Bartlett,1993 This book increases the understanding of the concept and measurement of quality in private nursing homes for the elderly The consumer s perspective of quality obtained from in depth reviews with residents in selected homes in England forms the focus of the book These results are compared with the views of professional care providers and those responsible for the regulation and inspection of nursing home care Helen Bartlett gained a PhD in social policy from the University of Bath and has held research and teaching positions at universities in both the UK and Australia before taking up her current position in the Department of Health Sciences at the Hong Kong Polytechnic **Performance Indicators in Social Care for Older People** David Challis,Paul Clarkson,2017-03-02 The growing focus on performance

review and monitoring means that awareness and use of performance indicators has increased throughout a number of public services. Set within a national context this book reviews the historical development and measurement issues of performance indicators within social care and the public sector for older people. It then provides an approach to effective local performance measurement in services for older people and an organizing framework within which organizations can arrange their performance appraisal for older people's services. The development of performance review in social care of older people is examined as is the process of developing local performance measures and engaging staff in enquiry and quality management. The book also reviews the process of developing performance indicators and their utilization at an agency level. Performance Indicators in Social Care for Older People will be of particular interest in the UK for local service providers who are developing approaches for local performance review. It will also be of interest internationally especially in countries where services for older people are currently developing in a similar direction.
