Black Education Willy DeMarcell Smith, Eva Wells Chunn, 2017-07-28 This highly focused collection of papers commissioned by the National Urban League offers a candid and courageous portrait of black education in transition This is a period as the editors note in their opening remarks that is characterized by a huge shift from federal responsibility for minority education to authority and autonomy being lodged at the local government level Further many institutions that once worked well no longer do so Many ambitious social programs and policies that originally
