No other text offers the same range of coverage from the core topics of social cognition, attitudes, prejudice and relationships to lesser known areas such as small group phenomena. Includes a host of student friendly features such as chapter outlines, key terms, a glossary, activity questions, classic studies and further reading.

Narratives in Educational Research Eeva Kaisa

Hyry-Beihammer, Outi Ylitapio-Mäntylä, Minna Uitto, 2024-09-24. This edited volume focuses on narratives and diverse narrative approaches in the field of education. It discusses the concept of narrative and its boundaries as well as illustrates in detail the many ways of producing and analyzing diverse narrative research materials. Its chapters provide rich examples of oral, written and visual narratives produced in peer interviews and group discussions as well as via creative writing and photographs. Various narrative ways of analyses are applied. The book reflects on research ethics, the position of the researcher and collaboration between participants and researchers as well as between researchers also cross culturally. By exploring and illustrating innovative ways to conduct research on and with narratives in the educational field, the book is a great resource for researchers and students in the field of education, social sciences and humanities.

The SAGE Handbook of Identities Margaret Wetherell, Chandra Talpade Mohanty, 2010-03-23. Overall its breaking of disciplinary isolation, enhancing of mutual understanding and laying out of a transdisciplinary platform makes this Handbook a milestone in identity studies. Sociology: Increasingly identities are the site for interdisciplinary initiatives and identity research is at the heart of many transdisciplinary research centres around the world. No single social science discipline owns identity research which makes it a difficult topic to categorize. The SAGE Handbook of Identities systematizes this complex field by incorporating its interdisciplinary character to provide a comprehensive overview of its themes in contemporary research while still acknowledging the historical and philosophical significance of the concept of identity. Drawing on a global scholarship, the Handbook has four parts. Frameworks presents the main theoretical and methodological perspectives in identities research. Formations covers the major formative forces for identities such as culture, globalisation, migratory patterns, biology and so on. Categories reviews research on the core social categories central to identity such as ethnicity, gender, sexuality, disability and intersections between these. Sites and Context develops a series of case studies of crucial sites and contexts where identity is at stake such as social movements, relationships, work places and citizenship.
