Cognitive Development in Atypical Children L.S. Siegel,F.J. Morrison,2012-12-06 For some time now the study of cognitive development has been far and away the most active discipline within developmental psychology Although there would be much disagreement as to the exact proportion of papers published in developmental journals that could be considered cognitive 50% seems like a conservative estimate Hence a series of scholarly books devoted to work in cognitive development is especially appropriate at this time The Springer Series in Cognitive Development contains two basic types of

books namely edited collections of original chapters by several authors and original volumes written by one author or a small group of authors The flagship for the Springer Series is a serial publication of the advances type carrying the subtitle Progress in Cognitive Development Research Each volume in the Progress sequence is strongly thematic in that it is limited to some well defined domain of cognitive developmental research e g logical and mathematical development development of learning All Progress volumes will be edited collections Editors of such collections upon consultation with the Series Editor may elect to have their books published either as contributions to the Progress sequence or as separate volumes All books written by one author or a small group of authors are being published as separate volumes within the series Facilitating Children's Language Ethel Tittnich,1990 Grade level 1 2 3 k p e t The Feeling Child Nancy E. Curry,1986 Practical Concerns about Siblings Frances Fuchs Schachter,Richard K. Stone,1987 Focusing on practical concerns and on current research this new volume examines common sibling problems The research findings some published for the first time in this book reveal the diverse ways that the sibling relationship contributes to the harmony or disharmony of the family and to the pattern of individual children s development within the family This comprehensive volume will prove valuable to a broad range of professionals working with children and families as well as to parents The contributors attempt to bridge the gap between research and the practices of parents therapists and educators Common problems are examined such as favoritism and the effects of a new sister or brother on a sibling The concerns of children in special sibling relations children in one parent families siblings of the mentally ill and disabled and children facing the imminent death of a sibling are also explored
