**Medieval Islamic Pragmatics** Muhammad M. Yunis Ali, 2013-10-08 This book deals with two different pragmatic approaches to textual communication i the mainstream approach followed by the Ash'ari s Hanafi s and Mu'tazili s ii the salafite approach followed mainly by the Hanbali s defended and elaborated by Ibn Taymiyyah One of the primary aims of the book is to explore and formulate several Muslim legal theorists pragmatic theories communicative principles and linguistic views construct them in the form of models and set them within a general uniform framework Another aim is to reveal a corpus of information and data which though highly relevant to modern pragmatics is still unknown This study which can be seen as an extensive introduction to medieval Islamic pragmatics is the first attempt to examine the approaches followed by the Salafi s or the mainstream from a pragmatic viewpoint There has been no attempt to explain the principles and the strategies utilised by the medieval Sunni Muslim legal theorists in their account of how communication works and how successful interpretation is achieved Of course a lot of work has been done on different Islamic sects and their different positions over the interpretation of the Quran and Sunnah but these studies fall short of delving into the underlying communicative principles that motivate their differences over interpretation The author s formulation of the Muslim legal theorists views is enhanced by setting up a reliable theoretical foundation and by delving into their underlying philosophical principles This involves relating the legal theorists insights into interpretation and communication to their relevant ontological epistemological and theological outlooks and comparing these insights with their modern pragmatic counterparts

*Kitāb Sibawayhi: Syntax and Pragmatics* Amal Marogy, 2017-07-03 This book presents a comprehensive portrait of the Kitāb Sibawayhi. It offers new insights into its historical and linguistic arguments and underlines their strong correlation. The decisive historical argument highlights al-Ras' role not only as the centre of pre-Islamic Arabic culture but also as the matrix within which early Arab linguistics grew and developed. The Kitāb Sibawayhi's value as a communicative grammar forms the crux of the linguistic argument. The complementarity of syntax and pragmatics is established as a condition sine qua non for Sibawayhi's analysis of language. The benefits of a complementary approach are reflected in the analysis of nominal sentences and related notions of ibtidā and definiteness. The pragmatic principle of identifiability is uncovered as the ultimate determiner of word order.

**Philosophy and Language in the Islamic World** Nadja Germann, Mostafa Najafi, 2020-11-23 What is language? How did it originate and how does it work? What is its relation to thought and beyond thought to reality? Questions like these have been at the center of lively debate ever since the rise of scholarly activities in the Islamic world during the 8th-9th century. However, in contrast to contemporary philosophy, they were not tackled by scholars adhering to only one specific discipline. Rather, they were addressed across multiple fields and domains, not less by linguists, legal theorists and theologians than by Aristotelian philosophers. In response to the different challenges faced by these disciplines, highly sophisticated and more specialized areas emerged, comparable to what nowadays would be referred to as semantics, pragmatics and hermeneutics, to name but a few fields of research that are pursued to this day and still flourish in some of the traditional schools. Philosophy of language thus has been a major theme throughout Islamic intellectual culture in general, a theme which, probably due to its transdisciplinary nature, has largely been neglected by modern research. This book brings together, for the first time, experts from the various fields involved in order to explore the riches of this tradition and make them accessible to a broader public interested both in philosophy and the history of ideas more generally.

*The Legal Thought of Jalāl al-Dīn al-Suyūṭī* Rebecca Hernandez, 2017-09-29 This book offers a new theoretical perspective on the thought of the great fifteenth-century Egyptian polymath Jalāl al-Dīn al-Suyūṭī (d. 1505). In spite of the enormous popularity that al-Suyūṭī's works continue to enjoy amongst scholars and students in the Muslim world, he remains underappreciated by western academia. This project contributes to the fields of Mamluk Studies, Islamic Studies and Middle Eastern Studies, not only an interdisciplinary analysis of al-Suyūṭī's legal writing within its historical context but also a reflection on the legacy of the medieval jurist to modern debates. The study highlights the discursive strategies that the jurist uses to construct his own authority and frame his identity as a superior legal scholar during a key transitional moment in Islamic history. The approach aims for a balance between detailed textual analysis and big picture questions of how legal identity and religious authority are constructed, negotiated and maintained. Al-Suyūṭī's struggle for authority as one of a select group of trained experts vested with the moral

responsibility of interpreting God's law in society finds echoes in contemporary debates particularly in his native land of Egypt. At a time when increasing numbers of people in the Arab world have raised their voices to demand democratic forms of government that nevertheless stay true to the principles of Shari'a, the issue of who has the ultimate authority to interpret the sources of law to set legal norms and to represent the voice of Shari'a principles in society is still in dispute. *Ibn Ḥazm of Cordoba* Camilla Adang, Maribel Fierro, Sabine Schmidtke, 2012-12-10 This volume represents the state of the art in research on the controversial Muslim legal scholar, theologian and man of letters Ibn Ḥazm of Cordoba d. 456/1064 who is widely regarded as one of the most brilliant minds of Islamic Spain. Remembered mostly for his charming treatise on love, he was first and foremost a fierce polemicist who was much criticized for his idiosyncratic views and his abrasive language. Insisting that the sacred sources of Islam are to be understood in their outward sense and that it is only the Prophet Muhammad whose example may be followed, Ibn Ḥazm alienated himself from his peers. As a result, his books were burned and he was forced to withdraw from public life. Contributors are Camilla Adang, Hassan Ansari, Samuel Martin, Behloul Alfonso Carmona, Leigh Chipman, Maribel Fierro, Alejandro García Sanjuán, Livnat Holtzman, Samir Kaddouri, Joep Lange, Christian Lange, Gabriel Martínez Gros, Luis Molina Salvador, Peñalosa José Miguel, Puerta Vilchez, Rafael Ramón Guerrero, Adam Sabra, Sabine Schmidtke, Delfina Serrano, Bruna Soravia, Dominique Urvoy, Kees Versteegh and David Wasserstein. **The Anthropology of Islamic Law** Aria Nakissa, 2019-04-05 The *Anthropology of Islamic Law* shows how hermeneutic theory and practice theory can be brought together to analyze cultural, legal and religious traditions. These ideas are developed through an analysis of the Islamic legal tradition which examines both Islamic legal doctrine and religious education. The book combines anthropology and Islamicist history using ethnography and in-depth analysis of Arabic religious texts. The book focuses on higher religious learning in contemporary Egypt, examining its intellectual, ethical and pedagogical dimensions. Data is drawn from fieldwork inside al-Azhar University, Cairo University's Dar al-Ulum and the network of traditional study circles associated with the al-Azhar mosque. Together, these sites constitute the most important venue for the transmission of religious learning in the contemporary Muslim world. The book gives special attention to contemporary Egypt and also provides a broader analysis relevant to Islamic legal doctrine and religious education throughout history.
