The Mental-cure Warren Felt Evans, 1886 Unconscious Therapeutics; Or, The Personality of the Physician Alfred Taylor Schofield, 1904 **The Mental Cure** Warren Felt Evans, 2012-02

The design of *The Mental Cure* is to explain the nature and laws of the inner life of man and to contribute some light on the subject of Mental Hygiene, which is beginning to assume importance in the treatment of disease and to attract the attention of physiologists. We have aimed to illustrate the correspondence of the soul and body, their mutual action and reaction, and to demonstrate the causal relation of disordered mental states to diseased physiological action, and the importance and mode of regulating the intellectual and affectional nature of the invalid under any system of medical treatment.

Phineas P. Quimby may be regarded as the founder of the New Thought Movement as well as the Metaphysical Movement in America. Credit for the spread of his ideas, however, goes to four others. These were four sick people who sought healing at his hands: Annetta G. Seabury, Julius A. Dresser, Mary Baker Glover Patterson, later Mary Baker Eddy, and Warren Felt Evans. W. F. Evans not only healed but he wrote a great deal. His great distinction lies in the fact that he was the first to write of the new healing and its basis as taught and practiced by Quimby.

The Mental Cure: Illustrating the Influence of the Mind on the Body, Both in Health and Disease, and the Psychological Method of Treatment was Evans' first book, followed by *Mental Medicine: Soul and Body*, *The Divine Law of Cure*, *The Primitive Mind Cure*, and *Esoteric Christianity and Mental Therapeutics*.
