Business Periodicals Index, 1994 SES Journal, 1991 Change Management. Overcoming Resistance Against Innovative Controlling Tools in Retail Companies Angelika Valerie Lapidus, 2022-06-22 Seminar paper from the year 2021 in the subject Business economics Supply Production Logistics grade 1.0 Northern Business School language English abstract The following paper aims to show the origin of resistance resulting from changing old controlling tools to more innovative ones in retail companies. Furthermore, there will be strategies presented to avoid and overcome such resistances. For this purpose, typical situations as well as exemplary solutions for dealing with resistances in practice are outlined within a theoretical framework. Highly relevant for companies of all sizes and industries, this topic is of particular importance for retail companies. This results mainly from the conservative corporate culture, the high margin pressure, and the associated risk aversion in retail companies. Successful and future-oriented corporate management is based on efficient and effective controlling tools that form a holistic system. Its purpose is satisfying internal and external information needs as well as providing a mandatory base for the management of a company with which decisions can be made at all times. The demands for modern controlling tools are very diverse. Factors crucial to the success of a company must always be depicted in a consistent manner, and controlling relevant financial as well as non-financial information must be presented transparently and in a recipient-oriented fashion. At the same time, past and future-oriented assertions must be made that provide a reliable idea of the current situation of a company. A company's controlling tools should meet the expectations of externs. The greatest challenges here include regulatory and legal requirements as well as implicit expectations of the capital markets with regard to transparency and quality of the tools used. This applies in particular to innovative forms of financing which are also becoming popular in the retail sector.
