Manchu A Textbook For Reading Documents:

Manchu Gertraude Roth Li, 2010 This resource offers students a tool to gain a good grounding in the Manchu language With this text the equivalent of a three semester course students are able study Manchu on their own time and at their own speed **Tunguso Sibirica** Michael Weiers, Hans-Rainer Kämpfe, 1995 **Spoken Sibe: Morphology of the Inflected**

Parts of Speech Veronika Zikmundová, 2013-03-01 At present the Sibe language is the only oral variety of Manchu which is actually in use With some 20 000 to 30 000 speakers it is also the most widely spoken Tungusic language The Sibe people who live at the North Western border of the present day Sinkiang Uyghur Autonomous province of China are descendants of the garrison men of the Manchu army from 18th century They were sent there after the area was annexed by the Manchus with the task to guard the newly established border between the Manchu Empire and Russia Being soldiers of an alien army they remained isolated from the indigenous Turkic and Mongolian peoples which resulted in an almost miraculous preservation of the language In the 1990s when the oral varieties of Manchu in historical Manchuria became either extinct or at the verge of extinction Sibe kept surviving as a language spoken by all generations of Sibe people in the Chapchal Sibe autonomous county and by the middle and older generations in virtually all other Sibe settlements of Xinjiang By now although the percentage of Sibe Chinese bilingualism is high the number of speakers including young people is still significantly great The present description of the grammatical functioning of the two main inflected word classes nouns and verbs is documented by examples and sample texts and provided with the basic general information about the Sibe language and its speakers The intention of this work is to offer the reader a more complex image of the Sibe language as it is used at present on its historical and cultural territory **Treasures of the Yenching** Harvard-Yenching Library, Mikael S.

Adolphson, 2003 Early Encounters between East Asia and Europe Ralf Hertel, Michael Keevak, 2017-07-14 While inquiries into early encounters between East Asia and the West have traditionally focused on successful interactions this collection inquires into the many forms of failure experienced on all sides in the period before 1850 Countering a tendency in scholarship to overlook unsuccessful encounters it starts from the assumption that failures can prove highly illuminating and provide valuable insights into both the specific shapes and limitations of East Asian and Western imaginations of the Other as well as of the nature of East West interaction Interdisciplinary in outlook this collection brings together the perspectives of sinology Japanese and Korean studies historical studies literary studies art history religious studies and performance studies The subjects discussed are manifold and range from missionary accounts travel reports letters and trade documents to fictional texts as well as material objects such as tea chinaware or nautical instruments exchanged between East and West In order to avoid a Eurocentric perspective the collection balances approaches from the fields of English literature Spanish studies Neo Latin studies and art history with those of sinology Japanese studies and Korean studies It includes an introduction mapping out the field of failures in early modern encounters between East Asia and Europe as well as a

theoretically minded essay on the lessons of failure and the ethics of cross cultural understanding **Footbinding as Fashion** John Robert Shepherd, 2018-12-18 Previous studies of the practice of footbinding in imperial China have theorized that it expressed ethnic identity or that it served an economic function By analyzing the popularity of footbinding in different places and times Footbinding as Fashion investigates the claim that early Qing 1644 1911 attempts by Manchu rulers to ban footbinding made it a symbol of anti Manchu sentiment and Han identity and led to the spread of the practice throughout all levels of society Detailed case studies of Taiwan Hebei and Liaoning provinces exploit rich bodies of previously neglected ethnographic reports economic surveys and rare censuses of footbinding to challenge the significance of sedentary female labor and ethnic rivalries as factors leading to the hegemony of the footbinding fashion The study concludes that independently of identity politics and economic factors variations in local status hierarchies and elite culture coupled with status competition and fear of ridicule for not binding girls feet best explain how a culturally arbitrary fashion such as footbinding could attain hegemonic status The Cambridge Handbook of Literacy David R. Olson, Nancy Torrance, 2009-02-09 This handbook marks the transformation of the topic of literacy from the narrower concerns with learning to read and write to an interdisciplinary enquiry into the various roles of writing and reading in the full range of social and psychological functions in both modern and developing societies It does so by exploring the nature and development of writing systems the relations between speech and writing the history of the social uses of writing the evolution of conventions of reading the social and developmental dimensions of acquiring literate competencies and more generally the conceptual and cognitive dimensions of literacy as a set of social practices Contributors to the volume are leading scholars drawn from such disciplines as linguistics literature history anthropology psychology the neurosciences cultural psychology and education Lesser Dragons Michael Dillon, 2018-05-15 Lesser Dragons is a timely introduction to the fascinating complex and vital world of China's national minorities Drawing on firsthand fieldwork in several minority areas Michael Dillon introduces us to the major non Han peoples of China including the Mongols the Tibetans the Uyghur of Xinjiang and the Manchus and traces the evolution of their relationship with the Han Chinese majority With chapters devoted to each of the most important minority groups and an additional chapter exploring the parallel but very different world of inter ethnic relations in Taiwan Lesser Dragons will interest anyone eager to understand the reality behind regional conflicts increasingly covered by global media From the tense security situation in Xinjiang to China's attitude toward Tibet and the Dalai Lama to the resistance efforts of Mongolian herders losing traditional grasslands Dillon's book both examines clichés such as those found in the Chinese press which often portrays ethnic minorities as colorful but marginal people and defies expectations He shows us how these minority peoples religions cultures and above all languages mark these groups as distinct from the Chinese majority distinct yet endangered by the systemic forces of integration Impagination - Layout and Materiality of Writing and Publication Ku-ming (Kevin) Chang, Anthony Grafton, Glenn Warren Most, 2021-01-18 This

volume is the first comparative history that studies the practice of impagination across different ages and civilizations By impagination we mean the act of placing and arranging spatially textual and other information onto a material bearer that could be made of a variety of materials papyrus bamboo slips palm leaf parchment paper and the computer screen This volume investigates three levels of impagination what is the page or other unit of the material bearer what is written or printed on it and how is writing or print placed on it It also examines the interrelations of two or all three of these levels Collectively it examines the material and materiality of the page the variety of imprints cultural and historical conventions for impagination interlinguistic encounters the control of editors scribes publishers and readers over the page inheritance borrowing and innovation economics aesthetics and socialities of imprints and impagination and the relationship of impagination to philology This volume supplements studies on mise en page and layout an important subject of codicology first by including non codex writings second by taking a closer look at the page or other unit than at the codex or book and third by its aspiration to adopt a globally comparative approach This volume brings together for comparison vast geographical realms of learning including Europe China Tibet Korea Japan and the Near Eastern and European communities in which the Hebrew Bible was transmitted This comparison is significant for Europe China and India all developed great traditions of learning which came into intensive contact The contributions to this volume are firmly rooted in local cultures and together address global comparative themes that are significant for multiple disciplines such as intellectual and cultural history of knowledge both humanistic and scientific global history literary and media studies aesthetics and studies of material culture among other fields

The Dalai Lama and the Emperor of China Peter Schwieger,2015-03-31 A major new work in modern Tibetan history this book follows the evolution of Tibetan Buddhism's tr lku reincarnation tradition from the seventeenth to the nineteenth centuries along with the Emperor of China's efforts to control its development By illuminating the political aspects of the tr lku institution Schwieger shapes a broader history of the relationship between the Dalai Lama and the Emperor of China as well as a richer understanding of the Qing Dynasty as an Inner Asian empire the modern fate of the Mongols and current Sino Tibetan relations Unlike other pre twentieth century Tibetan histories this volume rejects hagiographic texts in favor of diplomatic legal and social sources held in the private monastic and bureaucratic archives of old Tibet This approach draws a unique portrait of Tibet's rule by reincarnation while shading in peripheral tensions in the Himalayas eastern Tibet and China Its perspective fully captures the extent to which the emperors of China controlled the institution of the Dalai Lamas making a groundbreaking contribution to the past and present history of East Asia

From Frontier Policy to Foreign Policy Matthew Mosca, 2013-02-20 Between the mid eighteenth and mid nineteenth centuries Qing rulers officials and scholars fused diverse fragmented perceptions of foreign territory into one integrated worldview In the same period a single foreign policy emerged as an alternative to the many localized frontier policies hitherto pursued on the coast in Xinjiang and in Tibet By unraveling Chinese Manchu and British sources to reveal the information networks used by the Qing empire to gather intelligence about its emerging rival British India this book explores China's altered understanding of its place in a global context Far from being hobbled by a Sinocentric worldview Qing China's officials and scholars paid close attention to foreign affairs To meet the growing British threat they adapted institutional practices and geopolitical assumptions to coordinate a response across their maritime and inland borderlands In time the new and more active response to Western imperialism built on this foundation reshaped not only China's diplomacy but also the internal relationship between Beijing and its frontiers

Languages, Scripts, and Chinese Texts in East Asia Peter Francis Kornicki, 2018 Chinese Writing and the Rise of the Vernacular in East Asia is a wide ranging study of vernacularization in East Asia not only China Japan Korea and Vietnam but also societies that no longer exist such as the Tangut and Khitan empires Peter Kornicki takes the reader from the early centuries of the common era when the Chinese script was the only form of writing and Chinese Buddhist Confucian and medical texts spread throughout East Asia through the centuries when vernacular scripts evolved right up to the end of the nineteenth century when nationalism created new roles for vernacular languages and vernacular scripts Through an examination of oral approaches to Chinese texts it shows how highly valued Chinese texts came to be read through the prism of the vernaculars and ultimately to be translated This long process has some parallels with vernacularization in Europe but a crucial difference is that literary Chinese was unlike Latin not a spoken language As a consequence people who spoke different East Asian vernaculars had no means of communicating in speech but they could communicate silently by means of written conversation in literary Chinese a further consequence is that within each society Chinese texts assumed vernacular garb in classes and lectures Chinese texts were read and declaimed in the vernaculars What happened in the nineteenth century and why are there still so many different scripts in East Asia How and why were Chinese texts dethroned and what

replaced them These are some of the questions addressed in Chinese Writing and the Rise of the Vernacular in East Asia
