Izugbara, Eleanor Krassen Covan, Elizabeth Fugate-Whitlock, 2017-10-02 This edited book includes new policy relevant research on women's health issues in Africa Scholars explore critical topics from different disciplinary traditions using a variety of research methodologies and data sources The contributors include African scholars with in depth knowledge of their home contexts who can furnish nuanced interpretations of local health issues and trends international researchers who bring vigorous comparative viewpoints emerging scholars adding to scientific knowledge and more established researchers with a deep global knowledge of women's health issues The range of women's health issues is vast including the HIV epidemic and its impacts domestic violence the persistence of homebirths and abortion In addition the book investigates emerging health concerns such as CVDs and cancers Readers will learn that while old health issues have persisted and assumed new dimensions newer concerns have materialized and are gaining momentum The inability of health systems to tackle these issues complicates matters in Africa creating a sense of desperation that can only be successfully confronted through strong political will and strategic planning grounded in further research This book was originally published as several special issues of Health Care for Women International Sustaining Quality Teaching and Learning to Instill Good Discipline and Academic

Performance Afungmeyu Jane-Francis Abongdia,Vuyisile Mathew Ngoqo,2018-12-19 This book presents an engaging as well as inspiring array of issues and insights drawn from the perspective of dialogic imagination aimed at quality teaching and learning experiences The authors passionately uphold their belief that the prevalence of good discipline and good academic performance are mutually interrelated and if these two prevail in the ecosphere of any classroom these can significantly enrich and enhance the quality of learning in any school settings Based on this South Africa has made huge strides towards improving the quality of education and people s lives However discipline and academic performance still lag behind due to the lack of quality teaching which also prevents the Department of Education from accomplishing its objectives Ironically this takes place at a time when the government has resolved to prioritise education among other important developmental issues To this effect this book explores how quality teaching and learning can ensure that discipline and academic performance prevail It shows that quality teaching and learning have the potential to determine discipline and academic performance particularly now that other disciplinary measures have been seen to be ineffective It is framed theoretically by the school improvement theory supported by Radical Constructivism and Critical Realism and uses case studies to highlight its findings The book shows that quality teaching and learning can free human potential and ensure that it is developed in line with democratic ideals and identifies the environment as playing an important role in ascertaining whether or not quality teaching and learning can determine discipline and academic performance in schools

**Evaluating Research for Evidence-Based Nursing Practice** Jacqueline Fawcett,Joan Garity,2008-08-22 Where is the evidence in a nursing research study What is the evidence How good is the evidence And how is it relevant to providing evidence based nursing care Ensure that students can meet the AACN s American Association of Colleges of Nursing goal of identifying valid research findings and using them to determine if they are providing care that is supported by evidence
