**Clarks of Cooperstown** Nicholas Fox Weber,2009-03-12 Nicholas Fox Weber author of the acclaimed Patron Saints Exhilarating avant garde entertainment Sam Hunter The New York Times Book Review and Balthus The authoritative account of his life and work Michael Ravitch Newsday gives us now the idiosyncratic lives of Sterling and Stephen Clark two of America s greatest art collectors heirs to the Singer sewing machine fortune and for decades enemies of each other He tells the story as well of the two generations that preceded theirs giving us an intimate portrait of one of the least known of America s richest families He begins with Edward Clark the brothers grandfather who amassed the Clark fortune in the late nineteenth century a man with nerves of steel a Sunday school teacher who became the business partner of the wild inventor and genius Isaac Merritt Singer And by the turn of the twentieth century was the major stockholder of the Singer Manufacturing Company We follow Edward s rise as a real estate wizard making headlines in 1880 when he commissioned Manhattan s first luxury apartment building The house was called Clark s Folly today it s known as the Dakota We see Clark s son Alfred enigmatic and famously reclusive at thirty eight he inherited 50 million and became one of the country s richest

men An image of propriety good husband father of four in Europe he led a secret homosexual life Alfred was a man with a passion for art and charity which he passed on to his four sons in particular Sterling and Stephen Clark Sterling the second oldest buccaneering and controversial loved impressionism created his own museum in Williamstown Massachusetts and shocked his family by marrying an actress from the Com die Fran aise Together the Sterling Clarks collected thousands of paintings and bred racehorses In a highly public case Sterling sued his three brothers over issues of inheritance and then never spoke to them again He was one of the central figures linked to a bizarre and little known attempted coup against Franklin Delano Roosevelt s presidency We are told what really happened and why and who in American politics was implicated but never prosecuted Sterling s brother Stephen self effacing and responsible became chairman and president of the Museum of Modern Art and gave that institution its first painting Edward Hopper s House by the Railroad Thirteen years later in an act that provoked intense controversy Stephen dismissed the Museum s visionary founding director Alfred Barr who for more than a decade had single handedly established the collection and exhibition programs that determined how the art of the twentieth century was regarded Stephen gave or bequeathed to museums many of the paintings that today are still their greatest attractions With authority insight and a flair for evoking time and place Weber examines the depths of the brothers passions the vehemence of their lifelong feud the great art they acquired and the profound and lasting impact they had on artistic vision in America

PREFACE THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is depend ent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one

living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing     *The Architectural Review* ,1919     **France** Roger Williams,Robin Gauldie,2010 Spilling over with all sorts of useful information for the traveler Eyewitness Travel Guide France paints a complete picture of the country Readers will appreciate the hundreds of color photos of everything from ski towns to beaches to wine vineyards     **Historic Buildings of the French Quarter** Lloyd Vogt,2002 Over 100 illustrations describe the building styles of each historical era and highlight some 60 buildings of particular importance
