Gut, Brain, and Environment in Nineteenth-Century French Literature and Medicine Manon Mathias, 2024-04-30 *Gut Brain and Environment in Nineteenth Century French Literature and Medicine* offers a new way of conceptualizing food in literature not as social or cultural symbol but as an agent within a network of relationships between body and mind and between humans and environment By analysing gastrointestinal health in medical literary and philosophical texts this volume rethinks the intersections between literature and health in the nineteenth century and triggers new debates about France's relationship with food Of relevance to scholars of literature and to historians and sociologists of science food and medicine it will provide ideal reading for students of French Literature and Culture History Cultural Studies and History of Science and Medicine Literature and Science Food Studies and the Medical Humanities Readers will be introduced to new ways of approaching digestion in this period and will gain appreciation of the powerful resources offered by nineteenth century French writing in understanding the nature of connections between gut mind and environment and the impact of these connections on our status as human beings **Biography in Theory** Wilhelm

Hemecker, Edward Saunders, 2017-08-07 This textbook is an anthology of significant theoretical discussions of biography as a genre and as a literary historical practice Covering the 18th to the 21st centuries the reader includes programmatic texts by authors such as Herder Carlyle Dilthey Proust Freud Kracauer Woolf and Bourdieu Each text is accompanied by a commentary placing its contribution in critical context Ideal for use in undergraduate seminars this reader may also be of interest for academic researchers in the areas of literary studies and history aiming to get an overview of historical questions in biographical theory This revised and updated English language edition also includes new translations of texts by J G Herder and Stefan Zweig as well as an introductory discussion on the possibility of a theory of biography Note Due to copyright reasons the chapter *Sade Fourier Loyola* Extract 1971 pp 175 177 by Roland Barthes could not be included in the ebook *Loyola's Greater Narrative* Frédéric Conrod, 2008 The Baroque imagination has its roots in Ignatius of Loyola's

Spiritual Exercises 1547 which defined for the Counter Reformation era the parameters in which Catholic believers must confront the Enemy and the temporal corruption he embodies in order to enter a state of grace and obtain salvation Through complex interactions of different imaginative functions Loyola's text is able to superpose a variety of simultaneous narrative levels In order to reformulate the greater narrative the Magisterium of the Roman faith beyond what is revealed in Scripture the *Spiritual Exercises* require their exercitant to become an active participant in this narrative through constant visual contact with orders of corruption that is spaces in which virtue can be confronted with physical decay and sin Through these

spaces Counter Reformation Rome La Roma Ignaziana would redefine the economy of salvation and diffuse the visual dynamics of the Spiritual Exercises throughout the Catholic world In their writings Spanish Golden Age authors Miguel de Cervantes and Baltasar Graci n use the rising modernity of the novel to transform Loyola s notion of orders of corruption by adapting it to the secular world Their encoded criticism of Loyolan imagination contributed to the epistemological crisis that marks the Baroque age but also prepared the way for the crucial debates that would take place during the Enlightenment such as the deconstruction of the Catholic greater narrative reflected in Loyola This book concludes with a discussion of the eventual negation of Loyolan imagination in the novels of the Marquis de Sade which undermine the Roman faith by parodying the Baroque forms of spiritual visual experience and negate the Loyolan projection into orders of corruption

The Other Rise of the Novel in Eighteenth-Century French Fiction Olivier Delers, 2015-09-01 The rise of the novel paradigm and the underlying homology between the rise of a bourgeois middle class and the coming of age of a new literary genre continues to influence the way we analyze economic discourse in the eighteenth century French novel Characters are often seen as portraying bourgeois values even when historiographical evidence points to the virtual absence of a self conscious and coherent bourgeoisie in France in the early modern period Likewise the fact that the nobility was a dynamic and diverse group whose members had learned to think in individualistic and meritocratic terms as a result of courtly politics is often ignored The Other Rise of the Novel calls for a radical revision of how realism the language of self interest and commercial exchanges and idealized noble values interact in the early modern novel It focuses on two novels from the seventeenth century Fureti re s Roman bourgeois and Lafayette s Princesse de Cl ves and four novels from the eighteenth century Pr vost s Manon Lescaut Graffigny s Lettres d une P ruvienn e Rousseau s La Nouvelle H lo se and Sade s Les infortunes de la vertu It argues that eighteenth century French fiction does not reflect material culture mimetically and that character action is best analyzed by focusing on the social and discursive exchanges staged by the text rather than by trying to create parallels between specific behavior and actual historical changes The novel produces its own reality by transforming characters and their stories into alternative social models different articulations of how individuals should define their economic relations to others The representation of interpersonal relations often highlights personal conceptions of private interest that cannot be easily reconciled with the traditional narrative of a transition towards economic modernity Realism then is not only about verisimilar storytelling and psychological depth it is an epistemological questioning about the type of access to reality that a particular genre can give its readers

Understanding Barthes, Understanding Modernism Jeffrey R. Di Leo, Zahi Zalloua, 2022-07-14 Understanding Barthes Understanding Modernism is a general assessment of the modern literary and philosophical contributions of Roland Barthes The first part of the volume focuses on work published prior to Barthes s death in 1980 covering the major periods of his development from Writing Degree Zero 1953 to Camera Lucida Reflections on Photography 1980 The second part focuses both on the posthumously published material and the

legacies of his work after his death in 1980 This later work has attracted attention for example in conjunction with notions of the neutral gay writing and critiques of everyday life The third part is devoted to some of the critical vocabulary of Barthes in both the work he published during his lifetime and that which was published posthumously *Ignatian Mysticism* Stephen J. Costello, 2024-01-01 This work explores the influential Spiritual Exercises of Ignatius Loyola the sixteenth century Spanish soldier saint mystic and founder of the Jesuit Order The Ignatian Exercises including the Examen are brought into dialogue with the psychologies of C G Jung and Viktor Frankl the philosophies of Eric Voegelin and Bernard Lonergan as well as the thought of Teilhard de Chardin von Balthasar and Eastern philosophy Their enduring relevance and implications for the Recovery and wellness movement are also articulated Drawing on key themes such as gratitude forgiveness and consciousness as a springboard for reflection and interpretation the mystical dimension of Ignatian spirituality is emphasised throughout This book will benefit the beginner serious scholar spiritual seeker and anyone intent on gaining an understanding of this unique way of proceeding *Intimate Revolt* Julia Kristeva, 2025-01-14 Julia Kristeva herself a product of the famous May 1968 Paris student uprising has long been fascinated by the concepts of rebellion and revolution But is it still possible to build and nurture a culture of revolt in today's world In this book Kristeva examines the manner in which three of the most unsettling modern writers Louis Aragon Jean Paul Sartre and Roland Barthes affirmed their personal rebellions She then ponders the future of rebellion maintaining not only that political revolt is mired in compromise but also that an essential component of European culture a culture of doubt and criticism is losing its moral and aesthetic force

Black Utopias Jayna Brown, 2021-01-11 In *Black Utopias* Jayna Brown takes up the concept of utopia as a way of exploring alternative states of being doing and imagining in Black culture Musical literary and mystic practices become utopian enclaves in which Black people engage in modes of creative worldmaking Brown explores the lives and work of Black women mystics Sojourner Truth and Rebecca Cox Jackson musicians Alice Coltrane and Sun Ra and the work of speculative fiction writers Samuel Delany and Octavia Butler as they decenter and destabilize the human radically refusing liberal humanist ideas of subjectivity and species Brown demonstrates that engaging in utopian practices Black subjects imagine and manifest new genres of existence and forms of collectivity For Brown utopia consists of those moments in the here and now when those excluded from the category human jump into other onto epistemological realms Black people untethered from the hope of rights recognition or redress celebrate themselves as elements in a cosmic effluvium *Reading "Adam Smith"* Michael J. Shapiro, 2002 In a Foucauldian analysis of the power of the discourse of Adam Smith to shape the way modernity defines the self and subjectivity Shapiro political science U of Hawaii examines how Adam Smith's moral philosophy and political economy are now textualized and institutionalized He argues that Smith's writings legitimize contentious realities by seeming purely descriptive monumentalizing arbitrary victories of power in persons such as the individual and collectivities such as the nation Annotation copyrighted by Book News Inc Portland OR *Hysteria*,

Perversion, and Paranoia in "The Canterbury Tales" Becky Renee McLaughlin, 2020-07-20 Beginning with the spectacle of hysteria moving through the perversions of fetishism masochism and sadism and ending with paranoia and psychosis this book explores the ways that conflicts with the Oedipal law erupt on the body and in language in Chaucer's *Canterbury Tales* for Chaucer's tales are rife with issues of mastery and control that emerge as conflicts not only between authority and experience but also between power and knowledge word and flesh rule books and reason man and woman same and other conflicts that erupt in a macabre sprawl of broken bones dismembered bodies cut throats and decapitations Like the macabre sprawl of conflict in the *Canterbury Tales* this book brings together a number of conflicting modes of thinking and writing through the surprising and perhaps disconcerting use of shadow chapters that speak to or against the four central chapters creating both dialogue and interruption

The Unacceptable J. Potts, J. Scannell, 2012-11-16 Confronting the issue of the unacceptable as a social category this collection of international essays provides distinctive perspectives on the theme of what is deemed socially acceptable The book reveals the ways category of the unacceptable reflects sexual racial and political fault lines of a society

Italo Calvino's Architecture of Lightness Letizia Modena, 2011-05-09 This study recovers Italo Calvino's central place in a lost history of interdisciplinary thought politics and literary philosophy in the 1960s Drawing on his letters essays critical reviews and fiction as well as a wide range of works primarily urban planning and design theory and history circulating among his primary interlocutors this book takes as its point of departure a sweeping reinterpretation of *Invisible Cities* Passages from Calvino's most famous novel routinely appear as aphorisms in calendars posters and the popular literature of inspiration and self help reducing the novel to vague abstractions and totalizing wisdom about thinking outside the box The shadow of postmodern studies has had a similarly diminishing effect on this text rendering up an accomplished but ultimately apolitical novelistic experimentation in endless deconstructive deferrals the shiny surfaces of play and the ultimately rigged game of self referentiality In contrast this study draws on an archive of untranslated Italian and French language materials on urban planning architecture and utopian architecture to argue that Calvino's novel in fact introduces readers to the material history of urban renewal in Italy France and the U S in the 1960s as well as the multidisciplinary core of cultural life in that decade the complex and continuous interplay among novelists and architects scientists and artists literary historians and visual studies scholars His last love poem for the dying city was in fact profoundly engaged deeply committed to the ethical dimensions of both architecture and lived experience in the spaces of modernity as well as the resistant practices of reading and utopian imagining that his urban studies in turn inspired

Hugging the Shore John Updike, 2013-01-15 WINNER OF THE NATIONAL BOOK CRITICS CIRCLE AWARD Writing criticism is to writing fiction and poetry as hugging the shore is to sailing in the open sea writes John Updike in his Foreword to this collection of literary considerations But the sailor doth protest too much This collection begins somewhere near deep water with a flotilla of short fiction humor pieces and personal essays and even the least of the reviews here those that come

about and draw even closer to the land with another nine point quotation are distinguished by a novelist's style insight and accuracy not just surface sparkle Indeed as James Atlas commented the most substantial critical articles on Melville Hawthorne and Whitman go out as far as Updike's fiction They are the sort of ambitious scholarly reappraisal not seen in this country since the death of Edmund Wilson With *Hugging the Shore* Michiko Kakutani wrote Updike established himself as a major and enduring critical voice indeed as the pre eminent critic of his generation *Barthes* Tiphaine Samoyault,2017-01-13 Roland Barthes 1915 1980 was a central figure in the thought of his time but he was also something of an outsider His father died in the First World War he enjoyed his mother's unfailing love he spent long years in the sanatorium and he was aware of his homosexuality from an early age all this soon gave him a sense of his own difference He experienced the great events of contemporary history from a distance However his life was caught up in the violent intense sweep of the twentieth century a century that he helped to make intelligible This major new biography of Barthes based on unpublished material never before explored archives journals and notebooks sheds new light on his intellectual positions his political commitments and his ideas beliefs and desires It details the many themes he discussed the authors he defended the myths he castigated the polemics that made him famous and his acute ear for the languages of his day It also underscores his remarkable ability to see which way the wind was blowing and he is still a compelling author to read in part because his path breaking explorations uncovered themes that continue to preoccupy us today Barthes's life story gives substance and cohesion to his career which was guided by desire perspicacity and an extreme sensitivity to the material from which the world is shaped as well as a powerful refusal to accept any authoritarian discourse By allowing thought to be based on imagination he turned thinking into both an art and an adventure This remarkable biography enables the reader to enter into Barthes's life and grasp the shape of his existence and thus understand the kind of writer he became and how he turned literature into life itself *Sade's Sensibilities* Kate Parker,Norbert Sclippa,2014-11-20 Sade's Sensibilities tells a new story of one of the most enduring and controversial figures in European literature Blending ideas about subjectivity identity and natural philosophy with politics and pornography D A F de Sade has fascinated writers and readers for two hundred years and his materialist account of the human condition has been widely influential in post structuralism nihilism and feminism This new collection of essays considers Sade's Enlightenment legacy both within and beyond the narratives of radicalism and aberration that have historically marked the study of his oeuvre From different points of view these essays argue that Sade engaged with and influenced traditional Enlightenment paradigms particularly those related to sensibility subjectivity and philosophy as much as he resisted them They thus recover a Sade more relevant even foundational to our twenty first century understanding of modernity selfhood and community In *Sade's Sensibilities* Sade is no longer a solitary peripheral radical but an Enlightenment philosopher in his own right **Cruelty** Wolfgang Müller-Funk,2025-11-03 In a humane world cruelty should not exist and yet it has been a feature of our societies since time immemorial From individual acts of cruelty to

systematic torture and mass murder cruelty has been humanity's constant companion attesting to a darker side of human nature. Cruelty involves the use of violence but it is more than this since it is organized and calculated; its intention is to inflict pain and suffering on others even to destroy the other. Cruelty is perhaps the ultimate form of violence in which the extermination of the other is staged as a threat in order to make others compliant or instill in them the fear of death. In this wide-ranging cultural history Wolfgang Iser examines the ways in which different thinkers and authors from Herodotus to Nietzsche from Seneca to Musil and Koestler have conceptualized and tried to make sense of a phenomenon we would prefer to ignore. He seeks to unveil the conditions under which an economy of cruelty emerges in which violence is calculated and becomes a quasi-natural matter of course. The economy of cruelty involves the efficient use of means to pursue irrational goals. It also involves discourses and narrative patterns that legitimize organized violence and neutralize emotions such as empathy and compassion that would restrain or obstruct the pursuit of cruelty. This disturbing inquiry into the nature of cruelty and its role in human culture will be of interest to students and scholars throughout the humanities and to a wide general readership.

The Taming of Romanticism Virgil Nemoianu, 1984. Looking at a broad spectrum of writers English French German Italian Russian and other East Europeans Virgil Nemoianu offers here a coherent characterization of the period 1815-1848. This he calls the era of the domestication of romanticism. The explosive visionary core of romanticism is seen to give way after the defeat of Napoleon to an expanded and softer version reflecting middle-class values. This later form of romanticism is characterized by moralizing efforts to reform society a sentimental yearning for the tranquility of home and hearth and persistent faith in the individual alongside a new skepticism shattered ideals and consequent irony. Expanding the application of the term Biedermeier which has been useful in describing this period in German literature Nemoianu provides a new framework for understanding these years in a wider European context.
