Humanistic Geography and Literature (RLE Social & Cultural Geography) Douglas Pocock,2014-01-23 This book introduces the beginning student to the major concepts materials and tools of the discipline of geography While it presents geographic theory as whole and for each of its parts the chief emphasis is on concrete analysis and example rather than on abstraction an approach which has proven more successful for undergraduate courses than those with a more heavily theoretical bias The text was extensively re written for the third edition which enhanced its clarity and effectiveness with expanded cartographic coverage *Lotman and Cultural Studies* Andreas Schonle,2007-01-01 One of the most widely read and translated theorists of the former Soviet Union Yurii Lotman was a daring and imaginative thinker A cofounder of the Tartu Moscow school of semiotics he analyzed a broad range of cultural phenomena from the opposition between Russia and the West to the symbolic construction of space from cinema to card playing from the impact of theater on painting to the impact of landscape design on poetry His insights have been particularly important in conceptualizing the creation of

meaning and understanding the function of art and literature in society and they have enriched the work of such diverse figures as Paul Ricoeur Stephen Greenblatt Umberto Eco Wolfgang Iser Julia Kristeva and Frederic Jameson In this volume edited by Andreas Sch nle contributors extend Lotman s theories to a number of fields Focusing on his less frequently studied later period Lotman and Cultural Studies engages with such ideas as the semiosphere the fluid dynamic semiotic environment out of which meaning emerges auto communication the way in which people create narratives about themselves that in turn shape their self identity change as both gradual evolution and an abrupt unpredictable explosion power law and mercy Russia and the West center and periphery As William Mills Todd observes in his afterword the contributors to this volume test Lotman s legacy in a new context Their research agendas Iranian and American politics contemporary Russian and Czech politics sexuality and the body are distant from Lotman s own but his concepts and awareness yield invariably illuminating results
