other activity today More than just a game sport has profound political and social consequences promoting a super aggressive ideal of manhood and political culture

Male Envy Mervyn Nicholson, 1999-01-01 Taking as his central argument that relations between males in western society are deeply colored if not actually determined by envy Mervyn Nicholson ranges across disciplines and eras in a fascinating utterly unique analysis of this taboo subject This book presents a series of motifs that are associated with male envy locating each in a particular historical context and illustrating it with examples drawn from literature film and popular culture Unlike earlier treatments of envy by psychoanalysts or feminist theorists this book moves beyond mere illustration of the problem to actually construct a theory about how the code of Male Envy shapes social consciousness in

modern culture A truly pathbreaking work *Male Envy* merits a close reading by gender theorists literary critics and social psychologists

Law's Relations Jennifer Nedelsky, 2011-10-11 Jennifer Nedelsky claims that we must rethink our notion of autonomy rejecting the usual vocabulary of control boundaries and individual rights If we understand that we are fundamentally in relation to others she argues we will recognize that we become autonomous with others

Prison Masculinities /edited by Don Sabo, Terry A. Kupers, and Willie London Donald F. Sabo, Terry Allen Kupers, Willie James London, 2001 This book explores the frightening ways our prisons mirror the worst aspects of society wide gender relations It is part of the growing research on men and masculinities The collection is unusual in that it combines contributions from activists academics and prisoners The opening section which features an essay by Angela Davis focuses on the historical roots of the prison system cultural practices surrounding gender and punishment and the current expansion of corrections into the prison industrial complex The next section examines the dominant or subservient roles that men play in prison and the connections between this hierarchy and male violence Another section looks at the spectrum of intimate relationships behind bars from rape to friendship and another at physical and mental health The last section is about efforts to reform prisons and prison masculinities including support groups for men It features an essay about prospects for post release success in the community written by a man who after doing time in Soledad and San Quentin went on to get a doctorate in counseling The contributions from prisoners include an essay on enforced celibacy by Mumia Abu Jamal as well as fiction and poetry on prison health policy violence and intimacy The creative contributions were selected from the more than 200 submissions received from prisoners

Taking The Field Michael A. Messner, 2002-07-17 In the past when sport simply excluded girls the equation of males with active athletic power and of females with weakness and passivity seemed to come easily almost naturally Now however with girls and women's dramatic movement into sport the process of exclusion has become a bit subtler a bit more complicated and yet as Michael Messner shows us in this provocative book no less effective In *Taking the Field* Messner argues that despite profound changes the world of sport largely retains and continues its longtime conservative role in gender relations To explore the current paradoxes of gender in sport Messner identifies and investigates three levels at

which the center of sport is constructed the day to day practices of sport participants the structured rules and hierarchies of sport institutions and the dominant symbols and belief systems transmitted by the major sports media Using these insights he analyzes a moment of gender construction in the lives of four and five year old children at a soccer opening ceremony the way men s violence is expressed through sport the interplay of financial interests and dominant men s investment in maintaining the status quo in the face of recent challenges and the cultural imagery at the core of sport particularly televised sports Through these examinations Messner lays bare the practices and ideas that buttress as well as those that seek to disrupt the masculine center of sport Taking the Field exposes the subtle and not so subtle ways in which men and women collectively construct gender through their interactions interactions contextualized in the institutions and symbols of sport
