

The background of the book cover is a painting. It depicts a woman in a dark, flowing dress with a high collar and long sleeves, standing in a snowy, wooded landscape. She has her arms raised and her head tilted back, looking towards the sky. In the foreground, there is a large, gnarled tree trunk and some snow-covered ground. The overall tone is dark and atmospheric, with a focus on the woman's figure and the natural setting.

the Creation of British Modernism provides a new account of modernist literature's emergence in Britain. British writers played a central role in the dissemination of Russian literature and culture during the early twentieth century and their writing was transformed by the encounter. This study restores the thick history of that moment by analyzing networks of dissemination and reception to recover the role of neglected as well as canonical figures and institutions as well as individuals. The dominant account of British modernism privileges a Francophile genealogy but the turn of the century debate about the future of British writing was a triangular debate a debate not only between French and English models but between French, English and Russian models. Francophile modernists associated Russian literature especially the Tolstoyan novel with an uncritical immersion in life at the expense of a mastery of style and while individual works might be admired Russian literature as a whole was represented as a dangerous model for British writing. This supposed danger was closely bound up with the politics of the period and this book investigates how Russian culture was deployed in the close relationships between writers, editors and politicians who made up the early twentieth century intellectual class, the British intelligentsia. Russomania argues that the most significant impact of Russian culture is not to be found in stylistic borrowings between canonical authors but in the shaping of the major intellectual questions of the period: the relation between language and action, writer and audience and the work of art and lived experience. The resulting account brings an occluded genealogy of early modernism to the fore with a different arrangement of protagonists, different critical values and stronger lines of connection to the realist experiments of the Victorian past and the anti-formalism and revived romanticism of the 1930s and 1940s future.

Fandom, Authenticity, and Opera A. Fishzon, 2013-09-11. In Russia at the turn of the twentieth century printed literature and performances from celebrity narratives and opera fandom to revolutionary acts and political speeches frequently articulated extreme emotional states and passionate belief. A uniquely intense approach to public life and private expression, the melodramatic imagination is at the center of this study. Previously scholars have only indirectly addressed the everyday appropriation of melodramatic aesthetics in Russia, choosing to concentrate on canonical texts and producers of mass culture. Collective fantasies and affects are daunting objects of study, difficult to render and almost impossible to prove empirically. Music and art historians with some notable exceptions have been reluctant to discuss reception for similar reasons. By analyzing the artifacts and practices of a commercialized opera culture, author Anna Fishzon provides a solution to these challenges. Her focus on celebrity and fandom as features of the melodramatic imagination helps illuminate Russian modernity and provides the groundwork for comparative studies of fin de siècle European popular and high culture, selfhood, authenticity and political theater.

Funeral Games in Honor of Arthur Vincent Lourié Klára Móricz, Simon Alexander Morrison, 2014. Funeral Games in Honor of Arthur Vincent Lourié explores the varied aesthetic impulses and ever-evolving personal motivations of Russian composer Arthur Lourié. A St Petersburg native allied with the Futurist movement and profoundly sympathetic to Silver Age decadence, Lourié was swept away by the Revolution; he surfaced as a Communist

commissar of music before landing in Europe and America where his career foundered Making his way by serving others he became Stravinsky's right hand man Serge Koussevitsky's ghostwriter and philosopher Jacques Maritain's muse Louri left his mark on the poems of Anna Akhmatova on the neoclassical aesthetics of Stravinsky on Eurasianism and on Maritain's NeoThomist musings about music Louri serves as a flawless lens through which aspects of Silver Age Russia early Bolshevik rule and the cultural space of exile come into sharper focus But this interdisciplinary collection of essays edited by musicologists Klara Mricz and Simon Morrison also looks at Louri himself as an artist and intellectual in his own right Much of the aesthetic and technical discussion concerns his grandly eulogistic opera *The Blackamoor of Peter the Great* understood as both a belated Symbolist work and as a NeoThomist exercise Despite the importance Louri attached to the opera as his masterwork *Blackamoor* has never been performed its fate thus serving as an emblem of Louri's own Yet even if Louri seems to have been destined to be but a footnote in the pages of music history he looms large in studies of emigration and cultural memory Here Louri's life like his last opera is presented as a meditation on the circumstances and psychology of exile Ultimately these essays recover a lost realm of musical and aesthetic possibilities a Russia that Louri and the world saw disappear

The Performing Style of Alexander Scriabin Anatole Leikin, 2016-02-24 When Alexander Nikolayevich Scriabin's music was performed during his lifetime it always elicited ecstatic responses from the listeners Wilhelm Gericke conductor of the Vienna opera rushed backstage after one of Scriabin's concerts and fell on his knees crying It's genius it's genius After the composer's death in 1915 however his music steadily lost the captivating appeal it once held The main reason for this drastic change in the listeners' attitude is an enormous gap existing between the printed scores of Scriabin's music and the way the composer himself played his works Apparently what Scriabin's audiences heard at the time was significantly different from and vastly superior to modern performances that are based primarily on published scores Scriabin recorded nineteen of his compositions on the Hupfeld and Welte Mignon reproducing pianos in 1908 and 1910 respectively Full score transcriptions of the piano rolls which are included in the book provide many substantial features of Scriabin's performance exact pitches and their timing against each other rhythms tempo fluctuations articulation dynamics and essential pedal application Using these transcriptions and other historical documents as the groundwork for his research Anatole Leikin explores Scriabin's performing style within the broader context of Romantic performance practice
