Managing Information Systems in IS James D. McKeen,Heather A. Smith,1996-10-07 The person who runs the company sees IS as being the provider of solutions Don't tell me about function point productivity What we want is faster turnaround time for systems and we're not getting it The person who runs the IS division recognizes that it has a strategic role The management is locked into a 1980s timewarp how do I persuade them that IS has more to offer than in the past The aim of the book is to step into the middle ground It emphasizes the important role an IS manager plays in the development of the company strategy It will show how the everyday problems need to be seen in a fresh perspective that of balancing the competing pressures of business and technology Get too far from the technology and too close to the business and technology will pull you back Get focused on technology and lose sight of the business and the business will make sure you know about it The goal of this book is to provide IS managers with balanced information to guide them Why does it matter Because in many ways the future of our organizations is in the hands of today's IS managers Management Challenges in IS will help them make wise and thoughtful choices
