**Managing Managed Care II** Michael Goodman, Janet Brown, Pamela Deitz, 1996 Managing Managed Care II A Handbook for Mental Health Professionals Second Edition provides an easy to learn easy to use method for documenting and communicating the necessity appropriateness and course of treatment for managed care review Using the Patient Impairment Profile method practitioners can convincingly convey a clinical rationale for treatment efficiently track progress over time and demonstrate favorable patient outcomes Keeping pace with the evolving and expanding presence of managed care the authors have extensively revised and enlarged the previous edition New clinical research on the validity and reliability of the impairment terminology has produced a much improved clinically valid and statistically reliable impairment lexicon Detailed severity rating qualifiers reference lists of patient objectives and a useful glossary have been added All

regulations have also been updated *Managing Managed Care II* is reference and valuable resource for mental health practitioners and for the individuals who monitor and review treatment By providing concise relevant and outcome focused treatment information practitioners become proactive participants in managed care while adeptly articulating the value and quality of their services *Managing Managed Care* Michael C. Roberts, Linda K. Hurley, 2012-11-19 The introduction of the concept of managed care into mental and physical health care appears to be a juggernaut of unparalleled impact The two extremes of thought about this impact are 1 that managed care is a villainous foe to be resisted in order to bring back the earlier halcyon years of independence in practice decisions with greater reimbursement for psychologists services or 2 that managed care is a laudatory attempt to restrain health care costs that are out of control and spiraling upward by rooting out mismanagement and reversing financial incentives to provide unnecessary care The former view calls managed health care such names as mangled care and distributes bumper stickers stating Just Say No to HMOs The latter view points to the slowdown of increases in health care expenditures and the enhancement of health care affordability and appropriateness for greater numbers of persons resulting from managed care cost containment strategies and service review procedures Mental or behavioral health care has been as strongly impacted as medical care under managed care Where managed care has forced practitioners attention to validated procedures and to examining previous wasteful practices we applaud the movement Where managed care has had adverse impact we think there needs to be greater public legal and regulatory attention to its excesses and abuses *Managing Managed Care* Michael Goodman, Janet Brown, Pamela Deitz, 1992
