New Dimensions Of Political Economy:

New Dimensions of Political Economy Walter W. Heller, 1966 Walter W Heller was Chairman of the Council of Economic Advisers throughout President Kennedy's Administration and during the first year of President Johnson's Here in a book of immediate importance and great vision he examines the profound and rapid changes that are taking place during the 1960's in American economic policy In this decade economics has come of age and the Keynesian revolution has been completed The economic health and stability of the nation are now among the President's major concerns The need to formulate policy in this area has thrust the political economist into a new and leading role as Presidential adviser and Mr Heller is in a unique position to offer an inside account of these developments In his first book since leaving Washington to return to the University of Minnesota he describes the emergence of Presidents Kennedy and Johnson as practicing economists evaluates their economic policies and sketches the patterns that are being established for the future He tells how the grip of economic myths and false fears has been loosened in the government with the result that economic policy is focused on sustaining prosperity without inflation on speeding economic growth and on realizing the fruits of true fiscal abundance Finally Mr Heller for the first time discusses in detail his own plan for revenue sharing a new method of enlarging the flow of Federal funds to the states The plan offers the exciting promise of a stronger fiscal base for our federalism not only by expanding the present system of Federal grants but also when the demands of Vietnam relent by developing new forms of fiscal support for state and local government Parts of this book were delivered by Mr Heller as the Godkin Lectures at Harvard University in March 1966

Heller, 1967 *New Dimensions in Political Economy* Stefano Agnoletto, 2013 **Special Issue New Dimensions in Political Economy**, 2013 New Dimensions of Political Economy Gunther Snatzke, 1966 New Dimensions of Political Economy. (The Godkin Lectures at Harvard University, 1966.). Walter Wolfgang HELLER, 1966 *Non-Mainstream Dimensions of Global Political Economy* Byasdeb Dasgupta, 2013-06-07 The book is a collection of essays written by scholars of global repute in honour of Professor Sunanda Sen Each paper is well researched and offers some new dimension to the understanding of the current global crisis finance and labour including the epistemological viewpoints regarding the current global order The uniqueness of the book is that in one place one can find different heterodox positions dealing with the present global order of finance and labour post Keynesian Marxist etc The contents of the book can be classified into three major sections 1 global finance dealing with current global crisis 2 methodological epistemological concerns in terms of the global crisis and 3 labour in the context of neoliberal global capitalism characterised by the process of financialisation The entire book is an attempt to decipher the meaning and significance the process of financialisation produces for the real economy One of the major conclusions drawn from the different studies in the book relates to the fact that global finance as it has been shaped today cannot be delinked from the question of labour The current global finance regime warrants neoliberal labour flexibility regime the latter guaranteeing

the necessary surplus generation for the pervasive finance This book offers an analysis of current global crisis relating it to the present day global finance and labour in terms of the process of neoliberal financialisation a flexible labour regime It is based on non mainstream heterodox approach in Economics and as such is a critique of the mainstream neoclassical position on current global crisis The contents of the book will be of immense use to the researchers and students dealing with current global crisis global finance and labour
