Landscape Traveled by Coyote and Crane Rodney Frey, Ernie Stensgar, 2012-03-15 Anthropologist Rodney Frey culminates a decade of work with the Schitsu umsh the Coeur d Alene Indians of Idaho in this portrait of the unique bonds between a people and the landscape of their traditional homeland The result of an intensive collaboration between investigator and Native people the book includes many traditional stories that invite the reader's participation in the world of the Schitsu umsh The Schitsu umsh landscape of lake and mountains is described with a richness that emphasizes its essential material and spiritual qualities The historical trauma of the Schitsu umsh stemming from their nineteenth century contacts with Euro American culture is given dramatic weight Nonetheless examples of adaptation and continuity in traditional cultural expression rather than destruction and discontinuity are the most conspicuous features of this vivid ethnographic portrait Drawing on pivotal oral traditions Frey mirrors the Schitsu umsh world view in his organization and presentation of ethnographic material He uses first person accounts by his Native consultants to convey crucial cultural perspectives and practices Because of its unusual methodology Landscape Traveled by Coyote and Crane is likely to become a model for future work with Native American peoples within the Plateau region and beyond
