Pamela Behan,2012-02-01 The United States is the only industrialized democracy that allows its citizens to go entirely without health care for lack of funds or to be bankrupted by medical bills Author Pamela Behan was confronted by the effects of this policy failure during her previous career as a nurse and with Solving the Health Care Problem she examines how it can be corrected Behan explores American health care policy failure by looking at how two other similar nations Canada and Australia managed to adopt health care protections and compares their stories with events in the United States Behan s systematic comparison of all three nations shows that the factors responsible for these different results center on the responsiveness of each nation s political institutions to its voters In particular Australia s parliamentary system and labor party and Canada s constitutional flexibility and national provincial dynamics proved central to each nation s adoption of national health insurance In contrast similar efforts in the United States became less frequent and less ambitious after they were repeatedly blocked without even coming to a vote These dissimilarities reveal the institutional and class issues that must be addressed for the United States to successfully confront the health care problem **Preserving the Promise** Scott

Dessain,Scott E. Fishman,2016-10-05 Preserving the Promise Improving the Culture of Biotech Investment critically examines why most biotech startups fail as they emerge from universities into an ecosystem that inhibits rather than encourages innovation This Valley of Death squanders our public investments in medical research and with them the promise of longer and healthier lives The authors explicate the Translation Gap faced by early stage biotech companies the result of problematic technology transfer and investment practices and provide specific prescriptions for improving translation of important discoveries into safe and effective therapies In Preserving the Promise Dessain and Fishman build on their collective experience as company founders healthcare investor Fishman and physician scientist Dessain The book offers a forward looking critical analysis of conventional wisdom that encumbers commercialization practices It exposes the self defeating habits of drug development in the Valley of Death that waste money and extinguish innovative technologies through distorted financial incentives Explains why translation of biotech discovery into medicine succeeds so infrequently that it s been dubbed the Valley of Death Uncovers specific decision making strategies that more effectively align incentives improving clinical and financial outcomes for investors inventor entrepreneurs and patients Examines the critical early stages of commercialization where technology transfer offices and Angels act as gatekeepers to development and where tension between short term financial and long term clinical aspirations sinks important technologies Deconstructs the forces

driving biotech recasts them in a proven conceptual framework and offers practical guidance for making the system better

Alexis de Tocqueville and the Art of Democratic Statesmanship Brian Danoff, Louie Joseph Hebert, 2011-01-01 In 1835 Alexis de Tocqueville famously called for a new political science that could address the problems and possibilities of a world itself quite new For Tocqueville the democratic world needed not just a new political science but also new arts of statesmanship and leadership In this volume Brian Danoff and L Joseph Hebert Jr have brought together a diverse set of essays revealing that Tocqueville s understanding of democratic statesmanship remains highly relevant today The first chapter of the book is a new translation of Tocqueville s 1852 address to the Academy of Moral and Political Sciences in which Tocqueville offers a profound exploration of the relationship between theory and practice and between statesmanship and political philosophy Subsequent chapters explore the relationship between Tocqueville s ideas on statesmanship on the one hand and the ideas of Plato Aristotle Machiavelli Montesquieu the Puritans the Framers of the U S Constitution Oakeshott Willa Cather and the Second Vatican Council on the other Timely and provocative these essays show the relevance of Tocqueville s theory of statesmanship for thinking about such contemporary issues as the effects of NGOs on civic life the powers of the American presidency the place of the jury in a democratic polity the role of religion in public life the future of democracy in Europe and the proper balance between liberalism and realism in foreign policy Legal and Ethical Issues for the IBCLC Elizabeth C.
