Managing Finances Family Life Issues:

PRINCIPLES OF CHRISTIAN MARRIAGE AND FAMILY LIFE Akinbowale Adewumi, 2020-01-14 With the trend of divorce in Christendom it has become worrisome that some believers are fast changing the ancient landmark of God. Over time many couples have bounced back from a vast range of seemingly irreversible problems such as unresolved conflicts, extramarital affairs, lack of intimacy, excessive quarrels, insufficient and ineffective communication, inadequate quality of time spent together due to busy schedules, suffocating partners, children issues, trial separation, and many more complex and difficult situations. With absolute trust in God, following biblical principles and spiritual counseling coupled with prayer, virtually anyone can have the marriage of their dreams. By God's grace and through the inspiration of the Holy Spirit, the author instructs through this compendium on Principles of Christian Marriage and Family Life about how to resolve your matrimonial problems and have a marital life of heaven on earth.

Family Life Education With Diverse Populations

Sharon M. Ballard, Alan C. Taylor, 2012 Family Life Education with Diverse Populations is a T2 for courses in Family Life Education, Family Studies, and Social Work. Students often go through the additional certification of becoming Family Life Educators (FLEs). As a family life educator, the student will help educate families in and outside the traditional classroom environment on how to strengthen relationships in the home and foster positive individual couple and family development. Such education comprises many topics including marriage education, parenting skills, anger management, to strategies in adjusting to divorce. This book takes the content delivered in courses on FLE a step further by examining and presenting key strategies for working with diverse populations. Diverse is defined broadly in terms of race and ethnicity but also by setting such as military families, rural families, families with loved ones in prison, and more. The book is unique in defining the group and presenting their strengths and then prescribing treatments and strategies for working with each group. In addition, the book takes an evidence-based practice approach and demonstrates proven strategies in working with the populations listed above. Sharon M. Ballard, Ph.D., CFLE, CFCS is an Associate Professor in the Department of Child Development and Family Relations at East Carolina University. Alan C. Taylor, Ph.D., CFLE is an Assistant Professor in the Department of Child Development and Family Relations at East Carolina University.
