*Living History* Godfrey N. Brown, 2022-02-16 Originally published in 1967 this book represents the late Professor Brown's twin skills as historian and as educationalist at their best It is one of a series of books which he edited and which was offered to Africa teachers in training The series was designed to help those who were called upon to teach the many subjects of the primary school curriculum or two or more subjects with the junior forms of secondary schools It is dedicated to the proposition that giving a good basic education to a country's children is vital to its development programme Godfrey Brown's book starts with a discussion of the place and purpose of history in education why do we teach it to children He then describes methods of teaching language skills in history observation and at some length social development through history He ends with The History of the Future and two practical appendices listing where the African teacher of history could obtain useful teaching material      After Hitler Michael Jones, 2015-01-15 On 30 April 1945 Adolf Hitler committed suicide The following day his propaganda minister Joseph Goebbels also killed himself and the crumbling Third Reich passed to Admiral

Karl D nitz The Nazis position seemed hopeless Yet remarkably the war in the rest of Europe went on for another ten days After Hitler looks at these days as a narrative day by day countdown but also as a broader global history of a European war that had seen some of the most savage battles in history Relations between the Big Three the United States Great Britain and the Soviet Union suddenly plunged to near breaking point This book reveals that tumultuous story After Hitler also looks at the wider canvas of the war and the terrible humanitarian catastrophe uncovered in Europe It describes those who felt the joy of freedom but also those who faced a highly uncertain future As Red Army soldiers joined forces with their British and American allies Stalin s East finally came face to face with Churchill s and Truman s West After Hitler tells of their growing mistrust but also of moments of remarkable goodwill and co operation the brief but poignant hope that these great nations could together fashion a new and safer future This is a fascinating exploration of the brief but crucial period that shaped the emerging post war world      **Effects of Religion, Government & Science on Mankind's Relationships** J L
