Doeppers, 1984 *Colonial Legacies* Anne E. Booth, 2018-03-31 It is well known that Taiwan and South Korea both former Japanese colonies achieved rapid growth and industrialization after 1960 The performance of former European and American colonies Malaysia Singapore Burma Vietnam Laos Cambodia Indonesia and the Philippines has been less impressive Some scholars have attributed the difference to better infrastructure and greater access to education in Japan s colonies Anne Booth examines and critiques such arguments in this ambitious comparative study of economic development in East and Southeast Asia from the beginning of the twentieth century until the 1960s Booth takes an in depth look at the nature and consequences of colonial policies for a wide range of factors including the growth of export oriented agriculture and the development of manufacturing industry She evaluates the impact of colonial policies on the growth and diversification of the market economy and on the welfare of indigenous populations Indicators such as educational enrollments infant mortality rates and crude death rates are used to compare living standards across East and Southeast Asia in the 1930s Her analysis of the impact that Japan s Greater Asian Co Prosperity Sphere and later invasion and conquest had on the region and the living standards of its people leads to a discussion of the painful and protracted transition to independence following Japan s defeat Throughout Booth emphasizes the great variety of economic and social policies pursued by the various colonial governments and the diversity of outcomes Lucidly and accessibly written *Colonial Legacies* offers a balanced and elegantly nuanced exploration of a complex historical reality It will be a lasting contribution to scholarship on the modern economic history of East and Southeast Asia and of special interest to those concerned with the dynamics of development and the history of colonial regimes Philippine Politics and Society in the Twentieth Century Eva-Lotta Hedman, John Sidel, 2005-11-29 The only book length study to cover the Philippines after Marco s downfall this key title thematically explores issues affecting this fascinating country throughout the last century Appealing to both the academic and non academic reader topics covered include national level electoral politics economic growth the Philippine Chinese law and order opposition the Left local and ethnic politics *The Day the Dancers Stayed* Theodore S. Gonzalves, 2009-09-25 Pilipino Cultural Nights at American campuses have been a rite of passage for youth culture and a source of local community pride since the 1980s Through performances and parodies of them these celebrations of national identity through music dance and theatrical narratives reemphasize what it means to be Filipino American In *The Day the Dancers Stayed* scholar and performer Theodore Gonzalves uses interviews and participant observer techniques to consider the relationship between the invention of performance repertoire and the development of diasporic identification Gonzalves traces a genealogy of performance repertoire from the 1930s to the present Culture nights serve several functions as

exercises in nostalgia celebrations of rigid community entertainment and occasionally forums for political intervention Taking up more recent parodies of Pilipino Cultural Nights Gonzalves discusses how the rebellious spirit that enlivened the original seditious performances has been stifled Weathering the Storm P. Boomgaard,2021-10-01 The principal cause of the 1930s depression in Southeast Asia lay outside the region through a sharp contraction in demand for the region's major commodity exports But it had important internal causes too an oversupply of primary commodities and an increasing scarcity of new agricultural land leading to higher rents and lower wages rising indebtedness and increasing landlessness This work thoroughly analyses the pre war depression It also looks at the changes in the basic structures of the economies of Southeast Asia that were of long term importance such as the role of the state in the economy The authors also draw similarities and contrasts between the 1930s depression and the 1990s Asian crisis Contributors are Peter Boomgaard Anne Booth Pierre Brocheux Ian Brown William G Clarence Smith Daniel F Doeppers Paul H Kratoska J Thomas Lindblad Sompop Manarungsan S Nawiyanto Irene Norlund Jeroen Touwen and Willem Wolters Co published with ISEAS Singapore **Routledge**

The Economy of the Philippines Peter Krinks, 2003-09-02 In the late 1950s the Filipino economy could reasonably have been described as more advanced than those of its South Asian neighbours Ever since then however it has consistently lagged behind and only really started to grow strongly in the mid 1990s and even then it failed to achieve the growth rates of the rest of Southeast Asia ten years earlier This book critically analyses the Filipino economy and

The Patchwork City Marco Z. Garrido, 2019-08-05 In contemporary Manila slums and squatter settlements are peppered throughout the city often pushing right up against the walled enclaves of the privileged creating the complex geopolitical pattern of Marco Z Garrido s patchwork city Garrido documents the fragmentation of Manila into a m lrange of spaces defined by class particularly slums and upper and middle class enclaves He then looks beyond urban fragmentation to delineate its effects on class relations and politics arguing that the proliferation of these slums and enclaves and their subsequent proximity have intensified class relations For enclave residents the proximity of slums is a source of insecurity compelling them to impose spatial boundaries on slum residents For slum residents the regular imposition of these boundaries creates a pervasive sense of discrimination Class boundaries then sharpen along the housing divide and the urban poor and middle class emerge not as labor and capital but as squatters and villagers Manila s name for subdivision residents Garrido further examines the politicization of this divide with the case of the populist president Joseph Estrada finding the two sides drawn into contention over not just the right to the city but the nature of democracy itself The Patchwork City illuminates how segregation class relations and democracy are all intensely connected It makes clear ultimately that class as a social structure is as indispensable to the study of Manila and of many other cities of the Global South as race is to the study of American cities

Central Banking as State Building Yusuke Takagi, 2016-03-21 From its creation in 1949 until the 1960s the Central Bank of the Philippines dominated industrial policy by means of exchange controls becoming a symbol of nationalism for a newly independent state The pre war Philippine National Bank was closely linked to the colonial administration and plagued by corruption scandals As the country moved toward independence ambitious young politicians colonial bureaucrats and private sector professionals concluded that economic decolonization required a new bank at the heart of the country s finances in order to break away from the individuals and institutions that dominated the colonial economy Positioning this bank within broader political structures Yusuke Takagi concludes that the Filipino policy makers behind the Central Bank worked not for vested interests associated with colonial or neo colonial rule but for structural reform based on particular policy ideas

Yearwood,2018-07-18 This book shows how a stormy parliamentary debate over the sale of German properties in Nigeria on 8 November 1916 began the process which brought down Asquith and made Lloyd George prime minister The colonial secretary Bonar Law who was also leader of the Conservative Party wanted neutral firms to bid Usually presented as a policy imposed on him by doctrinaire Liberal free traders it was in fact that of the colonial government which hoped that encouraging foreign competition would prevent the Nigerian export economy becoming controlled by a ring of mainly Liverpool firms Seeing itself as the defender of Nigerian interests the Colonial Office endorsed this The large British companies got up an agitation which was taken over by Sir Edward Carson the one significant opposition politician as part of his attack on supposed German influence in high places Law counter attacked by arguing that a supposedly patriotic cause masked the greed of an emergent cartel He succeeded because smaller British and African firms trying to break into the now profitable produce export trade had already painted that picture By defeating Carson in the debate Law became again an effective party leader who hoped to re invigorate the coalition but instead found himself working with Lloyd George to

sideline Asquith Based on underused sources and overturning established interpretations the book situates the debate within the context of the development of the Nigerian economy the conflicts between the major firms the role of oils and fats in wartime and the emergence of Nigerian nationalism *Clash of Spirits* Filomeno V.
