self quotation to Platonizing philosophy Aristotelian rhetoric Demosthenic oratory and even a planned Greek style letter collection Juxtaposing incisive analysis of how Cicero

consciously adopted classical Greek writers as models and predecessors with detailed accounts of the reception of those figures by Greek scholars of the Hellenistic period the volume not only offers ground breaking new insights into Cicero's ascension to canonical status but also a salutary new account of Greek intellectual life and its effect on Roman literature
