Manhattan Jeff Hirsch,2004-09-01 The decades between 1880 and the 1920s were glorious ones for Manhattan This sliver of land located between the rivers was evolving from a bustling seaport into a world financial center Manhattan rapidly became America s preeminent East Coast steamship port Steamers were becoming a frequent and luxurious mode of transportation They arrived in Manhattan carrying passengers from all walks of life the very rich and the very poor Wealthy travelers made their voyages on the palatial reaches of the upper decks and were the catalyst that spawned the gilded era of Manhattan s hotels Working class passengers on the other hand traveled deep below decks From the damp dark reaches of the steamers poured a flood of immigrant labor and talent that enriched the area s industries In the 1880s no building stood as tall as the spire of architect Richard Upjohn s Trinity Church Along the city streetscape trolleys were pulled by horses and steam powered elevated trains sliced north from the battery to upper Manhattan The 1890s began the defining decades of the skyscraper The technology originated in Chicago but soared to new heights in Manhattan By the turn of the century there were more skyscrapers on the island than anywhere else in the world *American Book Publishing Record* ,1999 When

the Rivers Ran Red Vivienne Sosnowski,2025-03-14 Today millions of people around the world enjoy California s legendary wines unaware that 90 years ago the families who made these wines and in many cases still do turned to struggle and subterfuge to save the industry we now cherish When Prohibition took effect in 1919 three months after one of the greatest California grape harvests of all time violence and chaos descended on Northern California Federal agents spilled thousands of gallons of wine in the rivers and creeks gun battles erupted on dark country roads and local law enforcement officers sympathetic to their winemaking neighbors found ways to run circles around the intruding authorities For the state s winemaking families many of them immigrants from Italy surviving Prohibition meant facing impossible decisions whether to give up the idyllic way of life their families had known for generations or break the law to enable their wine businesses and their livelihood to survive Including moments of both desperation and joy Sosnowski tells the inspiring story of how ordinary people fought to protect to a beautiful and timeless culture in the lovely hills and valleys of now celebrated wine country

High-Class Moving Pictures Charles Musser,Carol Nelson,2015-03-08 The entrepreneur of phonograph concerts and

motion picture programs Lyman H Howe was the leading traveling exhibitor of his time and the exemplar of an important but until now little examined aspect of American popular culture This work with its numerous and lively illustrations uses his career to explore the world of itinerant showmen who exhibited all motion pictures seen outside large cities during the 1890s and early 1900s They frequently built cultural alliances with genteel city dwellers or conservative churchgoers and in later years favored high class topics appealing to audiences uncomfortable with the plebeian nickelodeons Bridging the fields of American studies and film history the book reveals the remarkable sophistication with which exhibitors created their elaborate evening length programs to convey powerful ideological messages Whether depicting the Spanish American War the 1900 Paris Exposition or British colonialism in action Howe s cinema of reassurance had many parallels with the music of John Philip Sousa Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Insatiable Appetite* Richard P. seventeenth century the Internet forces a reconsideration As the public gains access to telerobotic instruments previously restricted to scientists and soldiers questions of mediation knowledge and trust take on new significance for everyday life Telerobotics is a mode of representation But representations can misrepresent If Orson Welles s War of the Worlds was the defining moment for radio what will be the defining moment for the Internet As artists have always been concerned with how representations provide us with knowledge the book also looks at telerobotics potential as an artistic medium The seventeen essays by leading figures in philosophy art history and engineering are organized into three sections Philosophy Art History and Critical Theory and Engineering Interface and System Design Contributors Albert Borgmann Tom Campanella John Canny Judith Donath Hubert Dreyfus Ken Goldberg Alvin Goldman Oliver Grau Marina Gr ini Blake Hannaford Michael Idinopulos Martin Jay Eduardo Kac Machiko Kusahara Jeff Malpas Lev Manovich Maurice Merleau Ponty Eric Paulos Catherine Wilson
