1 LETTING GO

- Learn to be solution-focused in your thinking
- Choose very carefully with whom you surround yourself

3 ACTION

- Be brave and learn to take risks
- Recognise that we learn from our mistakes
- Be prepared to be seen and act differently

4 EMBRACE CHANGE

- Give full expression to your values and all that the change process has meant for you and your school
- Acknowledge all that has been learnt and find moments to affirm and celebrate both organisational and individual growth
- Find a way to come to know yourself and your school on new terms

philosophy that makes it uniquely different in the market It makes managing change real relevant and practical and It makes it simple to find what you are looking for This book is not intended to be a textbook on managing change per se for two reasons firstly which practicing manager has the time to read a text book And secondly just because its a textbook doesnt mean the answers that managers may have are readily available especially when needed by the manager Many organizations not only have internal skilled resources to draw on for the conduct of change projects but they also have the resources to hire expensive change consultants when needed But what about those companies that dont have the internal resources to expertly handle change projects and that dont have the funds to pay expensive consultants This book addresses this gap It also provides invaluable assistance to all managers since all managers need to manage change and all change consultants because there are very few who know it all or have all the answers This book does not align itself to any particular school of thought regarding the management of change however it does draw on the practical experience of professionals in the area as well as fundamental principles common to many change methodologies **Managing Change in an Agile World** Kate
