

A woman with dark hair, wearing a black off-the-shoulder top and a gold chain necklace, is smiling and holding a small, light-colored dog. She is also holding a martini glass with a red liquid. The background is a pinkish-purple with a wavy, marbled pattern.

Citizenship Law in Africa Bronwen Manby, 2012-07-27 Few African countries provide for an explicit right to a nationality. Laws and practices governing citizenship effectively leave hundreds of thousands of people in Africa without a country. These stateless Africans can neither vote nor stand for office; they cannot enrol their children in school, travel freely or own property; they cannot work for the government; they are exposed to human rights abuses. Statelessness exacerbates and underlies tensions in many regions of the continent. Citizenship Law in Africa a comparative study by two programs of the Open Society Foundations describes the often arbitrary, discriminatory and contradictory citizenship laws that exist from state to state and recommends ways that African countries can bring their citizenship laws in line with international rights norms. The report covers topics such as citizenship by descent, citizenship by naturalisation, gender discrimination in citizenship law, dual citizenship and the right to identity documents and passports. It is essential reading for policymakers, attorneys and activists. This second edition includes updates on developments in Kenya, Libya, Namibia, South Africa, Sudan and Zimbabwe as well as minor corrections to the tables and other additions throughout.

### **The Early Exploration of Inland Washington Waters**

Richard W. Blumenthal, 2015-01-28 For those armchair historians interested in the initial nautical exploration of inland Washington waters, this text is a significant addition to Northwest maritime history. Beginning in 1786 and continuing through 1792, The Early Exploration of Inland Washington Waters includes transcriptions of all of the logs and journals of the area's earliest explorers. This text follows the initial journey of John Meares, four intervening expeditions by the Spanish, and culminates with George Vancouver's voyage in 1792. This fascinating read includes the first European descriptions of Puget Sound, Country and the people who lived here. It also records the events and history surrounding the naming of many prominent locations in the area by Vancouver, including Puget Sound, Whidbey and Vashon Islands, Hood Canal, Admiralty Inlet, Mounts Rainier and Baker, etc. Readers will also be fascinated by the numerous Spanish names, including the Haro Strait, Port Angeles, Padilla Bay, Sucia Matia and Patos Islands, as well as many more which did not stand the test of time. We owe our history to these early explorers; this text brings them to life.

**With Vancouver in Inland Washington Waters** Richard W. Blumenthal, 2014-12-09 Picking up the narrative from his earlier volume The Early Exploration of Inland Washington Waters: Journals and Logs from Six Expeditions 1786-1792, Richard Blumenthal once again offers the reader a fascinating firsthand look at the Northwest's earliest maritime history. This volume reproduces twelve individual journals, each composed by one of George Vancouver's men as they explored the Washington area in 1792. Providing additional details of exploration in inland areas not previously described, it contains a record of Peter Puget's observations and explorations of Puget Sound and a detailed description of William Broughton's passage through the San Juan Islands. These journals also provide detail regarding the day-to-day onboard activities of both officers and enlisted men. A brief biographical note is provided at the beginning of each man's journal.

This is the first book to concentrate exclusively on texts about Boudica and to cover the full chronological range from the first surviving historical account by Tacitus in AD 98 to the triumphant conclusion of Manda Scott s series of novels in 2006 All our knowledge of the ancient British queen Boudica and her ferocious yet ultimately unsuccessful rebellion against the Romans is derived from a few accounts in ancient Greek and Latin Yet they have inspired a flood of history fictional narrative drama and poetry and there is no indication that the process has ended This study illuminates and celebrates the rich variety generated by the creative tensions between writers knowledge and their individual tastes beliefs and political or artistic aims and considers whether Boudica s textual metamorphoses are without limits or variations on a distinctive theme bounded by a flexible yet enduring narrative pattern
