

Nursing Strategic Plan 2014-2016

This document provides high-level overview of our Nursing Strategic Plan for 2014-2016. The goals outlined in this plan are based on the foundations of our Relationship-Based Care Model and are an extension of Allina Health's mission, vision and values.

Professional Nursing Practice Model

Built on the foundations of the individual relationships nurses establish with patients and families, the Professional Nursing Practice Model incorporates all of the components necessary for the delivery of exceptional nursing care. The diagram of this model provides a visual representation of the fundamental components of nursing practice that are defined in the Allina Charter for Professional Nursing Practice. The model is meant to demonstrate all of the things nurses inherently know as part of their professional practice.

Our guiding principles have been and will continue to be Allina Health's mission and vision.

Our mission

We serve our communities by providing exceptional care, as we prevent illness, restore health and provide comfort to all who entrust us with their care.

Our vision

- Put the patient first.
- Make a difference in people's lives by providing exceptional care and service.
- Create a healing environment where passionate people thrive and excel.
- Lead collaborative efforts that solve our community's health care challenges.

Nursing Administration Strategic Perspectives And Applications

Rosina Ehmann

Digital Health Care: Perspectives, Applications, and Cases Phillip Olla, Joseph Tan, 2022-05-04. Digital Health Care: Perspectives, Applications, and Cases explores the trends, perspectives, and cases of Digital Healthcare and Informatics (DHI) that are transforming healthcare across the globe. Organized in 5 major connecting parts, this well-conceived text begins by laying out foundational DHI themes before focusing in on key DHI core technologies, developments, methods, and challenges from big data analytics, artificial intelligence, to security and privacy issues, clinical decision support systems, consumer health informatics, and more. It then explores DHI emerging technologies, e.g., sensors and wearable electronics, and concludes with short case studies and critical case questions designed to reinforce conceptual understanding. Written for undergraduates, health professionals, this accessible text offers a multidisciplinary perspective that is suitable for use in a variety of healthcare disciplines from allied health and nursing to health administration, public health, and health informatics. Each chapter follows a consistent structure that comprehensively covers a specific DHI topic and related key technological components along with workplace practices from a multidisciplinary perspective. Real-world cases studies in Part 5 help students understand key and illustrate how they can be applied in real-world settings. Clinical innovations and techniques for evaluating clinical outcomes such as improved care performance, improvement, and cost reduction in clinical settings are explored and emphasized throughout the text. Technology and issues that are transforming the health care industry are explored, including standardization, artificial intelligence (AI), cloud computing, medical sensors, enterprise architectures, and precision medicine. Navigate eBook Access included with the printed text provides online or offline access to the digital text from your computer, tablet, or mobile device.

Healthcare Informatics: Healthcare information technology, Healthcare systems analysis and design, Information Systems for allied health, Nursing Informatics. 2023. 350 pages.

An Investigation Into Women's Cognitive Orientations to Leadership Mary Karen Brown, 1994
