Shattering the Denial Karen B. Donaldson, 2001-05-30

This book has gone to great lengths to reveal through research and practice the possibilities of addressing and reducing racist practices in our schools. It features an Antiracist Education Teacher Study that assisted in providing baseline figures of teacher perceptions of racism and demonstrated how teachers can successfully implement antiracist concepts in their classrooms. Findings further indicate that such teacher involvement makes a difference in student acceptance and attitude. As teachers display enthusiasm for teaching their subject areas multiculturally and having an intolerance for racist behavior, many students have shown greater respect and appreciation for their teachers who are willing to expose life's realities. Educators in the Teacher Study became role models for their students. This role modeling empowered students in positive ways to address issues of racism from the student perspective. Dr. Donaldson also focuses on shattering the denial of teachers who doubt the existence of racism in schools and who question how student learning is adversely affected by racism. She uncovers the difficulty teachers have with

coming to grips with the realities of racism In light of these difficulties those who endured became empowered to become better teachers *Principled Possibilities - Ideas for Teaching* Gregory Quinlivan, 2012-01-08 Principled Possibilities Ideas for Teaching is a unique publication representing the summation of four years of graduate study and my own experiences discoveries experiments and successes over eight years of teaching throughout Asia and the Pacific Uniquely the book includes a wide selection of academic papers conference and training presentations and curriculum and planning documents links to websites and other resources for exploring the topics further and contacting the author ideas ranging from working with absolute young beginners to adult and upper intermediate level students discussions of current challenges and controversies in teaching approaches to online and computer assisted learning and suggestions in the field of English language teaching covering all areas
