Islam and Modernity Muhammad Khalid Masud, 2009-08-18 Recent events have focused attention on the perceived differences and tensions between the Muslim world and the modern West As a major strand of Western public discourse has it Islam appears resistant to internal development and remains inherently pre modern However Muslim societies have experienced most of the same structural changes that have impacted upon all societies massive urbanisation mass education dramatically increased communication the emergence of new types of institutions and associations some measure of political mobilisation and major transformations of the economy These developments are accompanied by a wide range of social movements and by complex and varied religious and ideological debates This textbook is a pioneering study providing an introduction to and overview of the debates and questions that have emerged regarding Islam and modernity Key issues are selected to give readers an understanding of the complexity of the phenomenon from a variety of disciplinary perspectives The various manifestations of modernity in Muslim life discussed include social change and the transformation of political and religious institutions gender politics changing legal regimes devotional practices and forms of religious association shifts in religious authority and modern developments in Muslim religious thought

Recasting Islamic Law Rachel M. Scott, 2021-03-15 By

examining the intersection of Islamic law state law religion and culture in the Egyptian nation building process **Recasting Islamic Law** highlights how the sharia when attached to constitutional commitments is reshaped into modern Islamic state law Rachel M Scott analyzes the complex effects of constitutional commitments to the sharia in the wake of the Egyptian Revolution of 2011 She argues that the sharia is not dismantled by the modern state when it is applied as modern Islamic state law but rather recast in its service In showing the particular forms that the sharia takes when it is applied as modern Islamic state law Scott pushes back against assumptions that introductions of the sharia into modern state law result in either the revival of medieval Islam or in its complete transformation Scott engages with premodern law and with the Ottoman legal legacy on topics concerning Egypt s Coptic community women s rights personal status law and the relationship between religious scholars and the Supreme Constitutional Court **Recasting Islamic Law** considers modern Islamic state law s discontinuities and its continuities with premodern sharia Thanks to generous funding from Virginia Tech and its participation in TOME Toward an Open Monograph Ecosystem the ebook editions of this book are available as Open Access volumes from Cornell Open cornellpress.cornell.edu/cornell-open and other repositories

The Female Voice in Sufi Ritual Shemeem Burney Abbas, 2010-06-04 The female voice plays a more central role in Sufi ritual especially in the singing of devotional poetry than in almost any other area of Muslim culture Female singers perform sufiana kalam or mystical poetry at Sufi shrines and in concerts folk festivals and domestic life while male singers assume the female voice when singing the myths of heroines in qawwali and sufiana kalam Yet despite the centrality of the female voice in Sufi practice throughout South Asia and the Middle East it has received little scholarly attention and is largely unknown in the West This book presents the first in depth study of the female voice in Sufi practice in the subcontinent of Pakistan and India Shemeem Burney Abbas investigates the rituals at the Sufi shrines and looks at women s participation in them as well as male

performers use of the female voice The strengths of the book are her use of interviews with both prominent and grassroots female and male musicians and her transliteration of audio and videotaped performances Through them she draws vital connections between oral culture and the written Sufi poetry that the musicians sing for their audiences This research clarifies why the female voice is so important in Sufi practice and underscores the many contributions of women to Sufism and its rituals

The Politics of Religious Party Change A. Kadir Yildirim,2023-01-05 The Politics of Religious Party Change examines the ideological change and secularization of religious political parties and asks when and why do religious parties become less anti system In a comparative analysis the book traces the striking similarities in the historical origins of Islamist and Catholic parties in the Middle East and Western Europe chronicles their conflicts with existing religious authorities and analyzes the subsequently divergent trajectories of Islamist and Catholic parties In examining how religious institutional structures affect the actions of religious parties in electoral politics the book finds that centralized and hierarchical religious authority structures such as the Vatican incentivize religious parties to move in more pro system secular and democratic directions By contrast less centralized religious authority structures such as in Sunni Islam create more permissive environments for religious parties to be anti system and more prone to freely formed parties and hybrid party movements

Roots of North Indian Shi'ism in Iran and Iraq: Religion and State in Awadh, 1722-1859 Juan R. I. Cole,2024-11-28 In this pioneering study of the Twelver Shi i branch of Islam prevalent in Iraq and Iran Juan R I Cole traces the influence of Shi i rule on the development of religious communalism and conflict in the north Indian State of Awadh Oudh as well as the relationship of the Shi i clergy to the state and the clerical reaction to British imperialism and capitalism Based on research in rare manuscripts and in archives the book reveals that the Shi i clergy advocated policies that caused resentment among Sunnis and Hindus thereby promoting religious communalism and setting the stage for modern communal conflict The Shi i learned men took government posts in support of Awadh s Shi i nawabs and shahs Awadh state support in turn helped transform Shiism from a persecuted sect to a dominant if still minority religious establishment Sociologically the book draws attention to the specific role of the state in defining sect and church It also argues the importance of class divisions within the Shi i community showing that the dominant clerical ideology was often not accepted by the laboring strata Cole s study supports the view that Muslim communalism in northern India had genuine historical roots and was not simply an elite strategy of modern Muslim politicians Contrary to the arguments of some writers and to the image projected by Iran s current ayatollahs he argues that

most Shi'i clergy did not play a role of opposition to the state in premodern societies Muslim-Christian Conflicts Suad Joseph, 2019-10-10 What does religion mean in people's daily lives In what ways is it a component of ethnic identity How do religious identities and structures relate to other social identities and structures and to political and economic institutions and behavior How can Muslim-Christian relations be understood in the context of the emergence of the world capitalist system These are some of the questions addressed by the authors of this volume Their collective goal growing out of a desire to understand the continuing war in Lebanon is to study the circumstances under which religious differences become politically salient *Scholars and Sultans in the Early Modern Ottoman Empire* Abdurrahman Atçıl, 2017 This book examines the transformation of scholars into scholar bureaucrats and discusses ideology law and administration in the Ottoman Empire
