Manifesto Against Conscription And The Military System:

Manifesto Against Conscription and the Military System Gandhi Informations Zentrum, 2001 *Towards a New Dharma of Peace Building* Ananta Kumar Giri, Saji Varghese, 2024-03-08 This volume deals with a new Dharma of peacebuilding and conflict transformations drawing on the world's philosophical, religious, and spiritual traditions and many recent initiatives and experiments with peace. It deals with issues of sustainable peace, Dharma, and Ubuntu of peace from African traditions, neurological insights of peacebuilding traditions, conscientious objection, Satyagraha possibilities of Gandhian Ahimsa, and moral and ethical limits of conflict and conflict resolution. It also presents the works of peace thinkers and activists such as Spinoza, Abhinavagupta, Tolstoy, Gandhi, Ulrich Beck, and others. It offers new initiatives and experiments in peace in different parts of the world: Palestine, Israel, Colombia, the Middle East, India, and South Africa. This pioneering and handy book is of interest to students, scholars, teachers, and activists working in peace and conflict studies, development studies, cultural studies, and religious studies, as well as in different civil society organizations around the world. Bertrand Russell and Albert Einstein – Builders of Peace Claudio Giulio Anta, Bertrand Russell, and Albert Einstein had very different cultural backgrounds and personalities. At the same time, they were united in their tenacious battle for peace. It began with the Great War and culminated in their famous 1955 Manifesto. Through various kinds of pacifism, they sought to encapsulate the dilemmas and problems that derived from the changed political conditions of his time: the beginning of the Great War, the creation and failure of the League of Nations, the affirmation of totalitarian regimes, the outbreak of the Second World War, the origin of the atomic age, and the escalation of the Cold War, the establishment of the UN with its political and institutional weakness, and the need for a world government in the form of a world federation. Their reflections on the subject of peace led them into dialogue with some of the greatest figures of their time: R. Rolland, Th. Woodrow Wilson, V. I. Lenin, F. D. Roosevelt, J. F. Kennedy, N. Khrushchev, F. Castro, S. Freud, L. Szilard, and E. Reves. **Peace Philosophy in Action** Candice C. Carter, 2010-09-27 This book documents recent and historical events in the theoretically based practice of peace development. Its diverse collection of essays describes different aspects of applied philosophy in peace action, commonly involving the contributors' continual engagement in the field while offering support and optimal responses to conflict and violence. Alexander Stefan, 2005-11-10 The World Year of Physics 2005 honors the achievements in physics research of Albert Einstein, the worldwide known, sad-eyed genius. In 1905, Albert Einstein had completed his doctoral thesis and published 4 physics papers, including his Special Relativity paper. The world of physics and the world in general has been since changed forever. As the human race is stepping into the 3rd Millennium of the Common Era, the influence of Albert Einstein is ever stronger; the works of Einstein still play the major role in the further development of physics and science and technology. **EINSTEIN**
