Memories Of A Labour Leader:

Memories of a Labour Leader John Wilson, 1980 **Speaking for the People** Jon Lawrence, 2002-05-09 Speaking for the People first published in 1998 draws our attention to the problematic nature of politicians' claims to represent others and in doing so it challenges conventional ideas about both the rise of class politics and the triumph of party between 1867 and 1914. The book emphasises the strongly gendered nature of party politics before the First World War and suggests that historians have greatly underestimated the continuing importance of the politics of place. Most importantly however Speaking for the People argues that we must break away from teleological notions such as the modernisation of politics, the taming of the popular or the rise of class. Only then will we understand the shifting currents of popular politics. Speaking for the People represents a major challenge to the ways in which historians and political scientists have studied the interaction between party politics and popular political cultures.

Memory and Power in Post-War Europe Jan-Werner Müller, 2002-08-29 How has memory collective and individual influenced European politics after the Second World War and after 1989 in particular? How has the past been used in domestic struggles for power and how have historical lessons been applied in foreign policy? While there is now a burgeoning field of social and cultural memory studies mostly focused on commemorations and monuments this volume is the first to examine the connection between memory and politics directly. It investigates how memory is officially recast, personally reworked and often violently re-instilled after wars and above all the ways memory shapes present power constellations. The chapters combine theoretical innovation in their approach to the study of memory with deeply historical empirically based case studies of major European countries. The volume concludes with reflections on the ethics of memory and the politics of truth, justice and forgetting after 1945 and 1989.

Memory and Modern British Politics Matthew Roberts, 2023-12-14 This edited collection explores absence, presence and remembrance in British political culture and memory studies. Comprehensive in its scope it covers the entire modern period bringing together the 19th and 20th centuries as well as Britain, Ireland and the Atlantic World. As the first comparative and in depth study to explore the central and contested place of memory and the invention of tradition in modern British politics, chapters include memorialisation, statue mania, anniversaries and on the wider impact and invoking of dead generations. In doing so this book provides a new, exciting and accessible way of engaging with the history of British political culture.

Parliamentary Debates New Zealand. Parliament, The Intellectual Life of the British Working Classes Jonathan Rose, 2021-06-08 This is a landmark intellectual history of Britain's working classes from the preindustrial era to the twentieth century. Drawing on workers' memoirs, social surveys, library registers and more, Jonathan Rose uncovers which books people read, how they educated themselves and what they knew. A new preface addresses the continuing relevance of the book amidst the upheavals of the present day. An astonishing book. Ian Sansom, *The Guardian*. A passionate work of history. Rose has written a work of staggering ambition. Daniel Akst, *Wall Street Journal*. Winner of the SHARP Book History Prize, the

American Philosophical Society's Jacques Barzun Prize and the British Council Prize co-winner of the Longman History Today Book of the Year Prize for 2001 named one of the finest books of 2001 by The Economist *D, Society, E, Geography*. 1912 William Swan Sonnenschein, 1912 *Historical Memory and Foreign Policy* Lina Klymenko, Marco Siddi, 2022-10-13 This book explores the uses of the past in foreign policy making. It outlines why and how political leaders refer to historical events in contemporary foreign policy discourses, the goals they hope to achieve and the sometimes unintended foreign policy consequences of their abuse of historical memory. Furthermore, it looks at how political leaders shape domestic collective memories in pursuit of their international agendas and highlight historical events leaders forget, reinterpret or obscure through selective narratives. The chapters explore a variety of theoretical concepts that shed light on how memory and foreign policy are linked in a complex and reciprocal way. The following mechanisms are discussed: the application of historical analogies, the construction of historical narratives, the creation of memory sites, the marginalisation and forgetting of the past and the securitisation of historical memory. Through the use of a number of methodological approaches such as discourse analysis, narrative analysis and content analysis of securitising moves and a broad range of qualitative and quantitative data (newspaper articles, policy documents, commemorative speeches, interviews with policymakers and the observation of memory sites), the contributions highlight the interdependence of the international, national, regional and local dimensions of memory practices and history writing. Although they mostly focus on national case studies of foreign policy making, they also reveal how representations of historical events evolve through interaction between political actors at the international level of analysis. The collection originated in the section entitled 'Exploring the Link between Historical Memory and Foreign Policy' at the annual Pan-European Conference of the European International Studies Association (EISA) 2018 held in Prague, the Czech Republic.

Ireland, Memory and Performing the Historical Imagination Mary P. Caulfield, 2014-12-09 This book explores the performance of Irish collective memories and forgotten histories. It proposes an alternative and more comprehensive criterion of Irish theatre practices. These practices can be defined as the rejected, contested and undervalued plays and performativities that are integral to Ireland's political and cultural landscapes.
