Managing Egypt's Poor And The Politics Of Benevolence 1800-1952:

Managing Egypt's Poor and the Politics of Benevolence, 1800-1952 Mine Ener, 2003-09-22 This richly textured social history recovers the voices and experiences of poor Egyptians beggars foundlings the sick and maimed giving them a history for the first time As Mine Ener tells their fascinating stories alongside those of reformers tourists politicians and philanthropists she explores the economic political and colonial context that shaped poverty policy for a century and a half While poverty and poverty relief have been extensively studied in the North American and European contexts there has been little research done on the issue for the Middle East and scant comprehensive presentation of the Islamic ethos that has guided charitable action in the region Drawing on British and Egyptian archival sources Ener documents transformations in poor relief changing attitudes toward the public poor the entrance of new state and private actors in the field of charity the motivations behind their efforts and the poor's use of programs created to help them She also fosters a dialogue between Middle Eastern studies and those who study poverty relief elsewhere by explicitly comparing Egypt's poor relief to policies in Istanbul and also Western Europe Russia and North America Heralding a new kind of research into how societies care for the destitute and into the religious prerogatives that guide them this book is one of the first in depth studies of charity and philanthropy in a region whose social problems have never been of greater interest to the West *Managing Egypt's Poor and the Politics of Benevolence, 1800-1952* Mine Ener, 2003-10-12 This richly textured social history recovers the voices and experiences of poor Egyptians beggars foundlings the sick and maimed giving them a history for the first time As Mine Ener tells their fascinating stories alongside those of reformers tourists politicians and philanthropists she explores the economic political and colonial context that shaped poverty policy for a century and a half While poverty and poverty relief have been extensively studied in the North American and European contexts there has been little research done on the issue for the Middle East and scant comprehensive presentation of the Islamic ethos that has guided charitable action in the region Drawing on British and Egyptian archival sources Ener documents transformations in poor relief changing attitudes toward the public poor the entrance of new state and private actors in the field of charity the motivations behind their efforts and the poor's use of programs created to help them She also fosters a dialogue between Middle Eastern studies and those who study poverty relief elsewhere by explicitly comparing Egypt's poor relief to policies in Istanbul and also Western Europe Russia and North America Heralding a new kind of research into how societies care for the destitute and into the religious prerogatives that guide them this book is one of the first in depth studies of charity and philanthropy in a region whose social problems have never been of greater interest to the West *Re-envisioning Egypt 1919-1952* Arthur Goldschmidt, Amy J. Johnson, Barak A. Salmoni, 2005 *Re-envisioning Egypt 1919-1952* presents new and often dismissed aspects of the constitutional monarchy era in Egyptian history It demonstrates that many of the domestic and regional sociopolitical and cultural changes credited to the 1952 revolutionaries actually began in the decades before the July coup Arguing against the

predominant view of the pre revolutionary era in Egypt as one of creeping decay the volume restores understandings of the 1919 1952 years as integral to modern nation state formation and social transformation The book s contributors show that Egypt s real revolutions were long term processes emerging over several decades prior to 1952 The leaders of the 1952 coup capitalized on these developments yet earlier changes in Egyptian society fundamentally facilitated their actions and policies This volume includes revisionist discussion of domestic political issues and foreign policy the military education social reform and class as well as popular media art and literature By introducing new approaches to these under appreciated categories of analysis through exploration of untapped sources and by re examining the political context of the time *Re Envisioning Egypt 1919 1952* proposes innovative methodologies for understanding this crucial period in Egyptian history casting these years as fundamental to the country s twentieth century trajectory Contributors Tewfik Aclimandos Malak Badrawi Andrew Flibbert Nancy Gallagher Arthur Goldschmidt Mervat Hatem Misako Ikeda Amy J Johnson Anne Claire Kerboeuf Samia Kholoussi Hanan Kholoussi Fred Lawson Shaun T Lopez Scott David McIntosh Roger Owen Lucie Ryzova Barak A Salmoni James Whidden Caroline Williams Long 1890s in Egypt Marilyn Booth,2014-07-28 Egypt just before political eruption Turns of the century in Africa s northeastern corner have been critical moments ushering in overt popular activism in the hope of radical political redirection as this volume s focus on Egypt s 19th century fin de siecle demonstrates The end of the 19th century in Egypt witnessed crisscrossing and conflicting political currents as well as fluctuating economic geopolitical social conditions demographic conditions and cultural processes Like Egypt s 20th century fin de siecle much of this ferment was a prelude to the more visible and politically eruptive events of the next decades when Egypt s popular resistance burst onto the international scene But its subterranean cast was no less dynamic for that **Medicine and Morality in Egypt** Sherry Sayed Gadelrab,2016-01-22 In Middle Eastern and Islamic societies the politics of sexual knowledge is a delicate and often controversial subject Sherry Sayed Gadelrab focuses on nineteenth and early twentieth century Egypt claiming that during this period there was a perceptible shift in the medical discourse surrounding conceptualisations of sex differences and the construction of sexuality Medical authorities began to promote theories that suggested men s innate active sexuality as opposed to women s more passive characteristics interpreting the differences in female and male bodies to correspond to this hierarchy Through examining the interconnection of medical legal religious and moral discourses on sexual behaviour Gadelrab highlights the association between sex sexuality and the creation and recreation of the concept of gender at this crucial moment in the development of Egyptian society By analysing the debates at the time surrounding science medicine morality modernity and sexuality she paints a nuanced picture of the Egyptian understanding and manipulation of the concepts of sex and gender *Interpreting Welfare and Relief in the Middle East* Nefissa Naguib,Inger Marie Okkenhaug,2008 Based on different problematic and methodological perspectives and new sources this book s contributions lie in the close study of welfare beyond the religious divides codifications and indoctrinations The time span from 1850 to the

present day represents moments of colonisations occupations wars and conflicts which resulted in unmet needs and broken down institutions What are the stories behind health care schools orphanages and vocational schools maternity homes and hostels The collection of chapters examine different involvements in welfare activities not only as contextualised in stable communities and nations but also as they emerge in vulnerable states and disintegrating societies Furthermore this volume brings forth the historical and contemporary voices of those who provide relief and the beneficiaries of such efforts At the core of this book are themes concerned with humanitarianism in relation to people's unique experiences state and non governmental organisations gender and modernity *International Review of Social History*, 2005 **Imperial Bodies**

Shana Minkin, 2019-11-19 At the turn of the twentieth century Alexandria Egypt was a bustling transimperial port city under nominal Ottoman and unofficial British imperial rule Thousands of European subjects lived worked and died there And when they died the machinery of empire had to negotiate for space resources and control with the nascent national state *Imperial Bodies* shows how the mechanisms of death became a tool for exerting both imperial and national governance Shana Minkin investigates how French and British power asserted itself in Egypt through local consular claims of belonging manifested within the mundane caring for dead bodies European communities corralled imperial bodies through the bureaucracies and rituals of death from hospitals funerals and cemeteries to autopsies and death registrations As they did so imperial consulates pushed against the workings of both the Egyptian state and each other expanding their governments material and performative power Ultimately this book reveals how European imperial powers did not so much claim Alexandria as their own as they maneuvered manipulated and cajoled their empires into Egypt **The American Journal of Islamic Social Sciences**, 2007 *A History of Social Justice and Political Power in the Middle East* Linda T. Darling, 2013-05-02 From ancient Mesopotamia into the 20th century the Circle of Justice as a concept has pervaded Middle Eastern political thought and underpinned the exercise of power in the Middle East The Circle of Justice depicts graphically how a government's justice toward the population generates political power military strength prosperity and good administration This book traces this set of relationships from its earliest appearance in the political writings of the Sumerians through four millennia of Middle Eastern culture It explores how people conceptualized and acted upon this powerful insight how they portrayed it in symbol painting and story and how they transmitted it from one regime to the next Moving towards the modern day the author shows how although the Circle of Justice was largely dropped from political discourse it did not disappear from people's political culture and expectations of government The book demonstrates the Circle's relevance to the Iranian Revolution and the rise of Islamist movements all over the Middle East and suggests how the concept remains relevant in an age of capitalism A must read for students policymakers and ordinary citizens this book will be an important contribution to the areas of political history political theory Middle East studies and Orientalism *New Perspectives on Turkey*, 2003
