The Theology of the Chinese Jews, 1000-1850 Jordan Paper, 2012-06-01 A thousand years ago the Chinese government invited merchants from one of the Chinese port synagogue communities to the capital Kaifeng The merchants settled there and the community prospered Over centuries with government support the Kaifeng Jews built and rebuilt their synagogue which became perhaps the world's largest Some studied for the rabbinate others prepared for civil service examinations leading to a disproportionate number of Jewish government officials While continuing orthodox Jewish practices they added rituals honouring their parents and the patriarchs in keeping with Chinese custom However by the mid eighteenth century cut off from Judaism elsewhere for two centuries their synagogue destroyed by a flood their community impoverished and dispersed by a civil war that devastated Kaifeng their Judaism became defunct The Theology of the Chinese Jews traces the history of Jews in China and explores how their theology's focus on love rather than on the fear of a non anthropomorphic God may speak to contemporary liberal Jews Equally relevant to contemporary Jews is that the Chinese Jews remained fully Jewish while harmonizing with the family centred religion of China In an illuminating postscript Rabbi Anson Laytner underscores the point that Jewish culture can thrive in an open society without hostility by absorbing the best of the dominant culture and making it one's own

Strange Names of God Sangkeun Kim, 2004

One of the most precarious and daunting tasks for sixteenth century European missionaries in the cross cultural mission frontiers was translating the name of God Deus into the local language When the Italian Jesuit Matteo Ricci 1552 1610 introduced the Chinese term Shangti as the semantic equivalent of Deus he made one of the most innovative cross cultural missionary translations Ricci s employment of Shangti was neither a simple rewording of a Chinese term nor the use of a loan word but was indeed a risk taking identification of the Christian God with the Confucian Most High Shangti Strange Names of God investigates the historical progress of the semantic configuration of Shangti as the divine name of the Christian God in China by focusing on Chinese intellectuals reaction to the strangely translated Chinese name of God
