Integral Leadership John P. Forman, Laurel A. Ross, 2013-05-13 A groundbreaking book that brings the insights of Integral Theory to business and organizational development

Handbook on Responsible Leadership and Governance in Global Business Jonathan P. Doh, Stephen A. Stumpf, 2005 Reading these various non technical articles is undeniably valuable for any person teachers executives students who is concerned about the behaviour of major companies managers in the context of globalisation and economy liberalisation

Gestion 2000 A profoundly important book for scholars and leaders alike that makes a vital timely contribution to the behavioral perspectives on leadership and governance Doh and Stumpf along with their world renowned contributors apply solidly anchored academic wisdom to offer fresh ideas on restoring faith in the integrity of American enterprise Jeffrey Sonnenfeld Yale School of Management President and CEO Chief Executive Leadership Institute and author of *Leadership and Governance From The Inside Out* Ethics social responsibility leadership governance These terms are heard in the classroom in the boardroom and viewed on the front page of newspapers and magazines Yet serious attention to the relationships among these concepts is lacking Although commitments to leadership ethics and social responsibility are evident individuals and companies are falling short in combining these duties into policies and cultures that guide behavior and decisions The missing element is a broad based and integrated approach to responsible leadership and governance This volume provides the leading thinking on these issues and includes a discussion of emerging areas that

require future attention. The contributors, leading scholars in the fields of leadership, governance, and social responsibility, summarize the state of the literature, identify complementary insights and perspectives, discuss areas of conflict and disagreement, and include a provocative and stimulating agenda for further investigation. They point up practical consequences of these perspectives in light of developments that have exposed the shortcomings in practice. Several contributors focus specifically on the challenges faced by global companies in developing and maintaining leadership and governance practices that are responsive to different national, institutional, and cultural settings. Thorough coverage and insightful discussion make this an essential reference for scholars and students of leadership, corporate responsibility, and professional ethics, as well as for all those directly responsible for establishing the ethical codes and practices of their organizations.

Values-Centered Entrepreneurs and Their Companies David Y. Choi, Edmund Gray, 2010-09-03

A new brand of entrepreneurs has arrived on the business scene, carrying with them a whole new set of values. They possess a sense of mission: to be socially responsible, protect the planet, and do the right thing for all of their stakeholders. Rather than focus exclusively on financial gain, they aim to achieve a balance between profits and one or more causes of their choosing. In fact, they view for-profit entrepreneurship as a vehicle for social change. The authors call these pioneers values-centered entrepreneurs. Some of the values-centered entrepreneurs have been around a few decades. In recent years, however, the numbers have proliferated, and the nascent movement has started to make a true impact. These entrepreneurs approach management questions, our basic assumptions about how businesses should be run, and what their role should be in society. Several of these entrepreneurs have attained high visibility. Yvon Chouinard of sportswear manufacturer Patagonia has been a role model for integrating environmental protection to every aspect of Patagonia's business operation. Howard Schultz of Starbucks has been able to build one of the strongest brands in the world while being the first retailer to offer comprehensive health benefits and stock options to its part-time employees. Paul Newman, legendary actor and racecar driver, as well as a leading maker of salad dressings, gives 100% of Newman's Own brand's profits to charity. This book explores how these highly unorthodox leaders have built their profitable and socially responsible business enterprises and what lessons can be learned for the next generation of entrepreneurs. The authors examine a group of over 40 entrepreneurial companies and how each balanced the profit objective with social responsibility in key aspects of their business operation, from their initial company formation through growth to exit, to build successful triple-bottom-line companies. Choi and Gray particularly focus on how these firms' commitment to values affected their company missions, hiring, and organizational policies, marketing strategies, financial practices, exit options, and giving programs, and vice versa. In some cases, the authors find that the entrepreneurs' social objectives have actually strengthened, not weakened, their business enterprises. Based on their extensive studies of these companies, the authors have distilled a set of commonalities. The book presents ten of the most dominant and interesting of these commonalities, with a focus on those policies and decisions that appeared to depart from conventional

business practice In addition to devoting chapters to each of the core principles learned from these companies the authors also include in depth case studies of four of the ventures featured in their study *Big Lessons from Little Places* Kay Collier McLaughlin, 2015-04 Churchwide discussions on structure and growth tend to focus on the importance of increasing butts in the pews and bucks in the plates Suggestions have been made on merging smaller dioceses to create larger ones and closing the doors of congregations which do not have Sunday attendance of at least 200 This is a model of scarcity without consideration of the value and abundance to be found in small churches Discover the roles possibilities promise and potential of being a small church Travel with Kay Collier McLaughlin as she takes the back roads and byways of the United States visiting small churches that are making a difference in their community Each chapter tells a story about an example of faithfulness in the life of a small congregation and relates that story to the essentials of faithful living and being church The book challenges the decision makers in the Episcopal Church to think beyond traditional measures and shortterm economic fixes to discover the life giving opportunities and models presented by the smallest congregations *Leadership Development for Educators* Herb Rubenstein, F. Mike Miles, Laurie J. Bassi, 2009-12-16 Teachers face enormous challenges with standardized testing the customization of education for each student to reach his or her potential behavioral challenges changes in demographics of students micromanagement from school administrators and difficulties in working with parents and the community at large to name a few These challenges cannot be met through solely learning more about subject matter being better prepared for classes or managing time more wisely they must be met more effectively by teaching teachers how to become better leaders *Leadership Development for Educators* is the book that will assist teachers in becoming better leaders in their classrooms and in their lives Learning about leadership theory and leadership best practices and undertaking the leadership development exercises in the book will guide teachers to greater workplace satisfaction improved student performance and behavior and better collaboration to further improve leadership skills The authors encourage teachers at all levels from pre K to twelfth grade to remain in and enjoy the teaching profession for many years *Leadership for Lawyers* Herb Rubenstein, 2008 *Leadership* is essential for anyone who wants to steer their firms and organizations to new heights This book is first in its field to help those in the legal profession become more effective leaders Readers will discover the various brands of leaders and the strengths and weaknesses of each Herb Rubenstein has taught leadership at five universities and is the founder and president of Growth Strategies Inc a strategy management leadership and innovation consulting firm in Bethesda Maryland **Pursuit of Passionate Purpose** Theresa M. Szczurek, 2005-01-07 In *Pursuit of Passionate Purpose* self help guru Theresa Szczurek reveals that the real key to a successful and happy life is in knowing what it is that you truly desire and pursuing it with determination Based on the everyday wisdom of eighty successful people from all walks of life along with the practical strategies she used to pursue her own passion Szczurek presents a proven step by step plan for effectively pursuing whatever your passionate purpose is By emulating the six strategies characteristics that
