Men Of Honour A Social And Cultural History Of The Duel:

Men of Honour Ute Frevert, 1995-12-04 This book provides a wide ranging and fascinating history of the duel and its significance from the early modern period to the twentieth century

Fire and Blood Enzo Traverso, 2017-03-28 Europe's second Thirty Years War an epoch of blood and ashes *Fire and Blood* looks at the European crisis of the two world wars as a single historical sequence the age of the European Civil War 1914 1945 Its overture was played out in the trenches of the Great War its coda on a ruined continent It opened with conventional declarations of war and finished with unconditional surrender Proclamations of national unity led to eventual devastation with entire countries torn to pieces During these three decades of deepening conflicts a classical interstate conflict morphed into a global civil war abandoning rules of engagement and fought by irreducible enemies rather than legitimate adversaries each seeking the annihilation of its opponents It was a time of both unchained passions and industrial rationalized massacre Utilizing multiple sources Enzo Traverso depicts the dialectic of this era of wars revolutions and genocides Rejecting commonplace notions of totalitarian evil he rediscovers the feelings and reinterprets the ideas of an age of intellectual and political commitment when Europe shaped world history with its own collapse

Rethinking Emotion Rüdiger Campe, Julia Weber, 2014-06-18 What are emotions where do they originate and how are they brought into being While from antiquity to early modernity affects or passions were mostly conceived of as external physiological forces which act upon a passive subject modern conceptions generally locate emotions within the subject Drawing on the dichotomy of interiority exteriority as a complex interdependent relationship they mostly envision emotions as interior processes Contemporary conceptions of emotion from such different fields as human geography art history and cognitive sciences recently started to challenge this notion of internal emotions by developing alternative descriptions of externalized emotion This book reevaluates premodern modern and contemporary conceptions of affects passions and emotion by analyzing various historical manifestations of the discourse on emotion Unlike most previous research which especially in the German tradition often focused exclusively on the rise of the modern Romantic interiority without paying attention to the underlying dichotomy of interiority exteriority this study aims to explore the historical preconditions the internal logic and the possible shortcomings that inform our thinking on emotion

Work in a Modern Society Jürgen Kocka, 2010-02-01 Whereas the history of workers and labor movements has been widely researched the history of work has been rather neglected by comparison This volume offers original contributions that deal with cultural social and theoretical aspects of the history of work in modern Europe including the relations between gender and work working and soldiering work and trust constructions and practices The volume focuses on Germany but also places the case studies in a broader European context It thus offers an insight into social and cultural history as practiced by German speaking scholars today but also introduces the reader to ongoing research in this field

The Trial of Gustav Graef Barnet Hartston, 2017-11-15 Although largely forgotten now the 1885 trial of German artist Gustav Graef was a seminal event for

those who observed it Graef a celebrated sixty four year old portraitist was accused of perjury and sexual impropriety with underage models On trial alongside him was one of his former models the twenty one year old Bertha Rother who quickly became a central figure in the affair As the case was being heard images of Rother including photographic reproductions of Graef s nude paintings of her began to flood the art shops and bookstores of Berlin and spread across Europe Spurred by this trade in images and by sensational coverage in the press this former prostitute was transformed into an international sex symbol and a target of both public lust and scorn Passionate discussions of the case echoed in the press for months and the episode lasted in public memory for far longer The Graef trial however was much more than a salacious story that served as public entertainment The case inspired fierce political debates long after a verdict was delivered including disputes about obscenity laws the moral degeneracy of modern art and artists the alleged pernicious effects of Jewish influence legal restrictions on prostitution the causes of urban criminality the impact of sensationalized press coverage and the requirements of bourgeois masculine honor Above all the case unleashed withering public criticism of a criminal justice system that many Germans agreed had become entirely dysfunctional The story of the Graef trial offers a unique perspective on a German Empire that was at the height of its power yet riven with deep political social and cultural divisions This compelling study will appeal to historians and students of modern German and European history as well as those interested in obscenity law and class and gender relations in nineteenth century Europe

Origins of English Revenge Tragedy Oppitz-Trotman George Oppitz-Trotman,2019-05-15 Investigates the figures and materials of English tragedyKey FeaturesEstablishes a new approach to the relationship between historical performance and printed literatureComplicates the popular concept of metatheatreOffers boldly original readings of important English tragedies like Hamlet and The Spanish TragedyShows how our encounter with difficulty in the reading of revenge plays can be equivalent to an imaginative confrontation with the contradictions of early modern theatrical actionCharting a new course between performance studies and literary criticism this book explores how recognition of the dramatic person is involved in theatrical materiality It shows how the moral difficulty of revenge in plays like The Spanish Tragedy Hamlet and The Duchess of Malfi is inseparable from the difficulty of discerning human shapes in the theatre and on the page Intervening in a wide range of current debates within early modern studies Oppitz Trotman argues that the origins of English tragic drama cannot be understood without considering how the common player appears in it

Trials of the self
Elwin Hofman, 2021-04-27 This highly original study brings together the disparate histories of murder and enlightenment prostitution and the cult of nature sodomy and sentimentalism in order to retell the story of the making of the modern self It suggests that the history of the self needs to attend more to its class dimensions and puts this insight into practice by examining the influence of the criminal courts in spreading and negotiating changing ideas of the self Using criminal interrogations and witness statements *Trials of the self* shows that an increasing stress on psychological depth in the late eighteenth and early nineteenth centuries was not only important for elites but also for common and illiterate people sometimes even more so

Fear Jan Plamper, Benjamin Lazier, 2012-12-30 This volume provides a cross disciplinary examination of fear that most unruly of our emotions by offering a broad survey of the psychological biological and philosophical basis of fear in historical and contemporary contexts The contributors leading figures in clinical psychology neuroscience the social sciences and the humanities consider categories of intentionality temporality admixture spectacle and politics in evaluating conceptions of fear Individual chapters treat manifestations of fear in the mass panic of the stock market crash of 1929 as spectacle in warfare and in horror films and as a political tool to justify security measures in the wake of terrorist acts They also describe the biological and evolutionary roots of fear fear as innate versus learned behavior in both humans and animals and conceptions of human passions and their self mastery from late antiquity to the early modern era Additionally the contributors examine theories of intentional and non intentional reactivity the process of fear memory coding and contemporary psychology's emphasis on anxiety disorders Overall the authors point to fear as a dense and variable web of responses to external and internal stimuli Our thinking about these reactions is just as complex In response this volume opens a dialogue between science and the humanities to afford a more complete view of an emotion that has shaped human behavior since time immemorial

Jewish Women in Modern Eastern and East Central Europe
Elissa Bemporad, Glenn Dynner, 2022-11-21 This book provides a rigorous social historical study of Eastern and East Central European Jewry with a specific focus on women It demonstrates that only through the experiences of women can one fully

understand key phenomena such as the momentous changes occurring in Jewish education conversion waves postwar relief efforts anti Jewish violence Soviet productivization projects and more broadly the acculturation that animated Jewish modernization Rather than present a scenario in which secularism simply displaces traditionalism the chapters in this book suggest a mutually transformative secularist traditionalist encounter within which Jewish women were both prominent and instrumental Chapter To Write What s This Torture For Bronia Baum s Manuscripts as Testimony to the Formation of a Write Activist and Journalist is available open access under a Creative Commons Attribution 4 0 International license via link [springer com](https://www.springer.com)
