Philip Guston Craig Burnett, 2014-02-28 Throughout his career Philip Guston s work metamorphosed from figural to abstract and back to figural In the 1950s Guston 1913 1980 produced a body of shimmering abstract paintings that made him along with Willem de Kooning Jackson Pollock and Franz Kline an influential abstract expressionist of the gestural tendency In the late 1960s with works like The Studio came his most radical shift Drawing from the imagery of his early murals and from elements in his later drawings ignoring the prevailing coolness of Minimalism and antiformal abstraction Guston invented for these late works a cast of cartoon like characters to articulate a vision that was at once comic crude and complex In The Studio Guston offers a darkly comic portrait of the artist as a hooded Ku Klux Klansman painting a self portrait In this concise and generously illustrated book Craig Burnett examines The Studio in detail He describes the historical and personal motivations for Guston s return to figuration and the mostly negative critical reaction to the work from Hilton Kramer and others He looks closely at the structure of The Studio and at the influence of Piero della Francesca Manet and Krazy Kat among others and he considers

the importance of the column of smoke in the painting as a compositional device and as a ghost of abstraction and metaphysics The Studio signals not only Guston's own artistic evolution but a broader shift from the medium centric and teleological claim of modernism to the discursive carnivalesque and mucky world of postmodernism Monarch of the Flute Nancy Toff, 2005-08-18 Georges Barré 1876-1944 holds a preeminent place in the history of American flute playing Best known for two of the landmark works that were written for him the Poem of Charles Tomlinson Griffes and Density 21.5 by Edgard Varèse he was the most prominent early exemplar of the Paris Conservatoire tradition in the United States and set a new standard for American woodwind performance Barré's story is a musical tale of two cities and this book uses his life as a window onto musical life in Belle Époque Paris and twentieth century New York Recurrent themes are the interactions of composers and performers the promotion of new music the management personnel and repertoire of symphony orchestras the economic and social status of the orchestral and solo musician including the increasing power of musicians unions the role of patronage particularly women patrons and the growth of chamber music as a professional performance medium A student of Paul Taffanel at the Paris Conservatoire by age eighteen Barré played in the premiere of Debussy's Prelude to the Afternoon of a Faun He went on to become solo flutist of the Concerts Colonne and to found the Société Moderne d'Instruments Vent a pioneering woodwind ensemble that premiered sixty-one works by forty composers in its first ten years Invited by Walter Damrosch to become principal flute of the New York Symphony in 1905 he founded the woodwind department at the Institute of Musical Art later Juilliard His many ensembles toured the United States building new audiences for chamber music and promoting French repertoire as well as new American music Toff narrates Barré's relationships with the finest musicians and artists of his day among them Isadora Duncan Yvette Guilbert André Caplet Paul Hindemith Albert Roussel Wallingford Riegger and Henry Brant The appendices of the book which list Barré's 170 premieres and the 50 works dedicated to him are a resource for a new generation of performers Based on extensive archival research and oral histories in both France and the United States this is the first biography of Barré **Across the Borders** Günter Dinohobl, 2017-03-02 Until now we have only had relatively narrow economic studies comparing investments in railways with investments in other fields of individual economies Across the Borders not only opens the door for fundamental new insights into a transnational view of railway history but also contributes to a breakthrough in the wider study of the subject providing the first extensive historical investigation of the worldwide system of railway financing This book provides a wide introduction to how financiers governments and entrepreneurs in Europe managed to face the challenges of constructing and maintaining an integrated railway network both in their own countries and their colonies This volume offers analysis from a selection of experts exploring the transnational investment policies of railway construction based on numerous historical case studies The chapters provide insight into the international opportunities that existed for railway financing from the perspective of economic social transport and railway history With contributions from authors from

After the Vote Was Won Katherine H. Adams, Michael L. Keene, 2014-01-10 Because scholars have traditionally examined the efforts of American suffragists only in relation to electoral politics the history books have largely missed the real story of what these women achieved far outside the realm of voting reform Though Stanton Anthony and Mott are the best known figures of the woman s suffrage movement all were dead more than a decade before women actually achieved the vote Women like Alice Paul Louisine Havemeyer and Mary Church Terrell carried on their work putting their campaign experiences to work long after the 19th Amendment was ratified This book tells the story of how these women made an indelible mark on American history in fields ranging from education to art science publishing and social activism **Federal Register** , 1998
