Quagmire America In The Middle East

Leon T. Hadar

Quagmire America In The Middle East:

Quagmire Leon T. Hadar, 1992 Hadar argues that recent developments in the Middle East do not in fact demonstrate a need for American involvement there Noting that the various regional disputes go back centuries he points out that American leaders have neither the power nor the knowledge to manage the conflict and the lives of people in the Middle East U S meddling and balance of power gambits he writes inevitably make the various parties more irresponsible and less willing to take advantage of opportunities for settling disputes In addition intervention creates resentment that can manifest itself in violence against innocent American citizens Hadar calls on the United States to redefine its role with respect to Israel the Palestinians the Arab countries and Iran American Alliance Policy in the Middle East, 1945-1992 John P.

Miglietta, 2002-01-01 American Alliance Policy in the Middle East provides a stimulating new look at a U S Cold War foreign policy gripped by anticommunist paranoia Through case studies of America s relationships with Iran Israel and Saudi Arabia John P Miglietta reveals how an overriding fear of global communism led to the overcommitment of U S security resources to the region The perceived need to preserve Middle East stability rendered U S policy ineffectual and unresponsive to changing local conditions drastically altering the patron client paradigm to the detriment of American strategic interests This superb analysis of American foreign policymaking illustrates how Cold War anticommunist ideology prevented the evolution of traditional military alliances into broader based relationships and perpetuated authoritarian regimes that mired the Middle East in a cycle of poverty and despotism

Sandstorm: Policy Failure in the Middle East Leon Hadar, 2015-03-31 The time has come for a serious debate on the future involvement of the United States in the Middle East and this original and provocative analysis challenges the prevailing wisdom of the Washington foreign policy establishment Hadar provides a sweeping reexamination of the conceptual bases of American policy and proposes a strategy of constructive disengagement from the region a policy of benign neglect as a way of promoting the interests of the United States as well as those of the people of the Middle East In Sandstorm Hadar calls for regional states and the European Union to take increased responsibility for security economic growth and political stability This bold and innovative critique will inject new energy into the policy debate

The USA and The World 2020-2022 David M. Keithly, 2021-09-15 The World Today Series USA and The World describes not only what happened but puts events in the context of the past and criticizes policy actions as appropriate The result goes deeper than most of what appears in current publications Updated annually and part of the renowned World Today Series USA and the World presents an unusually penetrating look into America and its relationship to the rest of the world The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 16th edition the content is thorough yet perfect for a one semester introductory course or general library reference

The Arab Oil Weapon Paul Aarts, 1999-11-03 Oil is a multipurpose fluid and its

production and consumption have a long history Oil as a political weapon however only entered the fray after World War II Aarts argues that apart from the unique circumstances of the late 1973 when the oil weapon indeed scored a home run both preceding and subsequent attempts to use oil as a political and economic weapon did not materialize He argues that there is a new oil order with the Saudi American condominium as its linchpin Though the shape of things to come had been apparent for quite some time the outcome of the 1991 Gulf War so successful for the West gave a fresh impetus to a radically different configuration of the oil market As long as the Pax Americana is a political reality in which ironically the United States itself is using oil as a political weapon and as long as there is a buyer s market it seems unthinkable that the oil exporters can ever again use oil as a weapon In hindsight the success of the late 1973 early 1974 looks very much to have been a one shot edition leaving the Arab world saddled with a permanent feeling of nostalgia

Handbook of US-Middle East Relations Robert Looney,2014-05-22 Divided into three sections the Handbook of US Middle East Relations provides a thorough and up to date overview of contemporary US Middle East relations in historical perspective With chapters contributed by leading experts in the field this Handbook will be of use to academics students and researchers in international relations policy analysts media professionals and government officials Part I Factors Affecting US Relations contains essays including Globalization Energy Security Wars and Revolution Peace Processes US Foreign Aid Policy to the Middle East and US Relations with Islamic Groups in the Middle East Part II Perceptions of US Relations contains essays on how US policies are viewed including The View from the Arab Street The View from Palestine The View from Pakistan and The View from Kurdistan Part III US Relations at the Country Level comprise essays detailing relations between the USA and countries and areas in the Middle East and North Africa including Saudi Arabia Egypt Israel Tunisia Lebanon Iran Iraq Libya Algeria and Bahrain A comprehensive index completes the volume

Americans at War James R. Arnold,2018-05-18 This unprecedented compilation of eyewitness accounts records the thoughts and emotions of American soldiers spanning nearly 250 years of national history from the American Revolution to the Afghanistan War Understanding primary sources is essential to understanding warfare This outstanding collection provides a diverse set of eyewitness accounts of Americans in combat throughout U S history Offering riveting true stories it includes accounts from participants in the American Revolution the War of 1812 the Indian Wars the Mexican American War the Civil War the Spanish American War and Philippine Insurrection World War I World War II the Korean War the Vietnam War The Persian Gulf War the Afghanistan War and the Iraq War Most eyewitness accounts of war currently available to the public are those of writers who enjoy higher military rank Americans at War addresses this imbalance between officers accounts and enlisted men s accounts by invoking oral history archives Contextual essays and timelines allow the reader to place the accounts in time and place while the entries themselves allow the reader to experience the thoughts and emotions of Americans who engaged in combat

Three Perspectives Steven H. Propp,2009-12 You re Jewish aren t you This blunt question is the way that college freshman Richard

Cohn is introduced to an outspoken fellow student named Dov Epstein who calls himself a Messianic Jew and believes that God has a special purpose for the Jewish people in these Last Days Raised by secular Jewish parents Richard is completely oblivious to his own Jewish background until this ongoing dialogue forces him to confront his own heritage The two young men vigorously argue with each other over the interpretation of the Hebrew Bible particularly its reputed predictions of a Messiah Christian doctrines such as the Trinity and most significantly about the identity and significance of Jesus of Nazareth The rigorous process of self examination this initiates leads Richard to embrace his Jewish identity even as he vehemently denies the same for Dov The two ultimately become fast friends but as they progress from an academic environment to the professional world they are challenged by racist statements made by prominent national figures anti Semitic doctrines such as Christian Identity which teaches that white Anglo Saxons are the true Israel and also purported scholars who deny the reality of the Holocaust itself Circumstances in life connect them with a young Iranian migr named Jahangir Khatami whose Muslim beliefs conflict strongly with their own Yet when a violent incident brings the three of them together they are forced to reexamine not just their differences but their similarities While they clash over the ideals of Zionism and its ramifications in the modern State of Israel they are united in their horror over the terrorist attacks of September 11 2001 Join a diverse cast of characters some of whom appeared in the author s earlier book Beyond Heaven and Earth in a probing exploration that may help you reconsider just what it means to be Jewish Christian or Muslim in the modern world **The 44th Legacy** H. H. Charles, 2021-10-07 A leader more focused on his legacy than meeting the demands of his office will fail in both This review of Barack Obama s legacy as the forty fourth president of the United States is no hymn of praise Those who support him and believe he has left an admirable legacy will sharply disagree and may even say it s motivated by prejudice and overly critical They are of course entitled to their opinions But having voted twice for his presidency in 2008 and 2012 that is not an assessment with which H H Charles can agree The impetus for undertaking this chronicle of Obama s legacy starts with the presidency of George W Bush the president who is first and foremost responsible for all the bloodshed genocide and crimes against humanity that plagues the Middle East to this day and which continues unabated into the indefinite future

Reagan on War Gail E. S. Yoshitani, 2011-11-30 Even at the time it was announced near the end of the first term of the Reagan administration such luminaries as William Safire mischaracterized the Weinberger Doctrine as a conservative retreat from the use of force in U S international relations Since that time scholars have largely agreed with Safire that the six points spelled out in the statement represented a reaction to the Vietnam War and were intended to limit U S military action to only the fun wars that could be relatively easily won or those in response to direct attack In this work of extensive original scholarship military historian Gail Yoshitani argues that the Weinberger Doctrine was intended to legitimize the use of military force as a tool of statecraft rather than to reserve force for a last resort after other instruments of power have failed This understanding sheds much clearer light on recent foreign policy decisions as well as on the formulation and adoption of

the original doctrine With the permission of the family of former Defense Secretary Caspar Weinberger Yoshitani gained access to Weinberger's papers at the Library of Congress She is the first scholar granted access to General ret John Vessey's archive at the Library and her security clearance has made it possible for her to read and use a large number of materials still classified as secret or top secret Yoshitani uses three case studies from the Reagan administration's first term in office Central America and two deployments in Lebanon to analyze how the administration grappled with using military force in pursuit of national interests Ultimately the administration codified the lessons it learned during its first term in the Weinberger Doctrine promulgated by Secretary of Defense Weinberger in a speech on November 28 1984 two weeks after Reagan won reelection in a landslide Yoshitani carefully considers the Weinberger Doctrine's six tests to be applied when considering the use of military force as a tool of statecraft Just as the Reagan administration was forced to dance an intricate step in the early 1980s as it sought to use force as a routine part of statecraft current and future administrations face similar challenges Yoshitani's analysis facilitates a better understanding of the Doctrine and how it might be applied by American national security managers today This corrective to the common wisdom about the Weinberger Doctrine's goals and applicability to contemporary issues will appeal not only to diplomatic and military historians but also to military leaders and general readers concerned about America's decision making concerning the use of force

The Costs of War John Denson, 2017-07-05 The greatest accomplishment of Western civilization is arguably the achievement of individual liberty through limits on the power of the state In the war torn twentieth century we rarely hear that one of the main costs of armed conflict is long term loss of liberty to winners and losers alike Beyond the obvious and direct costs of dead and wounded soldiers there is the lifetime struggle of veterans to live with their nightmares and their injuries the hidden economic costs of inflation debts and taxes and more generally the damages caused to our culture our morality and to civilization at large The new edition is now available in paperback with a number of new essays It represents a large scale collective effort to pierce the veils of myth and propaganda to reveal the true costs of war above all the cost to liberty Central to this volume are the views of Ludwig von Mises on war and foreign policy Mises argued that war along with colonialism and imperialism is the greatest enemy of freedom and prosperity and that peace throughout the world cannot be achieved until the central governments of the major nations become limited in scope and power In the spirit of these theorems by Mises the contributors to this volume consider the costs of war generally and assess specific corrosive effects of major American wars since the Revolution The first section includes chapters on the theoretical and institutional dimensions of the relationship between war and society including conscription infringements on freedom the military as an engine of social change war and literature and the right of citizens to bear arms The second group includes reconsiderations of Lincoln and Churchill an analysis of the anti interventionist idea in American politics a discussion of the meaning of the just war an assessment of how World War I changed the course of Western civilization and finally two eyewitness accounts of the true horrors of actual

combat by The Costs of War John V. Denson, 1999 The greatest accomplishment of Western civilization is arguably the achievement of individual liberty through limits on the power of the state In the war torn twentieth century we rarely hear that one of the main costs of armed conflict is long term loss of liberty to winners and losers alike Beyond the obvious and direct costs of dead and wounded soldiers there is the lifetime struggle of veterans to live with their nightmares and their injuries the hidden economic costs of inflation debts and taxes and more generally the damages caused to our culture our morality and to civilization at large The new edition is now available in paperback with a number of new essays It represents a large scale collective effort to pierce the veils of myth and propaganda to reveal the true costs of war above all the cost to liberty Central to this volume are the views of Ludwig von Mises on war and foreign policy Mises argued that war along with colonialism and imperialism is the greatest enemy of freedom and prosperity and that peace throughout the world cannot be achieved until the central governments of the major nations become limited in scope and power In the spirit of these theorems by Mises the contributors to this volume consider the costs of war generally and assess specific corrosive effects of major American wars since the Revolution The first section includes chapters on the theoretical and institutional dimensions of the relationship between war and society including conscription infringements on freedom the military as an engine of social change war and literature and the right of citizens to bear arms The second group includes reconsiderations of Lincoln and Churchill an analysis of the anti interventionist idea in American politics a discussion of the meaning of the just war an assessment of how World War I changed the course of Western civilization and finally two eyewitness accounts of the true horrors of actual combat by veterans of World War II The Costs of War is unique in its combination of historical scope and timeliness for current debates about foreign policy and military intervention It will be of interest to historians political scientists economists and sociologists

Lost Decade Robert D. Blackwill, Richard Fontaine, 2024 Across the political spectrum there is wide agreement that Asia should be at the center of US foreign policy But this worldview the Pivot to Asia announced by the Obama Administration in 2011 is a dramatic departure from the entire history of American grand strategy Ten years on we now have some perspective to evaluate it in depth In The Lost Decade Robert Blackwill and Richard Fontaine take this long view They conclude that there are few successes to speak of and that we lack a coherent approach to the Indo Pacific region They examine the Pivot through various lenses situating it historically in the context of America's global foreign policy revealing the inside story of how it came about assessing the effort thus far identifying the ramifications in other regions namely Europe and the Middle East and proposing a path forward

Framing Monsters Joshua David Bellin, 2005 Beginning with celebrated classics the author locates King Kong 1933 within the era of lynching to evince how the film protects whiteness against supposed aggressions of a black predator and reviews The Wizard of Oz 1939 as a product of the Depression's economic anxieties From there the study moves to the cult classic animated Sinbad Trilogy 1958 1977 of Ray Harryhausen films rampant with xenophobic fears of the Middle East as relevant today as when the series was

originally produced Advancing to more recent subjects the author focuses on the image of the monstrous woman and the threat of reproductive freedom found in Aliens 1986 Jurassic Park 1993 and Species 1995 and on depictions of the mentally ill as dangerous deviants in 12 Monkeys 1996 and The Cell 2000 An investigation into physical freakishness guides his approach to Edward Scissorhands 1990 and Beauty and the Beast 1991 Multinational Military Intervention Stephen J. Cimbala, Peter K. Forster, 2016-04-15 War as Clausewitz reminds is the most uncertain of human political and social activities It also imposes burdens In an alliance among states for the promotion of collective defense or security such as the North Atlantic Treaty Organization NATO burdens have to be shared This study looks at the experience of the United States and other member states of NATO in four situations of multinational military intervention Lebanon the Persian Gulf the Balkans and South Asia and considers the implications of nuclear arms reductions and nonproliferation for the US and NATO Each case study represents an important period in the distribution of power interest and values amounting to more than a sequential consideration of incidents of military intervention and or conflict prevention These politico military challenges include a major coalition war a traditional peacekeeping operation an exercise in peace enforcement and a conflict that combines counter insurgency and counter terrorism with stability and security operations The USA and The World 2018-2019 David M. Keithly, 2018-10-04 Instant interpretive history is a difficult and demanding task and certainly more of an art than some would suggest USA and the World describes not only what happened but puts events in the context of the past and criticizes policy actions as appropriate The result goes deeper than most of what appears in current publications Updated annually and part of the renowned World Today Series USA and the World presents an unusually penetrating look into America and its relationship to the rest of the world The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 14th edition the content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student budgets *The USA and The World 2017-2018* David M. Keithly, 2017-08-25 Instant interpretive history is a difficult and demanding task and certainly more of an art than some would suggest USA and the World describes not only what happened but puts events in the context of the past and criticizes policy actions as appropriate The result goes deeper than most of what appears in current publications Updated annually and part of the renowned World Today Series USA and the World presents an unusually penetrating look into America and its relationship to the rest of the world The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource for researchers practitioners in international development media professionals government officials potential investors and students Now in its 13th edition the content is thorough yet perfect for a one semester introductory course or general library reference Available in both print and e book formats and priced low to fit student budgets **The Sword Arm** Dr. Sanu

Kainikara,2019-04-10 Military forces have long been the arbiters of national security and continues to be at the vanguard of assuring the sovereignty and stability of a nation This is an enduring fact However in the past few decades the role of the military forces have undergone an evolutionary change and now spans a much broader spectrum of activities than ever before Accordingly the responsibilities placed on the military forces especially in democratic nations have also undergone an upward revision These changes have altered the status and stature of military forces This book analyses the changing position of military forces and their relationship with other elements of national power vis vis the need to ensure national security The analysis is carried out in great detail starting with a discussion of national policy grand strategy and their connection to the military forces and ending with a discussion of the status of military forces in the national security calculus It is arranged into five independent sections that contain twenty chapters The Sword Arm examines the hypothesis that irrespective of the broad definition of national security that is prevalent in modern times and the whole of government approach that most democracies have adopted to ensure the security and safety of the nation military forces continue to be at the vanguard of national security initiatives On the other hand democratic nations have a proclivity to sideline the military forces in times of relative peace which could be detrimental to the overall security of the nation The book critically investigates this dichotomy and suggests that in 21st century democracies military forces need to be strengthened to ensure the security of the nation United States-Third World Relations in the New World Order Abbas P. Grammy,C. Kaye

Bragg,1996 This book explores the primary issues and organising principles that define the United States Third World relations in the New World Order This book consists of six sections The first section includes three essays on the political economy of the United States Third World relations and American political economic and military involvement in the developing countries In section two there are two chapters that address the political and cultural challenges facing the United States Latin American relations in the post Cold War era followed by a regional and a country study Section three devoted to the United States Asia relations in the New World Order consists of two general essays and three case studies In section four we find a chapter that will focus on the relationship between the United States and the Middle East an essay on economic development and two case studies Section five consists of one general essay on the economic decline of countries in Sub Saharan Africa in the post Cold War era followed by a case study of structural adjustments in an African country The final section of the book is comprised of four chapters on the political economy of development in the New World Order

The USA and The World 2022-2023 David M. Keithly,2022-08-15 The World Today Series USA and The World describes not only what happened but puts events in the context of the past and criticizes policy actions as appropriate The result goes deeper than most of what appears in current publications Updated annually and part of the renowned World Today Series USA and the World presents an unusually penetrating look into America and its relationship to the rest of the world The combination of factual accuracy and up to date detail along with its informed projections make this an outstanding resource
