Russian Spring:

The Donbas Conflict in Ukraine Daria Platonova, 2021-09-27 This book examines why when the conflict in eastern Ukraine began in 2014 fighting broke out in the Donetsk region whereas it did not in Kharkiv city despite the city like the Donetsk region being geographically proximate to Russia and similar in ethnic and linguistic make up Based on extensive original research the book argues that a key factor was the nature and behaviour of local elites with those in Kharkiv having diffuse ties to the centre and therefore being more capable of adapting to sudden profound regime change at the centre whereas the elites in the Donetsk region had much more concentrated ties to the centre were dependent on one network and therefore were much less able to cope with change The book thereby demonstrates how crucial for Ukraine are patronal politics patronage networks and informal centre region relations and that it was these local political circumstances rather than Russia which brought about the conflict Russia Before and After Crimea Pal Kolsto, 2017-12-04 No detailed description available for Russia Before and After Crimea **New Russian Nationalism** Pal Kolsto, 2016-03-24 Russian nationalism previously dominated by imperial tendencies pride in a large strong and multi ethnic state able to project its influence abroad is increasingly focused on ethnic issues In 2014 Russia's annexation of Crimea and the subsequent violent conflict in Eastern Ukraine utterly transformed the nationalist discourse in Russia This book provides an up to date survey of Russian nationalism as a political social and intellectual phenomenon by leading Western and Russian experts in the field of nationalism studies It includes case studies on migrantophobia the relationship between nationalism and religion nationalism in the media nationalism and national identity in economic policy nationalism in the strategy of the Putin regime as well as a survey based study of nationalism in public opinion *New Russian Nationalism* Pal Kolsto, 2016-03-24 Traces Russia's transforming nationalism from imperialism through ethnocentrism and migration phobia to territorial expansion This title was made Open Access by libraries from around the world through Knowledge Unlatched Agricultural Wage Stabilization in World War II Arthur Julius Holmaas, 1950 *Agriculture Monograph* United States. Bureau of Agricultural Economics, 1950 **Agriculture Monograph**, 1950 Eternal Putin? J. L. Black, 2023-01-24 The short period of time stretching from the dramatic Constitutional amendments of January 2020 to the war launched by Vladimir Putin against Ukraine in February 2022 marked a sharp turning point in Russian history The author explains how Russia got to that point of war Although Putin termed eternal because of amendments that allow him to run for two more terms as president is everywhere in it the book is a study of Russia writ large It features the political uproar over the Navalny opposition the ravages of the pandemic manifestations of climate change and intensifying confrontations between Russia on one side Ukraine NATO and the US on the other The book provides a who what where and when of the short but volatile period prior to the outbreak of war and offers a tentative why it happened Discussed too are the highs and lows of Putin's popularity the effectiveness or not of economic sanctions and Moscow's pivot to the east **Through Times of Trouble** Anna

Matveeva,2017-12-20 This book tells the story of insurgency in Ukraine s Donbas region from the perspective of the rebels who sought and continue to seek either independence from Ukraine or unification with Russia As such it provides a unique insight into their thinking and motivations which need to be understood if the conflict is to be resolved Those making and remaking the conflict are placed in the centre of the story which uses the words of the combatants themselves It shows how volunteer fighters driven by a wide and diffuse set of motivations emerged from Ukraine Russia and different parts of the world stood at the rebellion s heart The book focuses on the participants own voices and personalities drawing extensively on first hand research and interviews Rather than rendering Ukraine a chess piece on the geopolitical board the rebellion shows that ordinary people rather than elites can act as a decisive force Donbas says something about why large numbers of people make the decision to take part in a collective violent action when material rewards are low or non existent and mortal risks high It stands as an important text on the study of modern insurgencies revealing how violent conflicts happen via issues of politicized identity and involvement of non state actors This book places this conflict into the context of other conflicts worldwide and demonstrates how ideas and narratives are constructed to provide meaning to a struggle The insurgency has produced a conflict sub culture rich with symbolism narrative and communications made possible by the digital age and a social media savvy population These beliefs and ideas have had the power to pull people from different parts of the world This book follows the stages of assembling different conflict ingredients together and the rebellion s zigzagging fortunes after it became apparent that Moscow was not going to repeat the Crimea scenario in Donbas It analyses the logic of armed struggle and the tactics deployed by warring parties It also sheds light on the developments in Moscow discusses the phenomenon of the Russian Spring movement and concludes with the prospects for a peaceful solution **Foreign Crops and Markets** , **Journal of the Military Service Institution of the United States** Military Service Institution of the United States,1917 **Bulletin No. 1-29** United States.
