The Dhammapada Buddha, 2011-12-20 Trembling and quivering is the mind Difficult to guard and hard to restrain The person of wisdom sets it straight As a fletcher does an arrow The Dhammapada introduced the actual utterances of the Buddha nearly twenty five hundred years ago when the master teacher emerged from his long silence to illuminate for his followers the substance of humankind's deepest and most abiding concerns The nature of the self the value of relationships the importance of moment to moment awareness the destructiveness of anger the suffering that attends attachment the ambiguity of the earth's beauty the inevitability of aging the certainty of death these dilemmas preoccupy us today as they did centuries ago No other spiritual texts speak about them more clearly and profoundly than does the Dhammapada In this elegant new translation Sanskrit scholar Glenn Wallis has exclusively referred to and quoted from the canonical suttas the presumed earliest discourses of the Buddha to bring us the heartwood of Buddhism words as compelling today as when the Buddha first spoke them On violence All tremble before violence All fear death Having done the same yourself you should neither harm nor kill On ignorance An uninstructed person ages like an ox his bulk increases his insight does not On skillfulness A person is not skilled just because he talks a lot Peaceful friendly secure that one is called skilled In 423 verses gathered by subject into chapters the editor offers us a distillation of core Buddhist teachings that constitutes a prescription for enlightened living even in the twenty first century He also includes a brilliantly informative guide to the verses a chapter by chapter explication that greatly enhances our understanding of them The text at every turn points to practical applications that lead to freedom from fear and suffering toward the human state of spiritual virtuosity known as awakening Glenn Wallis's translation is an inspired successor to earlier versions of the suttas Even those readers who are well acquainted with the Dhammapada will be enriched by this fresh encounter with a classic text

King,1991-01-01 This volume presents the first book length study in English of the concept of Buddha nature as discussed in the Buddha Nature Treatise Fo Xing Lun attributed to Vasubandhu and translated into Chinese by Paramartha in the sixth century The author provides a detailed discussion of one of the most important concepts in East Asian Buddhism a topic little addressed in Western studies of Buddhism until now and places the Buddha nature concept in the context of Buddhist intellectual history King then carefully explains the traditional Buddhist language in the text and embeds Buddha nature in a family of concepts and values which as a group are foundational to the development of the major indigenous schools of Chinese Buddhism In addition she refutes the accusations that the idea of Buddha nature introduces a crypto Atman into Buddhist thought and that it represents a form of monism akin to the Brahmanism of the Upanisads In doing this King defends Buddha nature in terms of purely Buddhist philosophical principles Finally the author engages the Buddha nature concept in dialogue with Western philosophy by asking what it teaches us about what a human being or person is
