Medieval Castle Hb:

The Fourteenth and Fifteenth Centuries Kenneth Meyer Setton, Harry W. Hazard, 1975 The six volumes of A History of the Crusades will stand as the definitive history of the Crusades spanning five centuries encompassing Jewish Moslem and Christian perspectives and containing a wealth of information and analysis of the history politics economics and culture of the medieval world *Maritime Celts, Frisians and Saxons* Sean McGrail, 1990 **Wigmore Castle, North Herefordshire** Stephanie Ratkai, 2017-12-02 Excavations at Wigmore Castle were carried out in 1996 and 1998 as a precursor to repair and consolidation of the castle by English Heritage The castle had remained the honorial caput of the Mortimer family from the late 11th century through to 1425 an unusually long tenure amongst Marcher lordships The Mortimer family became increasingly important players in the history of England Thereafter the Mortimer inheritance passed to the Dukes of York and from there to the Crown Evidence of the earliest castle was found during the excavations including part of a substantial 12th century timber building part of which had been used as a kitchen Here remains of a sequence of hearths cooking pots and food remains were found The construction of defences in stone probably began in the 12th century The effect of conflict on the castle was indicated by the presence of ballista balls arrowheads a possible crannequin and fragments of plate armour A possible period of neglect occurred in the later 14th century but by the 15th century the castle was the scene of renewed activity including the rebuilding of the curtain wall Dietary evidence and some of the artefacts indicate that there was high status occupation in which hunting played an important role that continued throughout the 15th century By the 16th century the castle fabric was beginning to fall into disrepair and evidence of repairs and modifications were noted Nevertheless high status occupation continued and the castle remained to play an important role as a secondary seat of the Council of the Marches However by the early 17th century decline at the castle appears to have been terminal The castle was now owned by the Harley family and it is they who are credited with the pre emptive slighting of the castle during the Civil War The slighting is not evident in the excavated areas and the area in and around the East Tower appears to have been derelict well before the mid 17th century Pottery clay pipe and other artefacts which can definitely be ascribed to the Civil War are few An oxshoe found in the latest deposits may well be associated with the removal of fallen stone for building elsewhere Thereafter the castle appears to have been little visited and almost total ruination had set in by the early 18th century In 1995 the castle was taken into English Heritage Guardianship and has been consolidated and restored as a romantic ruin Castles, Town Defences, and Artillery Fortifications in Britain John R. Kenyon, 1983 **Children's Book Review Index** Dana Ferguson, 2004-09-03 The Childrens Book Review Index contains review citations to give your students and researchers access to reviewers comments and opinions on thousands of books periodicals books on tape and electronic media intended and or recommended for children through age 10 The volume makes it easy to find a review by authors name book title or illustrator and fully indexes more than 600 periodicals **Medieval Armies and Weapons in Western Europe** Jean-Denis
