**Memphis During the Progressive Era** William D. Vann Woodward, 1981-08-01      **Yellow Fever and Public Health in the New South** John H. Ellis, 2021-12-14 The public health movement in the South began in the wake of a yellow fever epidemic that devastated the lower Mississippi Valley in 1878 a disaster that caused 20 000 deaths and financial losses of nearly 200 million The full scale of the epidemic and the tentative troubled southern response to it are for the first time fully examined by John Ellis in this new book At the national level southern congressional leaders fought to establish a strong federal health agency but they were defeated by the young American Public Health Association which defended states rights Local responses and results were mixed In New Orleans business and professional men reacting to the denunciation of the city as the nation s pesthole organized in 1879 to improve drainage garbage disposal and water supplies through voluntary subscription Their achievements were of necessity modest In Memphis the city hardest hit by the epidemic a new municipal government in 1879 helped form the first regional health organization and during the 1880s led the nation in sanitary improvements In Atlanta though it largely escaped the epidemic the Constitution and some citizens called for health reform Ironically their voices were drowned out by ritual invocation of local health mythology and by unabashed exploitation of the stigma of pestilence attached to New Orleans and Memphis By 1890 Atlanta rivaled Charleston and Richmond for primacy in black mortality rates

That the public health movement met with only limited success Ellis attributes to the prevailing atmosphere of opportunistic greed overwhelming debt economic instability and inordinate political corruption But the effort to combat a terrifying disease not fully understood did eventually produce changes and the vastly improved health systems of today      **Arthur Morgan** Aaron D.
