This book investigates the concept of worldview in its numerous aspects and how worldviews impact, shape, and influence individuals, communities, societies, and cultures. It explores various worldviews: religious, spiritual, and secular, using a comprehensive approach to highlight their breadth, depth, and scope. John Valk argues that everyone has a worldview and that worldview is often shaped and influenced by individual circumstances and situations. While worldviews have similar structures to one another, they vary in content, including differences in metanarratives, teachings, ethics, and more. In the course of explaining how worldviews respond to life's ultimate and existential challenges, the book poses ontological questions to highlight various worldviews on the nature of being and the human, and epistemological questions pertaining to sources of knowledge and certainty. Inviting

readers to reflect on their own worldviews as they explore the worldviews of others Valk also reveals how certain universal worldview beliefs are interpreted in particular contexts *Defying Maliseet Language Death* Bernard C. restructuring practiced by both federal and provincial governments since the 1980s Drastic spending reductions and ongoing restraint in social assistance income supports and the provision of affordable housing combined with the offloading of social responsibilities onto municipalities has contributed to the generalization of social issues once chiefly associated with Canada's largest urban centres As the investigations in this volume illustrate while some communities responded to these issues with inclusionary and progressive actions others were more exclusionary and reactive revealing forms of discrimination exclusion and othering in the implementation of practices and policies Importantly however their investigations reveal a broad range of responses to the social issues they face No matter the process and results of the proposed solutions what the contributors uncovered were distinctive attributes of the small city as it struggles to confront increasingly complex social issues If local governments accept a social agenda as part of its responsibilities the contributors to Small Cities Big Issues believe that small cities can succeed in reconceiving community based on the ideals of acceptance accommodation and inclusion

Gwendolyn Gosek, 2025-04-29T00:00:00Z Canadian child welfare policies and practices have been central to maintaining a settler colonial nation by controlling and managing the childhoods and future lives of children While ostensibly grounded in the best interests of the child child welfare policies and practices far too often make the lives of young people more precarious because they are stratified along race and class lines rather than caring for their wellbeing There have been dire consequences for Indigenous communities but also for Black newcomer non citizen and poor people who are also disproportionately the primary focus of child welfare The contributors to this book reveal these unjust conditions so that workers can contribute to the ongoing transformation of child welfare to facilitate child wellbeing The third edition of [Walking This Path Together](#) continues the transformative vision of the first two editions and charts a new way forward There are several new chapters and authors who focus on M tis kinship protocols family group conferencing decolonizing child welfare and the criminalization of newcomers refugee children and Indigenous youth in care They demonstrate how to bring forward transformative practices to moving child welfare into a truly new decolonial era This transformative vision is the path that we are walking

Security, With Care Elizabeth M. Elliott, 2020-05-21T00:00:00Z Restorative justice as it exists in Canada and the U S has been co opted and relegated to the sidelines of the dominant criminal justice system In [Security With Care](#) Elizabeth M Elliott argues that restorative justice cannot be actualized solely within the criminal justice system If it isn't who we are says Elliott then the policies will never be sustainable Restorative justice must be more than a program within the current system it must be a new paradigm for responding to harm and conflict Facilitating this shift requires a rethinking of the assumptions around punishment and justice placing emphasis

instead on values and relationships But if we can achieve this change we have the potential to build a healthier more ethical and more democratic society
