

SELF-CARE FOR MENTAL HEALTH

COMPASSION

Be kind to yourself. Stop judging yourself. Practice positive self-talk.

SELF-CARE

Rest. Pay attention to your self-care battery. Give yourself what you need. Deprivation is not healthy. Make time for yourself.

ACTION

Set boundaries with your triggers. Work on coping skills. Do the work. Follow your treatment plan. Don't give up on yourself.

Redesigning the US Mental Health Care System

Sydney S. Harris, Stephen M. Strakowski, 2024 What is commonly referred to in the U S as the mental health care system is not really a system at all While excellent programs exist in every state in every community across America the system is actually a set of fragmented services provided inequitably by a haphazard array of specialty providers often with inadequate resources and only tenuously connected to health care systems for other health needs Crisis is too often the first point of contact for people experiencing a mental illness while year over year increases in rates of anxiety depression traumatic stress and death from suicide and overdose have led many to characterize the current situation as a pandemic or epidemic of mental illness constituting a national emergency For youth and young adults in late 2021 this emergency was formally

recognized by the U S Surgeon General in the first Advisory ever issued regarding the nation s mental health *Caring for People with Mental Health and Substance Use Disorders in Primary Care Settings* National Academies of Sciences, Engineering, and Medicine, Health and Medicine Division, Board on Health Sciences Policy, Board on Health Care Services, Forum on Mental Health and Substance Use Disorders, 2020-12-30 Behavioral health conditions which include mental health and substance use disorders affect approximately 20 percent of Americans Of those with a substance use disorder approximately 60 percent also have a mental health disorder As many as 80 percent of patients with behavioral health conditions seek treatment in emergency rooms and primary care clinics and between 60 and 70 percent of them are discharged without receiving behavioral health care services More than two thirds of primary care providers report that they are unable to connect patients with behavioral health providers because of a shortage of mental health providers and health insurance barriers Part of the explanation for the lack of access to care lies in a historical legacy of discrimination and stigma that makes people reluctant to seek help and also led to segregated and inhumane services for those facing mental health and substance use disorders In an effort to understanding the challenges and opportunities of providing essential components of care for people with mental health and substance use disorders in primary care settings the National Academies of Sciences Engineering and Medicine s Forum on Mental Health and Substance Use Disorders convened three webinars held on June 3 July 29 and August 26 2020 The webinars addressed efforts to define essential components of care for people with mental health and substance use disorders in the primary care setting for depression alcohol use disorders and opioid use disorders opportunities to build the health care workforce and delivery models that incorporate those essential components of care and financial incentives and payment structures to support the implementation of those care models including value based payment strategies and practice level incentives This publication summarizes the presentations and discussion of the webinars *Behavioral and Mental Health Care Policy and Practice* Cynthia Moniz, Stephen Gorin, 2018-02-13 Cynthia Moniz and Stephen Gorin s Behavioral and Mental Health Care Policy and Practice A Biopsychosocial Perspective is a new mental health policy textbook that offers students a model for understanding policy in a framework that addresses policy practice Edited to read like a textbook each chapter is written by experts on an aspect of mental health policy The book contains two parts Part I chronicles and analyzes the evolution of mental health policy Part II analyzes current policy and teaches students to engage in policy practice issues in different settings and with diverse populations *Achieving the Promise* United States.
