## **Mans Wolf To Man:**

The Wolf Man's Burden Lawrence Johnson, 2001 The Wolf Man was Sigmund Freud's most famous patient a man whose enigmatic childhood dream of being gazed at by wolves outside his bedroom window bedeviled the founding practitioners of psychoanalysis More than simply a rich source of imagery and meaning though the Wolf Man case might be interpreted as the primal scene of psychoanalysis itself Lawrence Johnson regards the creation of the psychoanalytic case study as the writing of two lives those of the analys and and the analyst so Freud's own biography and subjective viewpoint could hardly fail to bear a direct influence on the institution of psychoanalysis When Freud met the patient known as the Wolf Man Johnson maintains psychoanalysis was at an impasse because of Freud's inability to work through repressed material from his own childhood Freud overcame this impasse through a countertransference that cast his patient in the role of a rival for the control of psychoanalysis his means for vanquishing him set the terms for Freud's legacy to psychoanalysis Johnson offers a rigorous methodological framework for discussing the relationship between psychoanalytic writing and the lives of those who engage in it He fruitfully extends the work of Nicholas Abraham Maria Torok and Jacques Derrida into the realm of Freud's own life The result is both sophisticated psychobiography and psychoanalytic theory grounded firmly in historical lives

The Wolf Man's Magic Word Nicolas Abraham, Maria Torok, 2005-10-01 An innovative literary analysis of Freud's Wolf Man

Cryptomimesis Jodey Castricano, 2001-11-07 She develops the theory of cryptomimesis a term devised to accommodate the convergence of philosophy psychoanalysis and certain Gothic stylistic formal and thematic patterns and motifs in Derrida's work that give rise to questions regarding writing reading and interpretation Using Edgar Allan Poe's Madeline and Roderick Usher Bram Stoker's Dracula and Stephen King's Louis Creed she illuminates Derrida's concerns with inheritance revenance and haunting and reflects on deconstruction as ghost writing Castricano demonstrates that Derrida's Specters of Marx owes much to the Gothic insistence on the power of haunting and explores how deconstruction can be thought of as the ghost or deferred promise of Marxism She traces the movement of the phantom throughout Derrida's other texts arguing that such writing provides us with an uneasy model of subjectivity because it suggests that to be is to be haunted Castricano claims that cryptomimesis is the model method and theory behind Derrida's insistence that to learn to live we must learn how to talk with ghosts

**White Man's Wicked Water**  
William E. Unrau, 1996. Unrau draws upon an impressive array of Indian petitions, official reports, court records, and treaties to show how the West was really won. This detailed chronicle offers abundant evidence that alcohol both encouraged white conquest and destroyed native Americans. W. J. Rorabaugh, author of *The Alcoholic Republic*. An excellent analysis. Unrau explores and documents the problems associated with one of the darker sides of acculturation or accommodation.

**The Annual of Psychoanalysis, V. 21**  
Jerome A. Winer, 2013-05-13. Volume 21 of *The Annual of Psychoanalysis* is especially welcome for bringing to English language readers timely contributions from abroad in an opening section on Psychoanalysis in Europe. The section begins with a translation of Helmut Thomae's substantial critique of the current state of psychoanalytic education. Thomae's proposal for comprehensive reform revolves around a redefinition of the status of the training analysis in analytic training. Diane L. Heureux Le Beuf's clinical diary of an analysis focusing on the narcissistic elements of oedipal conflict probes the degree to which the analytic method can be applied to nonstructured analysands. And Nella Guidi shows the clinical value of supplementing Freud's notion of unobjectionable positive transference with the complementary notion of unobjectionable negative transference. Section II on Psychoanalysis and Hysteria offers original contributions to Freud scholarship in the form of Jules Glenn's reconsideration of Dora's Dynamics, Diagnosis, and Treatment; William McGrath's analysis of the way Freud's hostility to religious superstition gained expression in his early work on hysteria; and Marian Tolpin's self-psychological reprise on the case of Anne O. The section concludes with Elisabeth Young Bruehl and Sarah Cummin's provocative *What Happened to Anorexia Hysterique*, which questions the contemporary separation of anorexia from hysteria and explores the sociohistorical reasons the separation came about. Section III, Clinical and Theoretical Studies, begins with Nancy Kobrin's discussion of Freud's ideas about autonomy, including the terms Freud used and the way Strachey translated them into English. Her goal is to deepen our understanding of how Freud spoke and thought about an individual's sense of self. Frank Summers shows how object relations principles, which are shared by various object relations theories, can inform the conduct of analysis at all levels of pathology, including neurosis. And Henry Smith examines the meaning and value of the analytic surface, a metaphor that highlights the relationship between the analyst's attention and the patient's attention. A final section on Applied Psychoanalysis offers contemporary examples of applied analytic inquiry in anthropology, art, and literature. Roy Grinker III and Roy Grinker Jr. in a methodological contribution to psychoanalytic anthropology examine what is revealed when a native people here, the Lese of northeastern Zaire in Africa, are asked to retell a story here, the story of Cain and Abel introduced by

them by their Western observers Danielle Knafo explores the art and life of the Mexican surrealist Frida Kahlo through the concepts of the mirror the mask and the masquerade And David Werman closes the volume with a comparative study of Edgar Allan Poe's and James Ensor's obsession with revenge and the role it played in Poe's writing and Ensor's etchings respectively Bringing readers the influential reform proposals of Thomae a rich sampling of recent Freud scholarship applied contributions traversing three disciplines and original clinical contributions reflecting American and European sensibilities Volume 21 of The Annual is true to the spirit of this distinguished series It testifies to the scope of analytic inquiry and it exemplifies the yield of such inquiry in the hands of gifted scholars and clinicians
