Manual De Derecho Procesal 2 Tomos:

Introducción al estudio de las ciencias jurídicas y sociales Aníbal Bascuñán Valdés, 1960 **Tratado de derecho civil comparado** René David, 2023-12-05 La obra de David sigue siendo un punto de referencia seguro para todo estudiante que se acerque por primera vez a la comparación jurídica. En efecto se trata de un texto diferente de todos los otros manuales jurídicos que asombra por la frescura de la exposición la claridad de las ideas así como la prevalencia atribuida a los problemas reestructurativos de carácter general más que de la simple exposición de datos primarios. En efecto se trata de una obra indudablemente fascinante particularmente fluida pero nunca aburrida. En otras palabras el ideal para una primera aproximación a la comparación jurídica. Por otro lado por mucho tiempo el manual de David constituye un unicum en el panorama no sólo europeo sino también mundial. Paolo Gallo Profesor Ordinario Universidad de Turín Italia **Tratado integral de daños y perjuicios. 2 tomos** Julián Emil Jalil, 2024-10-17 Los daños y perjuicios pueden entenderse como detrimentos materiales o morales causados en contravención con una norma jurídica y lesionando un interés por los cuales debe existir un resarcimiento. Todos estos matices serán analizados en las páginas venideras donde comenzaremos por desarrollar los apogemas generales en materia de daños y perjuicios para luego adentrarnos en aspectos particulares de los diferentes supuestos que la doctrina y principalmente la jurisprudencia han admitido como resarcibles dentro del derecho de daños. *El proceso penal. Tomo II: estructura y garantías procesales* Eduardo Montealegre, Jaime Bernal Cuéllar, 2013-01-01 Como se se al en la presentación del primer tomo este texto es el resultado de la investigación sobre los fundamentos constitucionales del derecho procesal penal. Esta obra ha dado especial importancia al derecho comparado al análisis jurisprudencial tanto de decisiones foráneas y de tribunales internacionales como de sentencias internas especialmente de la Sala Penal de la Corte Suprema de Justicia y de la Corte Constitucional y a la doctrina especializada nacional y extranjera. Igualmente se examinan los aspectos centrales y estructurales del juicio oral para lo cual se hace especial énfasis en la acusación y el juzgamiento. Asimismo estudiaremos lo relacionado con la terminación anticipada del proceso penal el allanamiento a la imputación las negociaciones y los preacuerdos. Finalmente ahondaremos en los mecanismos de control y protección de los derechos fundamentales dentro del proceso penal. Por esta razón necesariamente se estudiará el contenido conceptual del derecho y la garantía fundamental al debido proceso lo atinente a las nulidades y al sistema de control constitucional en el proceso penal. Rendimos un sincero homenaje al Prof. Dr. h. c. multo Fernando Hinestrosa quien durante su rectoría nos dio su apoyo incondicional en el proceso de elaboración de esta obra. Al expresamos nuestro sentimiento de gratitud. Jaime Bernal Cuéllar Eduardo Montealegre Lynett **Revista de la Universidad** Universidad Havana, 1930
