

The background of the cover is a surrealist painting. It depicts a vast, swirling sea of clouds in shades of blue and white. A prominent, golden-yellow, textured mass, resembling a head of hair or a tangled mass of fibers, rises from the left side. A grid of thin, golden-yellow lines is superimposed over the entire scene, creating a sense of perspective and structure. In the upper right, there are dark, jagged shapes that look like islands or landmasses. The overall mood is dreamlike and ethereal.

Putting A Face On Things Studies In Imaginary Materials:

The Emergence of the Interior Charles Rice, 2006-11-22 Taking a radical position counter to many previous histories and theories of the interior domesticity and the home *The Emergence of the Interior* considers how the concept and experience of the domestic interior have been formed from the beginning of the nineteenth century It considers the interior's emergence in relation to the thinking of Walter Benjamin and Sigmund Freud and through case studies in architecture's trajectories toward modernism The book argues that the interior emerged with a sense of doubleness being understood and experienced as both a spatial and an image based condition Incorporating perspectives from architecture critical history and theory and psychoanalysis *The Emergence of the Interior* will be of interest to academics and students of the history and theory of architecture and design social history and cultural studies

Body Utopianism Franziska Bork Petersen, 2022-07-04 This book investigates how desires to transform our bodies can bring utopia to the present and how utopian practices often lead to distinctly dystopian or anti utopian outcomes It is the first comprehensive study to address the paradoxical relationship between bodies and utopianism Franziska Bork Petersen discusses doping bodybuilding and cosmetic surgery alongside practices such as retouching the body as image on social media and looks at how fashion modelling and performance estrange the body Techniques and technologies to transform our bodies are increasingly accessible and suggest an excessive identification of the body as lacking To be a body in a culturally meaningful way we incessantly improve our bodily appearance and capacity The book therefore addresses the utopianism inherent in a cultural understanding of bodies as increasingly controllable

Merleau-Ponty: An Ontology of the Imaginary Annabelle Dufourcq,2024-11-19 This study brings to light the original concept of the imaginary that emerges from Merleau Ponty s thought It elucidates the main influences that contributed to shaping Merleau Ponty s theory of the imaginary and aims to show that this novel concept constitutes one of the most crucial yet challenging keys to his philosophy and ultimately his ontology This book develops the ontology of the imagery sketched by Merleau Ponty and examines its practical implications As its originally ambiguous and inseparable underside the imaginary is just as central to Merleau Ponty s philosophy as perception The author argues to enlarge the notion of reality by recognizing the imaginary dimension and texture of the real and that Merleau Ponty s ontology of the flesh cannot be separated from an ontology of the imaginary This monograph examines Merleau Ponty s conception of the imaginary against both his aesthetics and his political philosophy and appeals to students and researchers working in phenomenology and continental philosophy **Putting a Face on Things** Michael Carter,1997 Studies in Imaginary Things Power in a

Complex Global System Louis W. Pauly, Bruce W. Jentleson, 2014-05-09 Can twenty first century global challenges be met through the limited adaptation of existing political institutions and prevailing systemic norms or is a more fundamental reconstitution of governing authority unavoidable Are the stresses evident in domestic social compacts capable of undermining the fundamental policy capacity of contemporary governments This book inspired by the work of the distinguished scholar Peter J Katzenstein examines these important and pressing questions In a period of complex political transition the authors combine original research and intensive dialogue to build on Katzenstein s innovative insights They highlight his seminal work on variations in domestic structures on the role of ideologies of social partnership on the regionally differentiated foundations of political legitimation on diverse conceptions of civilization and on the idea and practice of power in a tenuous American imperium Together the chapters map the complex terrain upon which legitimate political authority and effective policy capacity will have to be reconstituted to address twenty first century global regional and state level challenges The book will be of great interest to students and scholars in international organization global governance foreign policy analysis and comparative politics
