Schmaus,1972-01-01 No Marketing Blurp      The Form of a Servant Donald G. Dawe,2011-06-17 This is both a historical and a systematic exploration of the basic Christian belief in God's self emptying in creation and redemption In Christ God has emptied himself taking the form of a servant Not only does the author review the thinking on the kenotic motif from earliest Christian times even antedating the Pauline Epistles to the present but he views it as a source of fresh insight for Christology today Kierkegaard introduced the kenotic motif to contemporary theology which views it as the ultimate paradox In Barth's doctrine of the freedom of God kenosis means God is free to become a man Thus says Dr Dawe kenosis is to be interpreted in dynamic personalistic modes of thought and is the key to a fresh understanding of creation history and redemption Seminary students will welcome this book for its wealth of biblical and historical theology But because of its nontechnical vocabulary adult study groups will find much material for interesting and rewarding discussion      **Catalog of Copyright Entries**

Jung, 2014-12-18 Modern Man in Search of a Soul is the perfect introduction to the theories and concepts of one of the most original and influential religious thinkers of the twentieth century Lively and insightful it covers all of his most significant themes including man's need for a God and the mechanics of dream analysis One of his most famous books it perfectly captures the feelings of confusion that many sense today Generation X might be a recent concept but Jung spotted its forerunner over half a century ago For anyone seeking meaning in today's world Modern Man in Search of a Soul is a must      **Religion, Feminism, and Idoloclasm** Melissa Raphael, 2019-01-22 Religion Feminism and Idoloclasm identifies religious and secular feminism's common critical moment as that of idol breaking It reads the women's liberation movement as founded upon a philosophically and emotionally risky attempt to liberate women's consciousness from a three fold cognitive captivity to the self idolizing god called Man the God who is a projection of his power and the idol of the feminine called Woman that the god called God created for Man Examining a period of feminist theory theology and culture from about 1965 to 2010 this book shows that secular as well as Christian Jewish and post Christian feminists drew on ancient and modern tropes of redemption from slavery to idols or false ideas as a means of overcoming the alienation of women's being from their own becoming With an understanding of feminist theology as a pivotal contribution to the feminist criticism of culture this original book also examines idoloclasm in feminist visual art literature direct action and theory not least that of the sexual politics of romantic love the diet and beauty industry sex robots and other phenomena whose idolization of women reduces them to figures of the feminine same experienced as a de-realization or death of the self This book demonstrates that secular and religious feminist critical engagements with the modern trauma of dehumanization were far more closely related than is often supposed As such it will be vital reading for scholars in theology religious studies gender studies visual studies and philosophy

**Revival: Studies of Savages and Sex (1929)** Alfred Ernest Crawley, 2018-05-08 The success of my revised edition of Mr Crawley's The Mystic Rose has encouraged me to bring together in the present volume some of his papers previously unpublished in book form on subjects akin to those of his great work Mr Crawley's treatment of these problems of sexual anthropology especially on the psychological side was in the years in which he was most actively at work too uncompromisingly original to meet with general acceptance even in academic circles But now his standpoint which can

perhaps be best described as being that of a profound psychological analysis on the basis of biological common sense is beginning to be appreciated And the following papers will be found I think to contain all those qualities which so sharply differentiate Mr Crawley s work from that of most other students in the same fields      **Imitation and the Image of Man** James S. Hans,1987-01-01 In the Imitation and the Image of Man James S Hans presents his conception of the mimetic His primary goal to this study is to broaden several kinds of discourse first to redefine our conception of the literary second to expand our ideas of the kinds of things that can be treated together third to enrich our understanding of the possibilities of the form of the essay and fourth to articulate the need for these changes in terms of a non linear theory of imitation

**Environment Evolution and Values** D.P. Chattopadhyaya,2007 This book is mainly concerned with environment evolution and values terms which figure in its very title The basic underlying concepts of evolution are natural environment highlighted by Lamarck 1744 1829 Heredity and natural selection emphasised by Darwin 1809 1882 and genetic mutation first developed by Mendel 1822 1884 Though these three great life scientists brought to light three main components of biological evolution these were known and formulated by others for a long time Nature is ordinarily believed to be a world of facts governed by law of causality and values are said to be rooted in human freedom The author of this book has paid special attention to the so called value fact dualism with special reference to changing theories of evolution and an attempt has been made to show that the supposed dualism is untenable This book will be of interest to philosophers life scientists and social scientists It will be of interest also to the general readers      *Nietzsche's View of Socrates* Werner J. Dannhauser,2019-06-07 Clarifying a crucial aspect of Nietzsche s work his constant preoccupation with Socrates this intensive study also provides a general introduction to the philosophy of an important and difficult thinker Through close analyses of two of his major books The Birth of Tragedy and Twilight of the Idols as well as his other writings Professor Dannhauser rescues Nietzsche s thought from the vague generalities that it has too often provoked His book will be especially valued as a judicious presentation of the quarrel between modern and ancient philosophy While he makes clear his admiration for Nietzsche he expresses his doubts that Nietzsche won his debate with Socrates      *Man and His World: Society tomorrow* Baker

Brownell,1929      **CliffsNotes on Joyce's Portrait of the Artist as a Young Man** Valerie P Zimbaro,2007-08-20 The original CliffsNotes study guides offer expert commentary on major themes plots characters literary devices and historical background The latest generation of titles in this series also feature glossaries and visual elements that complement the classic familiar format Portrait of the Artist as a Young Man tells the semi autobiographical account of James Joyce s first 20 years but it is also a profound investigation into the perspective and formation of an artist Originally intended to present the protagonist Stephen Daedalus as a renegade Catholic artist hero the story also succeeds as a testament of what it means to be alive and filled with curiosity desire and sensitivity in short to be an artist CliffsNotes on Portrait of the Artist as a Young Man helps you understand the overall structure of the novel and the actions and motivations of the characters by providing

you with chapter by chapter summaries and commentaries Other features that help you study include A chronology of the author s life offers insight into his writing style Descriptive character analyses Glossaries to define new and unfamiliar terms Critical essays on Joyce s use of imagery and autobiography A review section that tests your knowledge Classic literature or modern day treasure you ll understand it all with expert information and insight from CliffsNotes study guides [Pictures, Images, and Conceptual Change](#) Joseph C. Pitt,2012-12-06 In this essay I am concerned with the problem of conceptual change There are needless to say many ways to approach the issue But as I see it the problem reduces to showing how present and future systems of thought are the rational extensions of prior ones This goal may not be attainable Kuhn for example suggests that change is mainly a function of socio economic pressures taken broadly But there are some who believe that a case can be made for the rationality of change especially in science Wilfrid Sellars is one of those While Sellars has developed a full account of the issues involved in solving the problem of conceptual change he is also a very difficult philosopher to discuss The difficulty stems from the fact that he is a philosopher in the very best sense of the word First he performs the tasks of analyzing alternative views with both finesse and insight dialectically laying bare the essentials of problems and the inadequacies of previous proposals Secondly he is a systematic philosopher That is he is concerned to elaborate a system of philosophical thought in the grand tradition stretching from Plato to White head Now with all of this to his credit it would appear that there is no difficulty at all one should simply treat him like all the others if he indeed follows in the footsteps of past builders of philosophic systems
