Coderspeak Guilherme Orlandini Heurich, 2024-04-22 Software applications have taken over our lives We use and are used by software many times a day Nevertheless we know very little about the invisibly ubiquitous workers who write software Who are they and how do they perceive their own practice How does that shape the ways in which they collaborate to build the myriad of apps that we use every day *Coderspeak* provides a critical approach to the digital transformation of our world through an engaging and thoughtful analysis of the people who write software It is a focused and in depth look at one programming language and its community Ruby based on

ethnographic research at a London company and conversations with members of the wider Ruby community in Europe the Americas and Japan This book shows that the place people write code the language they write it in and the stories shared by that community are crucial in questioning and unpacking what it means to be a coder Understanding this social group is essential if we are to grasp a future and a present in which computer programming increasingly dominates our lives Praise for Coderspeak Heurich perfectly captures the generous camaraderie quirky spirit and intellectual curiosity at the heart of the Ruby world Packed with tidbits of Ruby history code snippets and fascinating conversations this book has something to teach every Rubyist Jemma Issroff Ruby Core Team *Shivers* Thomas Warner,2022-09-13 It is about two happy people having purchased their dream home at last only for the woman to discover that that same house the husband just bought for their retirement home is the same house she went to have an illegal abortion in when she was just fourteen years of age And of course it all comes back to haunt her and everyone around her *Letters from a Rocking Chair* J. D. Patterson,2011-06-17 Through letters Jane Wilkinson describes her life as a pioneer Iowa farm lady She was born during the Civil War and died eighty nine years later She bore seven children and although widowed she became the anchor of her family Her steady pursuit of self reliance and the importance of family and steadfastness reflected qualities which have never gone out of fashion Her credo was life is only boring if you're bored with life a condition she never allowed As a child she came to Iowa in a covered wagon and her many descendants continue her legacy **Crisis Management and the School Community** Mardie Whitla,2004-01-01 Offers practical response and recovery procedures for school leaders dealing with emergencies both within the school and in the larger community This fully revised second edition takes a broad view of crisis and covers events such as a death in the family a school fire student casualties in car accidents student suicide natural disasters and terrorist attacks Crisis Management and the School Community is an essential guide designed to look at crisis management from a whole school approach It will assist the school community to develop a well prepared response and recovery plan for crisis management *Preparing Your Children for Goodbye* Lori A. Hedderman,2011-02-15 Preparing Your Children For Goodbye is a supportive guidebook for parents who are terminally ill This book is divided into three parts End of life issues to consider How children cope with death A Life Review workbook The book will help you plan for your own end of life care prepare your children for your death and record memories of your life The book includes a Bibliography and a list of Places to Turn To for Help Your most important role as a parent is raising your child All along you are attempting to impart into them your values as well as teach them the skills that they will need to be successful as they grow into adulthood No parent expects to leave a child to journey through life without his or her direct guidance As that day approaches and you begin to accept that you will not have the time that you thought you would the pressure mounts to prepare your child for the future The process of looking back over your life and thinking about what has mattered most to you is a natural part of facing death There is a formal discipline called Life Review in which people are encouraged to discuss and write down aspects of their

past This Life Review workbook is specifically designed for use by parents of children and teenagers It includes questions to help you consider issues relating to your children as well as more general questions that will trigger memories about other parts of your life This Life Review process can be used by anyone who is interested in thinking about their own past even if they do not have children You can use the workbook on your own or with someone else It s a nice activity for two people to do together using a conversational approach An adult child could use the conversational method with an elderly parent It can be an enjoyable way to reminisce about the past and capture memories This type of conversational approach can be helpful as a tool to use with older people who are having memory problems The workbook can be used in hospice settings by hospice volunteers to use with patients who want to reflect on their lives If someone is too sick to take on a major writing project the volunteer can ask questions from the workbook to help the person recall anything that they want to have remembered A volunteer could also work with family members to explain life review ideas and introduce the workbook as something they can use on their own Any parent who wants to record family history can also use this book Perhaps you have a high risk profession in an area such as law enforcement firefighting or serve in the military and are concerned about the future Who hasn t thought What if
