Mental Slavery Psychoanalytic Studies Of Caribbean People:

Mental Slavery Barbara Fletchman Smith, 2018-05-08 *Mental Slavery* is a unique and timely contribution to the field of trans cultural psychoanalysis casting light on an area previously neglected within mainstream psychoanalytic writing The author examines the complex effects of the experience of slavery and its impact on generations of Caribbean people with particular reference to families who have settled in the UK She brings many subtle insights to a fascinating subject drawing on her detailed knowledge of many Caribbean cultures both past and present Through vivid examples from her clinical practice the author argues for a much wider perspective on the issues presented by Caribbean patients and the role played in these by the historical past Misunderstanding of Caribbean patients which formerly had been blamed on racist attitudes on the part of the therapist is here revealed in a new light Although the author does not deny that racist attitudes exist throughout her book she presents a powerful case for a more discerning approach to both the negative and positive aspects of the Caribbean experience

Intercultural Therapy Baffour Ababio, Roland Littlewood, 2019-01-31 *Intercultural Therapy Challenges Insights and Developments* examines the impact of the work of the Nafsiyat Intercultural Therapy Centre in North London which focused on providing free psychodynamic therapy Set up by Jafar Kareem the centre was the first psychotherapy service with the specific task of offering psychodynamic psychotherapy to Britain's Black and ethnic minority population The editors of this book have invited a number of Nafsiyat therapists and colleagues to give their view on what has changed or not changed in regard to the integration of intercultural issues into mainstream therapy Intercultural Therapy will be of interest to all psychotherapists working in multicultural practices as well as practitioners and social workers

Therapy in Colour Various, 2023-06-15 If you are seeking to create a more intersectional anti racist and inter cultural approach to therapy this edited collection emerging from the Black African and Asian Therapy Network is an invaluable resource for your practice This collection covers topics such as the psychological trauma of racism the various barriers to accessing support for mental health and the lived experience of Black African or Asian people in a profession that is still dominated by Eurocentric perspectives training and practice Each contribution further reinforces the importance and benefit of having an intersectional anti racist and inter cultural approach to your therapeutic practice and contains insight from 27 experts in the psychological arena This book is split into four sections the first focusses on colour creativity and anti racist reflections Part two covers training in the psychological field in the past present and future Part three discusses CPD supervision and self care with a specific focus on mental spiritual physical and emotional health and lastly part five centralises therapeutic needs and psychological wellbeing within the context of identity culture and belonging

Transcending the Legacies of Slavery Barbara Fletchman Smith, 2019-03-20 This book puts psychological trauma at its centre Using psychoanalysis it assesses what was lost how it was lost and how the loss is compulsively repeated over generations There is a conceptualization of this trauma as circular Such a situation makes it stubbornly persistent It is

suggested that central to the system of slavery was the separating out of procreation from maternity and paternity This was achieved through the particular cruelties of separating couples at the first sign of loving interest in each other and separating infants from their mothers Cruelty disturbed the natural flow of events in the mind and disturbed the approach to and the resolution of the Oedipus Complex conflict This is traced through the way a new kind of family developed in the Caribbean and elsewhere where slavery remained for hundreds of years

Class and Psychoanalysis Joanna Ryan, 2017-04-21 Does psychoanalysis have anything to say about the emotional landscapes of class How can class inclusive psychoanalytic projects historic and contemporary inform theory and practice Class and psychoanalysis are unusual bedfellows but this original book shows how much is to be gained by exploring their relationship Joanna Ryan provides a comprehensively researched and challenging overview in which she holds the tension between the radical and progressive potential of psychoanalysis in its unique understandings of the unconscious with its status as a mainly expensive and exclusive profession Class and Psychoanalysis draws on existing historical scholarship as well as on the experiences of the author and other writers in free or low cost projects to show what has been learned from transposing psychoanalysis into different social contexts The book describes how class although descriptively present was excluded from the founding theories of psychoanalysis leaving a problematic conceptual legacy that the book attempts to remedy Joanna Ryan argues for an interdisciplinary approach drawing on modern sociological and psychosocial research to understand the injuries of class the complexities of social mobility and the defenses of privilege She brings together contemporary clinical writings with her own research about class within therapy relationships to illustrate the anxieties ambivalences and inhibitions surrounding class and the unconsciousness with which it may be enacted Class and Psychoanalysis breaks new ground in providing frameworks for a critical psychoanalysis that includes class It will be of interest to anyone who wishes to think psychoanalytically about how we are intimately formed by class or who is concerned with the inequalities of access to psychoanalytic therapies or with the future of psychoanalysis

The Work of Whiteness Helen Morgan, 2021-05-30 Whiteness is a politically constructed category which needs to be understood and dismantled because the system of racism so embedded within our society harms us all It has profound implications for human psychology an understanding of which is essential for supporting the movement for change This book explores these implications from a psychoanalytic and Jungian analytic perspective The fragility of whiteness the colour blind approach and the silencing process of disavowal as they develop in the childhood of white liberal families are considered as means of maintaining white privilege and racism A critique of the colonial roots of psychoanalytic theories of Freud and Jung leads to questioning the de linking of the individual from society in modern day analytic thinking The concept of the cultural complex is suggested as a useful means of connecting the individual and the social Examples from the author's clinical practice as well as from public life are used to illustrate the argument Relatively few black people join the psychoanalytic profession and those who do describe training and

membership as a difficult and painful process How racism operates in clinical work supervision and our institutions is explored and whilst it can seem an intractable problem proposals are given for ways forward This book will be of great importance to psychoanalysts psychotherapists social workers and all those with an interest in the role of white privilege on mental health *Internalising the Historical Past* Elaine Arnold, Bernadette Hawkes, 2009-03-26 The Separation and the Reunion Forum has as its aim the raising of awareness on the sometimes traumatic effects of broken attachments separation and loss on families This book is a compilation of some of the papers from their Sixth Annual Conference which addresses the history of the deliberate separation of families through slavery from Africa to the Americas and the Caribbean and the lack of attention to the affective issues on the enslaved It is set in the context of attachment theory and aims to discuss the remnants of the psychological trauma of slavery on the descendants of those who had been enslaved The papers explore the migrants relationships with the past as they struggle to cope with their lives in the present and the need to consider plans for their future in a society which in some aspects retains attitudes and practices regrettably unchanged since emancipation The book aims to inform about the background of African Caribbean people now living in Britain It also aims to promote discussion among those who have experienced separation and loss among teachers social workers probation officers and officers of Youth Offending teams and those who work with individuals of African Caribbean backgrounds It gives information on the concepts of Attachment Theory and gives examples of how counsellors and therapists may utilise these in working with individuals whose present behaviour may indicate the adverse effects of suffered broken attachments separation and loss

Men, Women, Passion and Power Marie Maguire, 2024-11-01 This completely revised edition of Men Women Passion and Power offers a new critique of conventional notions of masculinity and femininity Contemporary psychoanalytic debates about sexuality are explored revealing how the cultural idealisation of men is replicated in theory and clinical practice Illustrated with use of detailed and vivid case material this book demonstrates that it is only when the feminist perspective has been truly integrated into theory that the psychoanalytic project will realise its full radical potential Subjects covered include The power of female sexuality Race class and sexuality The fragility of male sexual identity Envy between the sexes Marie Maguire argues that examining these issues and gaining an awareness of how our assumptions are influenced by social inequalities can enrich the psychotherapeutic process and result in a more balanced psychological relation between the sexes Men Women Passion and Power will be of great interest to psychotherapists psychoanalytic practitioners and anyone with an interest in the integration of a feminist perspective into psychoanalytic theory **Unmasking Race, Culture, and Attachment in the Psychoanalytic Space** Kate White, 2018-04-19 Drawn from the John Bowlby Memorial Conference the theme of this book addresses the often hidden and ignored subject of attachment race and culture Can our individual narratives in relation to race culture and attachment be unmasked in the therapeutic dyad to reveal our human connectedness The contributors explore how the conscious and unconscious meanings of therapists and clients racial and

cultural identities shape the dialogue between them How this emerges for both therapist and client in their work together is illustrated in clinical accounts
