Manly Meals and Mom's Home Cooking Jessamyn Neuhaus, 2012-03-15 A study of what American cookbooks from the 1790s to the 1960s can show us about gender roles food and culture of their time From the first edition of *The Fannie Farmer Cookbook* to the latest works by today's celebrity chefs cookbooks reflect more than just passing culinary fads As historical artifacts they offer a unique perspective on the cultures that produced them In *Manly Meals and Mom's Home Cooking* Jessamyn Neuhaus offers a perceptive and piquant analysis of the tone and content of American cookbooks published between the 1790s and the 1960s adroitly uncovering the cultural assumptions and anxieties particularly about women and domesticity they contain Neuhaus's in depth survey of these cookbooks questions the supposedly straightforward lessons about food preparation they imparted While she finds that cookbooks aimed to make readers mainly white middle class women into effective modern age homemakers who saw joy not drudgery in their domestic tasks she notes that the

phenomenal popularity of Peg Bracken's 1960 cookbook *The I Hate to Cook Book* attests to the limitations of this kind of indoctrination. At the same time she explores the proliferation of bachelor cookbooks aimed at the man in the kitchen and the biases they display about male and female abilities, tastes, and responsibilities. Neuhaus also addresses the impact of World War II rationing on homefront cuisine, the introduction of new culinary technologies, gourmet sensibilities, and ethnic foods into American kitchens and developments in the cookbook industry since the 1960s. More than a history of the cookbook, *Manly Meals and Mom's Home Cooking* provides an absorbing and enlightening account of gender and food in modern America. An engaging analysis, Neuhaus provides a rich and well-researched cultural history of American gender roles through her clever use of cookbooks. Sarah Eppler Janda, *History Reviews of New Books*. With sound scholarship and a focus on prescriptive food literature, *Manly Meals* makes an original and useful contribution to our understanding of how gender roles are institutionalized and perpetuated. Warren Belasco, senior editor of *The Oxford Encyclopedia of American Food and Drink*. An excellent addition to the history of women's roles in America as well as to the history of cookbooks. Choice

American Home Cooking Tim Miller, 2017-07-01 *American Home Cooking* provides an answer to the question of why, in the face of all the modern technology we have for saving time, Americans still spend time in their kitchens cooking. Americans eat four to five meals per week in a restaurant and buy millions of dollars worth of convenience foods. Cooking, especially from scratch, is clearly on its way out. However, if this is true, why do we spend so much money on kitchen appliances, both large and small? Why are so many cooking shows and cookbooks published each year if so few people actually cook? In *American Home Cooking*, Timothy Miller argues that there are historical reasons behind the reality of American cooking. There are some factors that, over the past two hundred years, have kept us close to our kitchens, while there are other factors that have worked to push us away from our kitchens. At one end of the cooking and eating continuum is preparing meals from scratch: all ingredients are raw and unprocessed and, in extreme cases, grown at the home. On the other end of the spectrum is dining out at a restaurant where no cooking is done, but the family is still fed. All dining experiences exist along this continuum, and Miller considers how American dining has moved along the continuum. He looks at a number of different groups and trends that have affected the state of the American kitchen, stretching back to the early 1800s. These include food and appliance companies, the restaurant industry, the home economics movement of the early 20th century, and reform movements such as the counterculture of the 1960s and the religious reform movements of the 1800s. And yet the kitchen is still most often the center of the home and the place where most people expect to cook and eat, even if they don't.
